RE-SURVEY OF HARBOR ASSURED

Oakland Included in the List Affected by House River and Harbor Bill, Asserts Wire From Sen. Johnson

Fund of $1,371,450 Will Be Made Available Under Act for Development Work on the Eastern Side of Bay

Oakland is on the eve of the development of the outer harbor through an appropriation by the government.

This was made practically certain today in the receipt of a wire from Senator Hiram Johnson by Supervisor William J. Hamilton, saying that a re-survey has been agreed upon by the Senate at the behest of Senator Johnson.

"Senate took up Saturday for consideration House of Representatives 10766 Rivers and Harbors Authorization bill and agreed to my amendments that Oakland harbor be included in list of those for which resurveys are asked," was the wire sent by Johnson.

Inasmuch as the bill has received the approval of the House and the approval of the Senate, it now needs only the concurrence of the conferees to start the machinery in operation for a re-survey by the army engineers.

DEAKYNE CONFIDENT PLAN ASSURED.

Colonel Herbert Deakyne, head of the army engineers here and the man who surveyed the original harbor development plan of the government, expressed today the belief that the additional development is assured and that he will be called upon to start his work in the near future.

"The telegram from Senator Johnson would indicate that the re-survey is assured," said Colonel Deakyne, "and, while I have received no instructions to start work, there seems small doubt that it will go through."

That the new work planned by the government will take care of the outer harbor, the western waterfront, was the belief announced by those familiar with the plans of the government. Colonel Deakyne said that he judged the new survey was to be made on the outer harbor but had no definite knowledge.

"I will not know until I receive my orders," said Colonel Deakyne, "but I believe that the outer harbor will be the place affected by the bill."

OUTER HARBOR AFFECTED BY BILL.

It was the outer harbor that was shown to Major General L. H. Beach, head of the army engineers and upon whose decision rests all governmental improvements of this type. Major General Beach visited this city several months ago and made many extensive investigations along the harbor.

At the time he said that he was greatly impressed with the possibilities of the Oakland harbor and felt gratified at the advance made by this city. He prophesied great things for the community in the future and complimented the civic leaders in going slowly in their improvements on the ground that work slowly done is more lasting.

In the original appropriation, calling for improvements in the inner harbor and the expenditure of $1,317,450 which will not be affected by this projected resurvey, first recognition by the government was given to the outer harbor and a small amoun of the money devoted to this development.

CARRIES FUND OF $1,371,450.

This year's rivers and harbors bill carries an appropriation of $31,000,000 and the Oakland item of $1,371,450 is listed as one of the principal ones, ranking along with the Coos Bay harbor and Isthmus Slough in Oregon; the improvement of the Columbia and lower Willamette rivers below Portland, Oregon, and the Sabine-Neches waterway in Texas.

The work outlined in the former harbor program has now been practically completed and the necessary surveys for the new harbor development have been made by Colonel Herbert Deakyne, army engineer. The appropriation for Oakland was decided upon by Major-General Beach, chief of the army engineer corps, following the submission of reports.

According to the present plans, the first money to be expended will be $460,000 and the other work will be done on appropriations to be made when the necessity arises. In addition to the principal sum there will be $60,000 allotted for maintenance.

CUTTING OF GOAT ISLAND SHOALS.

The improvement plan calls for the cutting of the Goat Island shoals, recognition for the first time of the Oakland outer harbor, the widening of the inner harbor, and the widening and deepening of the channel. The proposed improvements, which would also affect Berkeley and Albany, would be proportioned as follows:

Oakland outer harbor, for channel through Goat Island shoal, 30 feet deep and 800 feet wide, nar-

Mrs Bundy Wins; Helen Wills Loses

BY ASSOCIATED PRESS. LEASED WIRE TO TRIBUNE.

RYE, N. Y., July 25.—Mrs. May Sutton Bundy, the famous California player, won two matches in the New York state championship on turf on the Green Meadow club at Rye today. Driving finely in her first appearance in the East, she defeated opponents with the loss of only two games.

Miss Helen Wills, Berkeley, Calif., national girl champion, met defeat. She was outplayed, outspeeded and outstayed by Miss Martha Bayard, junior national indoor champion. The score was 6-3, 4-6, 10-8.

Mrs. Bundy defeated Mrs. R. Stokes, New York, 6-0, 6-0 in the second and in the third round defeated Miss Mary Heaton, New York, 6-0, 6-2.

Miss Percy Wilbourn, New York, defeated Mrs William Henry, Los Angeles, 7-5, 10-8, in the first round.

PRESIDENT'S PHYSICIAN UNDER FIRE

Col. A. A. Sprague, Head of Legion Committee, Accuses Gen. Sawyer With Blocking Hospital Plans

Chief Co-ordinator of Federal Board Is Charged in Letter With Obstructing Care of Disabled Veterans

CHICAGO, July 25 (By the Associated Press). — Colonel A. A. Sprague, chairman of the American Legion's National Rehabilitation Committee, in a letter to Brigadier-General Charles E. Sawyer, personal physician to President Harding and chief co-ordinator of the Federal Board of Hospitalization, made public today, charges General Sawyer as standing in the way of proper care for wounded and shell-shocked veterans, and holding up hospital plans voted by Congress.

"I recognize the fact," Colonel Sprague wrote to the President's physician, "that, before becoming chief co-ordinator of the Federal Board of Hospitalization, you had no contact with the men and women who were serving in the army and navy during the war and no experience either in the field, or in government service, that would give you a chance to really know how men feel who lose their nerve, their health and their minds in devotion to duty, or how their families look upon these men who went out in the strength of their youth to invest their life in their nation's service."

ASKS SAWYER TO STAND ASIDE.

Appealing to General Sawyer to "stand aside," Colonel Sprague said: "Over 4500 mental cases are still confined in contract institutions, and that of the remaining 4715 victims of mental disorders, only 3500 are in government institutions, devoted entirely to their care."

Quoting from a letter received from General Sawyer, in which the chief co-ordinator said, "I am convinced that the peak of hospitalization has been passed," and that the government had sufficient beds, except in two districts, Colonel Sprague replied:

"It is almost unbelieveable that, having satisfied Congress that these hospitals are needed, and that they should be built to capacity, we now have to reply to your statement that they are unnecessary.

LEGION REPLY STRONGLY COUCHED.

"The reply of the American Legion and every real American is, 'Give these men the best care that medical science can provide in government institutions maintained at the highest standard equipment and administration, and near to their own homes, so that, if rehabilitated, they can be returned to civil life with greater ease, and if doomed to hospitalization they can be nearest those whom they love best.'"

The controversy between General Sawyer and the Legion official is the outgrowth of a letter written by the General July 12 to Colonel Sprague, dealing with the Legion's demands for hospital care of the wounded, under the Langley appropriation bill.

After discussing the possibility of converting more wooden barracks at the Great Lakes Naval Training Station to provide relief in this district, General Sawyer wrote to Colonel Sprague:

"Think this matter over. Look at it entirely in an unbiased, unprejudiced way. I do not mean, under any condition, to be offensive to you. I like your spirit, your determination, your enthusiasm and your interest."

REPLIES TO CHARGE OF BEING MERCENARY.

Replying to charges that he was "penurious and mercenary," General Sawyer said:

"God forbid that a dollar should ever be considered in comparison with the results we are seeking for the world war veterans, but at the same time let me say that it is our duty to oppose wastefulness and senseless expenditure wherever it is found possible to do so.

"Because we have money is no reason why we should waste it. Because the Langley bill has given us these millions of dollars, not mandatory, thank heaven, to use, let us be careful in the disposition of it."

To this Colonel Sprague replied: "If there ever was a bill which carried a moral mandate to the government it is the second Langley bill. The Legion fought to have the money appropriated under this bill awarded to the veterans' bureau. We won in this fight. It was a fight against your effort, against your appeal, to have this money awarded to the federal board of hospitalization, of which you are

(Continued on Page 2, Col. 3)

tion party to sustain the government in opposition to what it terms the commission's exaggerated demand. The government claims that Bulgaria is unable to pay the sum and is unwilling to abandon her customs commission, although expressing a willingness to pay within her capacity.

CARDINALS DEFEATED BY GIANTS, 9 TO 8

New York Giants and St. Louis Hook Up for First of Five Games for the National League Bunting

Only One Point Separated the Teams for Supremacy; Tony Is Found Easy at the Beginning of the Game

NEW YORK, July 25.—The New York Giants defeated the St. Louis Cardinals today, 9 to 8.

BY ASSOCIATED PRESS. LEASED WIRE TO TRIBUNE.

NEW YORK, July 25.—The New York Giants and St. Louis Cardinals hooked up today in the first game of a five game series which will have an important bearing on the National League race. The Giants came back from a western trip in which they split even on twenty games with their lead cut down to one point.

Fred Toney, who won the only New York victory from St. Louis while the Giants were in St. Louis, started the game for the Giants. He was opposed by Bill Doak, St. Louis, Spitball pitcher.

A twenty thousand crowd was out for the game.

The line up:

Giants—Bancroft, ss.; Rawlings, 2b.; Frisch, 3b.; Meusel, lf.; Young, rf.; Kelly, 1b.; Stengel, cf.; Snyder, c.; Toney, p.

Cardinals—Flack, rf.; Smith, cf.; Hornsby, 2b.; Meuller, lf.; Fournier, 1b.; Stock, 3b.; Clemons, c.; Lavan, 2b.; Doak, p. Umpires, Klem and Sentelle.

TONEY IS EASY FOR CARDINALS.

Toney was easy for the Cardinals in the first inning, St. Louis starting off with three runs. Flack walked and Stole second. Umpire Klim disregarding the claim of the Giants that Smith had interfered with Snyder.

Smith also walked. Hornsby singled to left, driving in Flack and advancing Smith to third. Mueller's sacrifice fly to Young drove Smith home, Hornsby taking third after the catch. Fournier singled to center, scoring Hornsby third after the catch. Stock saved the Giants by hitting into a double play.

The Giants were easy in their half of the first. Rawlings singled with one out, but Frisch flied to Flack and Meusel forced Rawlings at second.

Toney went back in the second, retiring the side in order. Clemons and Lavan went out on outfield flies and Doak fanned.

GIANTS SCORE ONE IN SECOND INNING.

The Giants scored one run in their half of the second, when Young, first man up, hit a home run into the left field bleachers.

Kelly followed with an infield single, but Stengel hit into a double play, Fournier to Lavan.

Toney again retired the side in order in the third, Hornsby going out on a long fly, which Stengel caught in front of the centerfield bleachers.

Doak continued to hold the Giants in check in the New York half of the fourth. Young was hit in right arm with one out, but Kelly fanned and Stengel grounded to Hornsby.

Toney turned St. Louis back in order in the fifth. Lavan flied to Stengel. Bancroft took care of Doak's pop fly and threw Flack out at first.

Stock, first Cardinal up in the seventh, singled, but Bancroft's magnificent stop on Clemons' resulted in a double play. Lavan walked and North flied out to Young.

In New York's half, Young singled with one out, and took second on Smith's fumble. Kelly then flied and Lavan tossed out Stengel at first.

St. Louis added a fourth run in the eighth. Flack singled and after Smith flied to Smith, Hornsby advanced Flack to third with a double to left. Mueller's sacrifice fly to Meusel scored Flack, but Fournier popped to Kelly.

Helflin Attacks Reserve Board Acts

WASHINGTON, July 25. — (By International News Service.)—Charging that the federal reserve board, "acting in conjunction with Wall street," and the moneyed interests, was seeking to "throttle and influence" Congress and the newspapers, Senator Heflin, Democrat of Alabama, continued his attacks on the Senate this afternoon for having authorized the distribution of a speech made several months ago by Senator Glass, Democrat of Virginia, in answer to Heflin's criticism of the board.

Interstate Board Seizes Traffic Control

U. S. Deputies To Guard Bay District

NATIONALIZE COAL MINES, BORAH ASKS

Measure in Senate Proposes Board to Report on U. S. Regulation of Industry, Output, Costs and Wages

Union Leader, Operator and Neutral Chosen by Harding Advocated for Probe; Standardization Is Sought

NEW YORK, July 25.—(By International News Service.)—It was understood on reliable authority this afternoon that there will be a joint conference of bituminous mine owners and striking miners in Cleveland, O., on Saturday, when an effort will be made to reach a common basis of agreement. According to the information, participation by representatives of the miners is being arranged by T. Lee Hall, president of the state organization of miners in Ohio.

WASHINGTON, July 25.—(By the Associated Press.)—Creation of a Federal Coal Commission of three members appointed by the President to investigate the coal industry and recommend legislation to Congress was proposed in a resolution introduced today by Chairman Borah of the Senate Labor committee.

Recommendations would be required from the commission "on the advisability or necessity of nationalizing the coal industry," and "the feasibility or necessity of governmental regulation and control of the coal industry."

Other points on which recommendations are called for in the bill include:

STANDARDIZED LIVING COSTS, CONDITIONS SOUGHT.

Standardizing the mines upon the basis of their productive capacity and regarding the closing down of mines that, by reason of their natural limitations, fall below the standard.

Standardizing the cost of living for mine workers and the living conditions which must be supplied or afforded, in order to surround the workmen with reasonable comforts; recognizing the psychological effect of such surroundings in respect to their efficiency.

Standardizing a basis of arriving at the overhead cost of producing the coal and delivering it at the door of the consumer.

A report from the commission, to be known as the United States coal commission, would be required within nine months. Its findings would be made public only through reports to Congress.

Senator Borah proposed that one of the commission members be appointed from a list of nominees by the national coal appropriation, another from a similar list from the United Mine Workers, and the third, representing the public, to be appointed by the President, and "in no wise interested in a business way with the coal industry."

By WARREN W. WHEATON, International News Service Staff Correspondent.

WASHINGTON, Pa., July 25.—Faced by Federal control of the mines, operators in the union districts of southwestern Pennsylvania today redoubled efforts to reopen the strike-bound mines.

With the first day of attempted reopening fruitless, plans were speeded, following a conference of operators and State and county peace officers, to augment the armed forces sprinkled over a wide area in this section, as an added incentive for men to go to work.

Strikebreakers by the carload are expected to be imported into the fields. Some already have been brought in. Troop movements to mining properties were under way today.

Activities of striking miners have led to injunctions restraining them from picketing the mines and interfering with resumption of work. In retaliation, the miners' union has secured an injunction against the mine guards trespassing on miners' property at the Youngstown Sheet & Tube Company's working at Nemacolin, Greene county.

Grass Fire Menaces Two Auto Plants

Nearly a hundred acres of grass burned in the vicinity of the Sturges Rubber company and the Chevrolet and Fageol Motor company's plants today, threatening the three institutions. The blaze was fought by several companies from the Oakland fire department, under the direction of Fire Chief Samuel Short. The fire was of undetermined origin and traffic along the Foothill boulevard was blocked for several hours while the firemen fought the flames.

"PUBLIC EMERGENCY" PROGRAM EFFECTIVE EAST OF MISSISSIPPI

Roads Ordered to Disregard Present Schedules and to Furnish All Possible Cars for Coal Transport

PRIORITY DELIVERIES FIXED

WASHINGTON, July 25.—(By the Associated Press).—The Interstate Commerce Commission today declared that an emergency existed in transportation in territory east of the Mississippi river which required it to direct routine of shipments of all essential commodities and to fix preference and priority for the movement of food, perishable products, coal and other fuel and livestock.

The commission declared that in view o the emergency cars for the shipment of coal should be assigned to railroads on the basis of preference in coal shipments to the railroads and other common carriers with public utilities and hospitals in a second-class and government institutions, national, state and local, in a third class.

ROADS ORDERED TO DISCONTIUE SCHEDULES

In a second general service order, issued under its emergency declaration, the commission required that all carriers in routine shipments disregard the usual practice and forward traffic to destinations by the routes that are most available to pedite movement and prevent congestion.

The roads were further directed to disregard existing traffic arrangements and freight rate divisions in applying the rule and to discontinue using cars suitable for coal for any other purpose so long as any coal mine remains without cars for its operation.

CALLED TO DELIVER CARS TO COAL LOADING ROADS

All railroads not serving coal mines themselves were ordered to deliver empty coal cars to coal loading railroads as fast as they became available and without any delay or diversion.

Public utilities which the commission placed as entitled to coal supply after railroad fuel were defined in the order as street and interurban railways, electric power and light, gas, water and sewer works, ice plants serving the public generally or refrigerating foodstuffs and hospitals.

By GEORGE E. HOLMES, International News Service Staff Correspondent.

WASHINGTON, July 25.—Active steps to put the nation on a coal rationing basis in the present industrial crisis caused by the twin rail and coal strikes were taken here this afternoon. As a first preliminary the Interstate Commerce Commission issued a decree declaring a public emergency to exist on all roads east of the Mississippi, effective tomorrow, July 26, and continuing in effect until further notice.

Within an hour after the commission had taken this step the half-hundred producing coal operators in conference with Secretary of Commerce Hoover announced their unanimous acceptance of the plan he has proposed to establish priority in coal shipments and to prevent profiteering

WASHINGTON, July 25. — (By United Press).—President Harding has failed in another attempt to settle the coal strike, it was revealed officially at the White House today.

The President, after the rejection of his first proposal, submitted to the warring factions still another plan for solution of the present

(Continued on Page 2, Col. 4.)

Roads Create "Company Unions" As Rival to Outlawed Strikers

CHICAGO, July 25.—All chance of further spread of the railroad strike was squelched today when the general chairmen of the Brotherhood of Clerks and Freight Handlers, meeting here, agreed to hold up any further orders for walkouts.

Strikes of clerks and freight handlers have already been ordered on a few roads.

The labor board announced that with the clerks' decision, all unions which have taken strike votes and threatened a walkout, had agreed to hold up immediate action in sympathy with the shopmen's strike.

WASHINGTON, July 25. — The Railroad Labor board remains the only agency through which the government can and will deal with the railroad strike situation, though President Harding is continuing to hold himself in contact with all actions which the board takes in the matter, it was said today at the White House.

CHICAGO, July 25 (By International News Service).—Western railroads, it is expected today, will follow the example of eastern lines and begin organization of "company unions" to replace the organizations of shopmen who are on strike. The movement for formation of "company unions" is believed to indicate that the roads are preparing for a prolonged fight and have no intention of yielding to the demands of the strikers.

Although no one in authority would comment on that phase of the question, it was reported today that the resolution of the labor board "outlawing" the striking shopmen had arisen as one of the chief obstacles to settlement of the strike.

It was contended unofficially in union circles that the railroads were taking advantage of the resolution as a means of eliminating the existing organizations and building up "company" bodies more amenable to the desires of the managements.

The question of restoration of seniority rights, it was declared, has been thrust forward by the roads as a "smoke screen" behind which to hide while new organizations of employees are being built up.

The new railroad labor unions proposed by the carriers will be recognized by the Railroad Labor Board whenever they come before that body with a dispute, providing they can prove to the board that their membership contains a majority of the men then at work on the roads affected, board members said today.

These members explained that under the transportation act the board has no alternative in the matter. The act, it was explained, provides nothing which would justify the board in taking any action toward recognition until the unions in question officially appear before the board in a plea for rsettlement of a dispute between them and the carriers.

The board then would investigate to find if the labor organizations appearing were properly organized and representative. The term "representative" was defined as meaning that the organization appearing was made up of a majority of the workers of its class then at work on the road implicated—regardless of how many men normally are employed or have been employed in the past.

Chairman Ben W. Hooper of the labor board reiterated today his statement that the board has no plans on foot for settlement of the strike. It was reported, but not officially confirmed, however, that Hooper and Jewell were in secret conference today. Neither Hooper nor Jewell denied the report.

Further curtailment of traffic as a result of the strike was reported today in the announcement by several roads of discontinuance of trains. The Grand Trunk announced the suspension of four trains and two trains were taken off by the Chicago and Northwestern.

Six trains were annulled by the Soo line, the Great Northern and the Northern Pacific and it was announced that in North Dakota three-day-a-week service will be inaugurated on several branch lines. auto trucks being used on intervening days to transport mail. Several additional suspensions have been announced by the Pere Marquette.

MOB AT SAN BERNARDINO RAIDS TRAIN

Federal Force Summoned to Protect Workers After the Crowd Fires on Coaches Bringing Men to Shops

Torpedo on Track Halts the Crew During Night; Deputies Are Struck Defending Imported Men from Attack

Efforts to ward off possible violence at the railroad centers in Northern California were being made today by the United States Government through the offices of United States Marshal James Holohan.

The marshal has responded affirmatively to a wire from the Federal government asking whether or not he deemed it advisable to create a number of deputy marshals. This was admitted in unofficial circles this afternoon, although Marshal Holohan declined to comment on the matter.

It is reported that the plan to create new deputy marshals is due to intimations of violence in the Eastbay district. It was said that the trouble in the south has precipitated action in Northern California.

BY INTERNATIONAL NEWS SERVICE. LEASED WIRE TO TRIBUNE.

SACRAMENTO, July 25.—Governor W. D. Stephens was expected on his arrival here today to make a full investigation of reports from San Bernardino that a Santa Fe passenger train was fired upon by striking shopmen and that deputy United States marshals had great difficulty in handling the situation.

It could not be learned early today whether Governor Stephens would consider ordering out troops.

BY ASSOCIATED PRESS. LEASED WIRE TO TRIBUNE.

SAN BERNARDINO, July 25.—Santa Fe passenger train No. 21, carrying twenty-nine workers for the Santa Fe shops here, was fired on late last night and a crowd of three hundred strikers and sympathizers attempted to storm the train on its arrival at the depot.

DEPUTIES STRUCK DOWN IN FIGHT WITH MOB.

Deputy U. S. Marshals drew their guns in the fight with the crowd. Two marshals were knocked down.

One man was placed under arrest by the marshals. Strikers obtained a warrant for the arrest of a deputy marshal, charging that he used undue violence. The removal of one police officer will be demanded by Deputy Greenwood, he announced. The officer was alleged to have released the striker arrested by a deputy marshal and turned over to the police for temporary custody.

First effort to halt the passenger train was made at Highland avenue, north of San Bernardino, about 10 o'clock. A torpedo was placed on the tracks here. About 25 men had gathered at this point. The engineer slowed down the train. At Sixth and I streets, within the heart of the residence district of the city, a crowd of between 100 and 150 persons gathered, many of them on the track. A signal torpedo was again exploded. Shots were fired from the crowd into one of two darkened coaches in which workers were riding. When the effort was made to stop the train at Highland Junction, lights in the two coaches were put out and the workers ordered to the floor.

WORKMEN RUSHED TO SAFETY OF SHOP.

As soon as the train reached the station, half a mile from the point where shots were fired, the two coaches were taken by a switch engine and hurried to the foot of a viaduct which crosses the tracks into the shop stockade.

The crowd of strikers and sympathizers reached the viaduct just as the last worker reached the viaduct steps. A shout went up from the crowd. Deputy marshals and police ordered the crowd back from the Santa Fe property. There were several encounters between officers and men before the property was cleared.

A 16-year-old son of a striker, who was with his mother in the crowd, was slightly injured from blows on the head.

Ten days ago one train was searched by a band of armed men believed to be strike sympathizers, in Cajon Pass, which is about 20 miles east of here. At that time the situation was reported tense, and the mayor and sheriff at San Bernardino requested that Governor Stephens send troops thither.

HARBOR SURVEY ASSURED WITH FEDERAL ACTION

Oakland Port Development Work Listed in River and Harbor Bill.

(Continued from Page One)

rowing to 600 feet at the end of the Oakland jetties, $34,650.

On the inner harbor for a channel from the outer end of the jetties to Webster street, 30 feet deep and 600 feet wide, generally, and widening in front of the municipal wharf to the pier head line, $468,-900.

On the south channel, Brooklyn basin, for dredging to the extent of 30 feet deep and 500 feet wide, $526,600.

On the turning basin at the east end of Brooklyn basin to make it 30 feet deep, 500 feet wide and 1200 feet long, $116,100.

For dredging the tidal canal channel to Park street to provide a depth of 30 feet wide and a width of 275 feet, $225,200.

WORK CONTINGENT ON DIKE PLAN.

'All of this work was first made contingent on the willingness of local interests to construct and maintain a dike across the north channel in Brooklyn basin and to provide free of any cost to the government any necessary right of way for dredged channels and suitable dumping grounds for material dredged during construction and maintenance.

Agreement to co-operate to this extent was immediately made by the local interests.

Directly afterward, the removal of the bridges at Webster and Harrison streets and their replacement by a bascule bridge was demanded by the government before work would start on the appropriations. At the present time the board of supervisors is endeavoring to live up to this section of the agreement and make the change within the specified time, according to statements from the members of the board.

Whether or not the bridges now operating will be abandoned in favor of a bascule bridge or a tube under the waters of the estuary is being discussed. The tube is favored by shipping interests located along the estuary, but legal difficulties have been experienced in the bond issue which calls for a bridge.

The district attorney's office has ruled that the money set aside by the voters in the bond issue for a bascule bridge cannot be converted for the use of the tube without a special authorization from the voters.

"Greeters" Leave S.F. Tourist With Only Beeveedees

LOS ANGELES, July 25.—(By the Associated Press).—Roy Stewart of San Francisco appeared at the Hollywood police station in his shoes and his underwear and reported that upon his arrival here last night he was met at the railroad station by three men who announced they formed a "courtesy" committee to welcome strangers.

They took him to dinner, Stewart said, promised him a job, took him for an automobile ride, took two revolvers out of their pockets, took $175 from him and then took his watch, chain, suitcase and clothes.

Shops in Shipyards To Repair Engines

NEW YORK, July 25.—The use of shipyard machine shops for repairing the rolling stock of the railroads in the United States is the latest development in the strike of the shopmen.

Some repair contracts are reported already to have been let, and a general survey of shipyards plants is being made, according to A. H. Robinson, president of the Merchants Shipbuilding corporation, of Chester, Pa.

The shipyards of the New York Shipbuilding company at Camden, N. J., the Todd yards in Brooklyn, and yards at Cleveland, Ohio, Norfolk, Va., and Chicago were mentioned by Robinson as capable of use by the railroads.

Strike leaders say shipyard workers will refuse to co-operate in an effort to take work from the railroad shop crafts.

John G. Walber, spokesman for the railroads, on the other hand, declared that union men in the Schenectady shops had refused by a 3 to 1 vote to strike against doing railroad repair work. He said that other shops were displaying the same temper against the efforts of the strikers to involve them in the dispute with the railroads.

HURT IN FALL

Mrs. F. J. Johnston, 176 Lake street, is recovering today from injuries received last night when she fell down the stairs of a Broadway cafeteria. The woman is 76 years old.

LEGION LEADER SCORES STAND OF COL. SAWYER

President's Physician Is Accused of Delaying Hospitals for Soldiers.

(Continued from Page One)

chief coordinator. We were disgusted with the delays in the expenditure of the former appropriation of $18,600,000. We did not want similar delays in the expenditure of this new appropriation.

"This program is now being curtailed and delayed. The beds for nervous and mental patients have already been reduced to 1270 from the 3800 beds to be provided by that program.

"When we remember these recommendations were based upon money available, and not upon needs, we claim that such a reduction is absolutely inconsistent with an honest attempt to provide permanent care for this class of patients.

"You say: 'Up to the present the whole subject of the world war veteran has been one largely of sentiment by many people. A year and a half ago there were not minutes enough in the day to give attention to people who were here sympathizing with the world war veteran. Today the story is very different.'

"I maintain that the first interest of every citizen of this country, as it is the first purpose of the American Legion, is to secure the fairest and best treatment possible for our men and women who are suffering from services rendered to our country under the colors in war.

"You also say, 'I am opposed to the domination of people outside of the government forces in this matter. I regard, and always will regard with the greatest respect, the opinions of any who have opinions to offer, and they will all be considered when occasion demands, but if the government is to be influenced by outside organizations, associations or specialists' committees, they will continue to be in trouble.'

"Your opposition to the government being influenced 'by outside organizations, associations or specialists' committees' exists, in spite of the fact that every bit of legislation now in effect for the disabled veterans was put through Congress by the American Legion. It was in correction of miserable neglect. It still fails to achieve for the veteran what the country desires he should have. This failure, we are convinced, is not due to the interference of organizations which are seeking honest, constructive co-operation with the government, but to the constant injection of obstacles to the programs agreed upon, such as your failure to understand and interpret it in a helpful manner."

Rail Commission To Control All Traffic in East

'Public Emergency' Declared to Exist; Priority Lists Put Into Effect.

(Continued from Page One)

tieup and troublesome conditions in the mining industry.

The President suggested that the operators agree to award additional prices for each day under 289 days that the miners would be idle each year.

His plan was thus to stabilize working conditions in the industry and provide a solution for some of the fundamental economic troubles of the miners, including irregular employment and an oversupply of miners.

The President's proposal did not prove acceptable to the majority of either operators or miners.

WASHINGTON, July 25. — The Federal Government is prepared to take charge immediately of any coal district in which the operators refuse to co-operate with the government in the prevention of profiteering, Secretary of Commerce Hoover warned today.

It was stated that the government is determined to use all its powers to check the climbing coal prices and the refusal of operators to accept the Hoover plan under which coal prices are to be kept at a maximum of $3.50 a ton at the mines would result in the appointment of a government commission to enforce such a price.

A nation-wide system by which all profiteering in coal will be reported to the Federal Government has been established by Secretary Hoover.

One of the first complaints received by Hoover revealed a case of flagrant profiteering. A price of $13 a ton was being charged for coal in one part of the Kentucky fields, as compared with $3.50—the maximum price which Hoover is seeking to establish through voluntary agreements.

S. P. Striker Held On Charges in Row

Pete Champris, a striking employee of the Southern Pacific Company, is in the city prison facing two separate charges of battery and one charge of disturbing the peace.

He is accused by Mrs. Rose Ambrose, 410 Brush street, as the man who tore her fur from around her neck, cutting her throat in several places. According to Prosecuting Attorney Fred Donahue, Mrs. Ambrose was walking down the street with her husband, who is an employee of the Southern Pacific Railroad Company. Her husband left her and then she claims that Champris grabbed her fur and in doing so the hook cut her throat. She swore to the complaint charging him with battery. On that charge his bail was set at $250.

Champris' troubles started when he was arrested by Sergeant A. B. Smith and Policeman A. C. Anderson on a charge of disturbing the peace. According to their report he was pursuing G. F. Lindberg, 1508 Harrison street, who is employed by the company as an air brakeman, when the officers arrived. This morning Lindberg swore to a complaint charging him with battery. On the disturbing the peace charge his bail was set at $25 and on the other battery charge $30 was the amount set.

Worker in Missouri Given Coat of Tar

SLATER, Mo., July 25 (By International News Service). — A party of men rushed the east wing of the Chicago & Alton railroad shops early today, carried off Joe Ward, a worker, and applied a coat of tar and feathers.

Ward was found sometime after the attack in a serious condition and was taken to a hospital in Kansas City.

Striking Shopmen in Bakersfield Protest

BAKERSFIELD July 25.—Sixty-five striking shopmen protested to the Bakersfield City Council at its regular meeting last night concerning the presence of "an undesirable classe of men that had been brought to Bakersfield by the railroad companies."

The strikers said that some of the out-of-town workers had flourished guns and menaced the shop-

SENIORITY CHIEF PEACE BAR, SAY LOCAL STRIKERS

Men Returning for Work at Mercy of Railroads, States Leader.

With the waiving of seniority rights now regarded as the only large issue standing in the way of a settlement of the nation-wide strike of railway shopmen, local strike leaders today declared that such action would put their men at the mercy of the railroads, and will not be considered.

The crux of the seniority question, it was asserted by leaders of the Eastbay railway shopmen, lies in the fact that as "new men," without seniority rights, 60 per cent of the strikers would be ineligible to re-employment because of the 45-year age limit, while the remaining 40 per cent would be at the mercy of those conducting the medical examinations, which they would have to take as new employees.

"This would mean that the railroads could take as many of us as they wanted and refuse to take the rest," said Samuel McAdam, member of the executive board of the Eastbay strikers. "We cannot afford to take such chances and we will not settle the strike on such a basis."

That President Harding had submitted charges against the railroads to Attorney-General Daugherty a month ago, recommending that prosecution follow, and that these charges have been "pigeonholed" by the attorney-general was the assertion of Benjamin Marsh of Dubuque, Ia., president of the Farmers' National Council, who addressed the Eastbay railroad strikers at a mass meeting held at U. P. E. C. hall, Seventh and Henry streets, last night.

Marsh said he had personally presented the charges, which involved alleged excessive rates, to President Harding, and that the President had assured him he would transmit them to the attorney-general for prosecution. Marsh since received notice, he said, from the President's secretary, that the charges had been sent to the attorney-general, but that no action had since been taken.

Rev. Charles Mundell, pastor of Grace Congregational church, who was one of the principal speakers at the mass meeting, declared that during an automobile tour which he had just completed through a large portion of the state he had found the public to be strongly in sympathy with the striking shopmen.

This had been the attitude expressed, he said, in churches and civic organizations everywhere that he had spoken. He visited most of the important cities and towns between Oakland and Los Angeles, Rev. Mundell said.

Assertions that in spite of the effect of the present strike upon men who were on strike.

Mayor Hougham told the delegation that the Council would conduct an investigation, and that if the charges of the shopmen could be substantiated, the men complained of would be treated "as any other vagrants coming to the city."

the movements of crops and perishable fruit, the small farmers of the country are in sympathy with the cause of the striking shopmen, were made by Marsh and by other speakers at the meeting.

"The protests to state authorities which have been made by several fruit growers' associations have been fomented by minor officials of the railroad companies, who have attended the association meetings," McAdam asserted. He said this had been shown by investigations made by leaders of the striking shop crafts.

Wanamaker Scion Robbed of Bracelet

BY ASSOCIATED PRESS.
LEASED WIRE TO TRIBUNE.

PARIS, July 25.—Mrs. Guernee Munn, daughter of Rodman Wanamaker of New York, has been robbed of a platinum bracelet set with gems valued at 250,000 francs, according to an announcement of Le Journal today. Several of the cleverest detectives of Paris have been assigned to the case, but so far they have developed no plausible clews.

STATE FARMERS FACE CROP LOSS WORTH MILLIONS

Distress of Fruit Growers Is Shown in Plea for Aid in Moving Products.

SACRAMENTO, July 25.—Following a conference here yesterday afternoon between Arthur Keetch, secretary to Governor W. D. Stephens, and members of a committee of five representing fruit growers and shippers in the San Joaquin valley, at which a request was made that something be done to keep the fruit moving, the delegation decided to remain here until the arrival of the governor today.

Members of the committee told Keetch millions of dollars' worth of property was being imperiled by the strike of the railroad shopmen. No request was made for troops, according to Keetch.

Only national action will avail to avert several hundred million dollars' loss to farmers of California, and state action alone would be futile, Dr. W. H. Walker, president of the California Farm Bureau, declared in a formal statement made public after a meeting with representatives of the fruit growers. The state and national farm bureaus were given a vote of confidence by the growers.

Walker said in part:

"If the governor of California were able to break the California strike and we were able to move fruit and produce out of California, nothing could be accomplished unless we could move this produce beyond the borders of the state to where the markets could be reached.

"We are in entire sympathy with the farmer who is standing idly by and sees his crop going to ruin, and would, if we could, bring about an immediate settlement of the controversy; but we also recognize that when it is settled it should be settled in a manner to prevent its periodical recurrence in the industrial world.

"We urge all parties in this controversy speedily to adjust their differences that the farmer may not be forced to ruin while he is being urged to remain inactive or neutral."

Hearings Begun in Trust Law Case

SAN FRANCISCO, July 25.—The preliminary hearing of charges of violating the Cartwright anti-trust law by restraining trade, directed against 67 building material men and ten corporations, is under way. Six witnesses were heard yesterday afternoon and others were on the stand today.

The charges grew out of a complaint filed by A. Lettich, contracting plumber, who asserts that a combine had been formed against him to deprive him of the right to purchase materials because he had refused to comply with the American plan. Several of the witnesses have already testified that they had seen the "blacklist," which contained the names of contractors who had refused to comply with the American plan.

Campaign Grows Apace to Save Sequoia Grove

Civic Organizations Join in Drive; Giant Banner Urges Support.

"Save Oakland's Sequoias. Vote 'YES' on the Memorial Park Bond Issue, August 29."

This is the message to the people of Oakland on a huge banner stretched across the street at Fourteenth and Broadway between the First National Bank building and the Realty Syndicate building, the heart of Oakland. In the center of the banner is a drawing of a giant Sequoia with the letters "S. O. S.," the emblem worn by the members of the Save Oakland's Sequoias league.

Marston Campbell of the Oakland park board will tell the story of "Save Oakland's Sequoias to members of the Oakland Advertising club. Campbell is a member of the executive committee in charge of the campaign and will urge the members of the Advertising club to take up an active participation in the campaign to save these splendid redwood trees to the city.

Members of Col. John Jacob Astor Post No. 85, Veterans of Foreign Wars, the "gold stripe" outfit, already have endorsed the program and have pledged their active support.

Campbell, with Howard Gilkey, city landscape engineer, has worked out an elaborate plan for improving the proposed park. Included in this plan is a 200-acre automobile park and camp with free water, sanitary arrangements and other conveniences for the benefit of automobile tourists.

Members of Chevra Kadusha, a Jewish society, have endorsed the project and pledged their support. Endorsement was given following a talk before the society by John Gelder, chairman of the speakers' bureau, at East Shore park Sunday.

Many Oaklanders are already planning another overnight party among the redwoods for next Saturday, reports to headquarters at 1451 Franklin street, today indicate.

Two Women Injured As Auto Hits Train

Five persons escaped being killed when the automobile in which they were riding collided with a Southern Pacific electric train last night at Blanche street and Ninety-sixth avenue.

In the machine, which was operated by Miss Esther Shippey, were also her mother, Mrs. Mary Shippey, and three small children. The mother and daughter were taken to the Emergency hospital by the police. The children escaped uninjured. Mrs. Shippey was treated for lacerations and bruises and her daughter was treated for shock.

Miss Shippey told the police that she did not see the train until it was too late to stop the machine. The train was in charge of Conductor C. F. Mouse and Engineer C. L. Bonney.

The Shippeys reside at 660 Dowling boulevard, San Leandro.

Brown Bear Becomes Pet After First Raid

TUOLUMNE, July 25.—After making its presence known by demolishing a meat house at the camp of the road-grading crew above here, a big brown bear has become the pet of the place and is now fed every night, with the result that it has not attempted to molest the meat house since it introduced itself.

Cook Dunnigan was astonished one morning recently to find the meat house nearly torn down and a lot of fresh beef missing. There were plenty of bear signs. Not long after that Bruin was seen hovering in the brush. The cook then tossed the scraps from the supper table in a heap and the bear came in and ate them without showing signs of fear.

Now it is being fed daily and is a frequent visitor at the camp. The workmen enjoy watching its antics and warn hunters to let it roam about unmolested.

$200 Realized From Candidates' Ball

MARTINEZ, July 25.—Approximately $200 was realized from the candidates' ball, given by the Commercial Girls' Club, Chamber of Commerce and American Legion, it was announced today. A complete check of funds is not available yet, but it is assured that proceeds will clear $200. The money will be turned into the fund being raised by the three organizations for the projected waterfront swimming pool.

L. A. SHOPLIFTERS WILL FACE COURT

LOS ANGELES, July 25.—No longer will Los Angeles shoplifters be permitted to escape prosecution by paying for the goods stolen, according to a statement made public to the Los Angeles Retail Drygoods Merchants' Association.

"Hereafter the full penalty of the courts will be asked," said Chas. M. Gibbons, superintendent of the detective bureau the association maintains.

Out of the last 161 cases only four escaped prosecution and the percentage of convictions was 97.

20,000 IDLE STARVING.

VLADIVOSTOK, July 25.—Unemployment in this district is menacing. More than 20,000 persons are out of work and practically on the verge of starvation.

If you see it in The TRIBUNE tell them so.

THREE MINUTE TALES

by Old Schuster

A SNAKE IN THE GRASS.

SIX years had done much for Dolores, daughter of a ranchman in Southern California. The girl who had been so shy moved with assurance now; the rough farm clothes were gone and she was the best dressed woman in the theater. There could be no mistaking the proud carriage of her head and the distinct Spanish beauty that was hers and yet, when I knew her, Dolores was the daughter of land-poor Quezon.

She had gone to the theater alone, she said after a happy greeting, and if I would walk with her to the hotel she would tell me all about, oh, so many things.

"You remember Harold?" she asked.

"The lad with the fierce eyebrows who was jealous?" Dolores laughed. This is the story.

Old Quezon, working bravely against his will that his family should not want, clung always to the belief he had been cheated of wealth. From the time she was a girl Dolores had heard him tell the story of the gold his grandfather had buried, of the attack of the Indians, the old man's death and the escape of a mother and children. Back to the place Quezon had gone and there was no one who knew of the hiding place of the fortune. As boy and girl, Dolores and Harold had looked for it. Harold was the son of the nearest neighbor and her only playmate.

IT was about a year after I visited the place on a leisurely expedition into a land where color defied the brush, that the two rode to the limits of the great ranch where the foothills rise from the plain and ate a solemn picnic luncheon they thought would be their last. It was before the days of the irrigation dam and necessity was driving Harold to the city.

A snake, wriggling past Dolores' foot, brought an end to tearful confidences. She screamed in a fright she could never conquer and, from a perch on a rock, pointed at the reptile. Neglecting the lady, Harold went for the snake. He raised a stick to kill it. Then, changing his mind, thrust a forked end over the shining body and held it to the ground.

"Come, look!" he cried in surprise. "This is the queerest thing ever." Dolores would not move. "It is harmless and it can't get away and, see, it has a bracelet on its neck!"

Of beaten copper and unique design was the ring into which the snake had thrust its head. While the girl shivered at the sight Harold pulled the ring the length of the reptile and held it in his hand.

"I won't look at it until you let that snake go," Dolores announced. It moved off swiftly, disappearing in a hole in a mound of dirt.

IT was Harold who interrupted the examination of the ring with the plan for adventure.

"I won't go tomorrow," he said, welcoming the excuse. "We'll come back with a wagon and shovels and dig into that mound. It might be the snake has found the treasure!"

They pledged themselves to a delightful secrecy and carried on the plan, giving the day wholeheartedly to fantastic hope. The digging was surprisingly easy. A foot down was a slab of rock which the girl deciphered.

"Vd. tiene razon, vayo Vd. dercho, Vd. no puede equivacarse."

Their heads were close together and they shared a common excitement as the girl translated: "You are right. Go straight on. You cannot make a mistake."

* * * * *

Dolores put her hand to her throat and fingered a necklace fashioned like a serpeant. The emerald eyes of another gleamed from her wrist.

"And Harold?" I asked. "Where is he?"

"He will be in pretty soon," she answered, looking toward the door. "He has a meeting on. They are forming a big irrigating company for the two ranches which are now one—ours."

Tomorrow—A Dangerous Occupation.

WIFE REFUSES MONEY; KILLED

DETROIT, Mich., July 25.—Vanis Walters, 35, is held today on a murder charge, following a confession that he choked his wife, Florence, to death last night because she refused to surrender money she was saving to buy him a new suit. Mrs. Walters' body was found in her bedroom by her 12-year-old son, Bruce.

Bonomi Called to Rome Premiership

BY ASSOCIATED PRESS.
LEASED WIRE TO TRIBUNE.

ROME, July 25.—Signor Bonomi has been summoned to form a cabinet in place of the Facta ministry. He is now engaged in efforts to find a cabinet which will satisfy the various parties.

SOLDIER WHO LAY 3 YEARS IN BATHTUB DIES

BALTIMORE, July 25.—Lieutenant Milton B. Mackall, who for the last three years had lain in a bathtub at the Fort McHenry hospital as a result of a wound received in the world war, died last night. He was conscious almost until the last. The case of Lieutenant Mackall was without parallel in the military annals of the country.

He was th eonly patient not removed from the hospital when the grain elevators of the B. & O. railroad burned several weeks ago. Physicians believed his removal would be fatal. Attendants remained with him, however, in case removal became necessary as a last resort.

The wound which caused his paralysis and death was suffered October 16, 1918, when a German sniper shot him in the back as he crossed No Man's Land.

One of the bullets practically severed his spinal cord and leading physicians of both this country and Europe waged a fight against death during the last four years.

JAPAN, CHITA TO HOLD CONFERENCE

TOKYO, July 25.—The Chita or Far Eastern Russian republic has agreed to reopen conferences with Japan looking toward a commercial treaty but no agreement has been reached yet on the place the parleys will be resumed. They were broken off at Darien some time ago. It was agreed to settle the Nikolaievsk question after a treaty has been completed. Commissar Joffe will represent the Russian soviet government at the conference.

VETERAN EDUCATOR DIES.

MOOSELAKE, Minn., July 25.—Professor J. N. Bald, for 17 years superintendent of schools in North Dakota, died at his summer home near here Saturday.

G. O. P. LEADER DIES

BROWNSVILLE, Texas, July 24.—John P. McClintock, 68, well known in Texas Republican circles, died at Galveston today.

In brown and navy. Width 56 inches. Rich and handsome fabric specially priced.

New Fall Coatings $2.69 yard
A beautiful diagonal weave that will make up into beautiful wraps and coats. Width 56 inches. Colors, brown, navy and black.

HAYWARD YOUTH FOUND GUILTY OF MANSLAUGHTER

Fred Freitas Convicted of Killing Local Woman With Auto.

Frank B. Freitas, Hayward youth and war hero, was convicted of a charge of manslaughter by a jury in Superior Judge George Samuels' court last evening. The charge grew out of an automobile accident at Twelfth and Madison streets the night of April 29, in which Mrs. Frederick Perry, 1202 East Twenty-eighth street, was killed.

The conviction is said to be the fifth, on a charge of manslaughter, as the result of an auto accident, ever secured in the California courts, although hundreds of them have been attempted.

The jury was out nearly two hours before it reached a verdict in the case yesterday. In finding Freitas guilty, the jury recommended leniency to the court, and it is believed application for probation will be made by Attorney Frank M. Carr, attorney for Freitas. Deputy Prosecutor Preston Higgins prosecuted the case.

Mrs. Perry, with a group of friends, was waiting on the corner of Twelfth and Madison streets for a street car on the night of the accident. Freitas, with a party of seven men and women, was driving his automobile east on Twelfth street. The auto struck Mrs. Perry as she attempted to board a street car. She died at the Emergency hospital.

WATCH FOR WEDNESDAY WANT ADVTS.

School Playground Is Being Improved

RICHMOND, July 25.—The playgrounds of the Washington grammar school at Point Richmond are being filled in during the summer vacation. The plan is to establish the Washington school grounds as a unit in the city's chain of school playgrounds.

The filling in is adding materially to the appearance of the grounds as well as promising to be of great utility when playground apparatus is finally installed.

Black Mustache For Villain Part Deemed Essential

CHICAGO, July 25.—Black mustaches may have disappeared from the face of America, but the lay public today is as insistent as ever before that its fiction and movie villains wear them.

This and other popular conceptions of "bad men" were pointed out here today by Tom Peete Cross, professor of comparative literature at the University of Chicago, who was one of the judges in the selection of a $10,000 prize winning scenario from the 27,000 that were entered by amateurs in a picture-play contest recently conducted by the Chicago Daily News.

"Smooth-shaven faces have been the style ever since nine-tenths of the amateur writers were born," said Dr. Cross, "but the great majority of the contestants specified in their stories that their scoundrels should have bold black mustaches. The idea that dark hair across the upper lip denotes wickedness is an ancient one, handed down in folk stories from the Northern European peoples.

"Those blond races have implanted popular beliefs and ideas in the United States today, inheritance telling their superstitions to us over and over again. Their folk and fairy tales are ours. They were always at war with peoples of the Southern European nations and grew to associate the black hair and mustaches of those enemies with general villainy and wickedness.

"They terrified their children with stories, myths and legends of black whiskered marauders and murderers. Sea raiders and buccaneers of a later period cultivated the sweeping sable mustache as a symbol of ferocity and a means of spreading terror. So thoroughly was this superstition implanted in the popular mind that Americans, of nearly all races, today unconsciously adopt it.

"Another popular idea about villains, as shown by the 27,000 writers, is that cigarettes today are tokens of weakness and untrustworthiness, that cigars are symbols of ruthlessness and harshness, but that pipes are indications of sweetness of character, tolerance, strength, manliness, gentleness of soul, simple honesty and general, heroism.

"This may seem odd in a day when cigarette smoking is very general, but it is the survival of strong and violent opinions taken by the public fifty years ago and which lives on in the race's unconscious views and come to light in its writings."

Referee in Ryan Crash Case Named

NEW YORK, July 25.—Federal Judge Hand today named Peter B. Olney referee in the case of Allan A. Ryan, financier and stock broker, who filed a petition in bankruptcy last week. Ryan's lawyers announced last night that elimination of duplicated items in the bankruptcy petition would bring the liabilities down from $32,000,000 to $18,000,000.

SUMMER CLEARANCE

Kohler & Chase
535 Fourteenth St.

ALL records for attendance and sales at special summer events have been broken in this Summer Clearance Sale. Seldom indeed does any piano sale attract so much attention, due doubtless to the fact that news travels rapidly, and so many buyers have spread the news of the remarkable prices and fine values at this Clearance.

The display comprises Pianos, Player Pianos, Reproducing Pianos and Grands from the finest homes in Oakland and vicinity. Many were taken in exchange on Ampico Reproducing Pianos, Soloelle Player Pianos and Knabe Grand Pianos—the world's best instruments in their different fields.

Were we not the distributors for the highest type of instruments, we should never have been able to offer such a choice selection of "used" pianos of the latest models, actually identical with the new instruments offered by their agents at much higher prices. A visit will make this statement plain.

Sample instruments, discontinued styles, shopworn instruments, demonstrations, odd styles in standard makes in all grades and woods have been priced at heavy reductions for immediate disposal—many reduced several hundred dollars each.

Your attendance is earnestly solicited—no obligation to purchase is incurred by a visit.

No Down Payment Necessary

In order to dispose quickly of the large surplus stock, no down payment is necessary, and the monthly payment may commence in a month.

Clip and Mail

Kohler & Chase,
535 14th St.,
Oakland

High-Grade Players

We have never, even before the war, offered such extremely low prices on Player Pianos — both pedal player and electric reproducing players.

To give an idea of the beautiful assortment of standard makes at our various stores in new and used instruments, we quote the following makes, which are included:
Knabe, Soloelle, Steinway, Kohler & Chase, Weber, Duo Art, Hobart M. Cable, A. B. Chase, Andrew Kohler, J. & C. Fisher, Gabler, Bush & Gerts, Pease, and many more.

30-Day Refunds

We will cancel any contract and return all money paid within 30 days if you are not thoroughly pleased. All new instruments are fully guaranteed against any defects of workmanship or material for fifteen years.

Exchange Guarantee

Any used instrument purchased during this sale may be exchanged under our new liberal Exchange Guarantee. A Piano may be exchanged for a Player or a Soloelle, or vice versa. Every instrument bought or exchanged is fully guaranteed.

Easy to Buy Now

Especially easy terms to be had on every instrument offered, without any exception. No Down Payment necessary—monthly payments as low as
New Pianos, $6 per month.
New Players, $10 per month.
New Grands, $15 per month.

50 Player Rolls

We have a special offer giving each Player Piano purchaser the opportunity of receiving fifty rolls, your own selection, gratis.

New Player Pianos $365

A limited number of fully guaranteed, nationally known Player Pianos, just from the factory. Newest type, with transposers and latest improvements.

New Baby Grands, $575

A dainty Baby Grand with full resonant tone—built to last a lifetime.
This instrument can be seen at our Main Store—26 O'Farrell st, San Francisco. The Oakland allotment is now in transit and will arrive this week.

Sample Players $455

We have a few sample high-grade Player Pianos which were purchased by us at a low figure. We shall sell these this week at little more than regular wholesale prices—$455, $485 and $535. Scores of other popular-priced Player Pianos in all woods, containing all modern improvements, at savings of $100 to $275.

Soloelles $595

Just arrived, New Standard Soloelles, in mahogany, oak and walnut, specially priced at $100 off original price. This is a wonderful opportunity to secure a standard Soloelle below the regular price on very easy terms. Pay $15 per month.

Player Pianos at $9 monthly.
Phonographs at $2 per month and up.
Pianos, $4, $5, $6 per month.

Rush to Meet Train Costs Autoist Fine

RICHMOND, July 25.—B. B. Pearson of Giant was fined $5 for exceeding the speed limit here yesterday in Police Judge C. A. Odell's court. Pearson declared that he was helping a friend catch a train here Saturday when the friend jerked down the gas lever, which caused the machine to speed up. At that moment the speeding auto was timed by a traffic officer and clocked at 30 miles an hour.

In setting the fine, Judge Odell urged that Pearson arrange to collect $5 from his friend.

Helmer B. Dahl, Pullman, was sentenced to 30 days in jail, commitment suspended, on a charge of drunkenness. Dahl, while intoxicated Saturday, wandered into the Pullman company enclosure.

B. L. Floyd, who said he was from San Francisco, drew a suspended sentence of thirty days for drunkenness yesterday.

R. Coffey of 1010 College avenue, Berkeley, was fined $5 for parking his car in the restricted zone on Macdonald avenue.

'Liquor Baron' Steals Wives for Mountain 'Court'

CINCINNATI, Ohio, July 25.—(United Press).—Charges that a moonshine "liquor baron" enthroned high in the mountain fastness of Kentucky is responsible for the mysterious disappearance of six women during the last half year, were made by Carl Schuett, prominent musician, here today. Schuett declared his wife, Anna Mae, 27, was a victim of the alleged moonshine chief, who, after mistreating, forced her to poison herself under threat of a tortuous death. Schuett claimed that with the assistance of friends he had solved the mystery of the mountain chief, following the disappearance of his wife several weeks ago.

The potato is a native of Chile and Peru.

DE VALERA AT HEAD OF IRISH REBEL RETREAT

Free State Forces Gain New Victories and Capture Large Areas.

(Continued from Page One)

of the city. The advance of the regulars through Southern Ireland continues.

In view of the hostilities the meeting of parliament which was to have opened on Saturday, has been postponed indefinitely.

There was considerable firing in this city throughout the night. The Free State troops operating in the southwestern counties have occupied Claremorris.

All of County Mayo has been cleared of irregulars. Irregular headquarters have now been established at Fermoy. The rebels are still concentrating in the region of Cork. It is expected that the final clash between the irregular and Free State armies will be fought in that region.

DUBLIN, July 25.—(By the Associated Press.)—Additional large areas in the west of Ireland have been occupied by the Free State forces before whom the republican insurgents are retiring precipitately, according to today's official report. Claremorris, county Mayo, is the latest town to be freed from the irregulars, who now have retired to Ballinrode on the border between Galway and Mayo.

The liberated inhabitants of Claremorris, overjoyed at the arrival of Free State troops, continued their rejoicing throughout the night, according to the report.

A message from Thurles, Tipperary, filed late yesterday, said an attack by the irregulars was expected there last night as they had declared their intention of taking the town, which hitherto has been held by the national forces.

Eamonn de Valera accompanied the insurgents last Sunday to Tipperary, but according to reports left for Cashel, twelve miles distant, the next day. The strain of recent events is said to have left him pale and wan.

The irregulars are said to have burned the military barracks at Cashel and Tipperary.

Intense fighting is in progress in the vicinity of Kilmallock, County Limerick, according to reports reaching Dublin today. The reports stated that the republican irregulars were trying to delay the advance of the national army troops.

Auto Concern Wins Right to Use Street

In order to allow room for the expansion of the Chevrolet auto company's plant, the city council this morning directed the city engineer to abandon Seventy-second avenue from Hillside to Garfield avenue, and Garfield from Seventy-second to Seventy-third avenues.

Methodist School Body Incorporates

Articles of incorporation of the board of trustees of the Epworth University church of the Methodist Episcopal church, South, of Berkeley, were filed in the office of County Clerk George E. Gross today. The organization is formed for the purpose of establishing, conducting and supporting schools, colleges and parsonages and administering the property of the church.

The board of directors, who were named at a district meeting held at Stockton in October, 1921, include Judge W. H. Waste, W. B. Herms, L. W. Jefferson, J. R. Driver, W. G. Fletcher, all of Berkeley; E. J. Clinton, Oakland; J. F. Niswander, Fresno; R. P. Shuler and R. C. Mitchell of Los Angeles; E. C. Martin, Santa Ana; W. H. Walker, Willows; C. N. Hawkins, Hollister, and C. M. Goethe, Sacramento.

$696 JUDGMENT ASKED.

FAIRFIELD, July 25.—Haim Bercu, Isaac Saraga and Ike Blumenthal, doing business under the firm name of San Francisco Fred Market, have filed a complaint against Sam Bertonzini of Vallejo, asking for judgment in amount of $696.16. Plaintiffs allege that they have furnished materials and goods to the defendant in the above amount none of which has been paid.

Soroptomists Favor Vote on Mayor's Pay

Ratification of the action of the board of directors in endorsing the movement to place on the August ballot the question of increasing the salaries of the mayor and commissioners was given by members of the Soroptimist club, at the July business meeting following the regular luncheon at Hotel Oakland yesterday.

The discussion made clear that the club was supporting only the proposition of submitting the charter amendment to the citizens for popular vote.

The fourth Soroptimist club in the United States will be organized in Washington, D. C., according to the announcement of Miss Violet Richardson, president of the Oakland organization, who returned this week from a conference of leaders in the new movement for business and professional women. The presidents of the Oakland, San Francisco and Los Angeles clubs will direct organiaztion of local clubs in California.

S. F. Relative of Tracy People Dies

TRACY, July 25. — Emile and Ernest Hondaa have received word that their brother, Joseph Hondaa, proprietor of a San Francisco bakery, died Sunday morning in San Francisco. He had pneumonia and was sick, due to complications, for three months before his death. The funeral will be held Wednesday afternoon in San Francisco.

Activities of WOMEN

MISS GLADYS DOTY of Berkeley, whose marriage to Lester Albert Fowler will take place Friday evening at the home of the bride's parents in Prince street. (Shaw Photo)

U. C. Students To Wed on Friday Evening

The wedding of two former University of California students is of interest to a large number of East-bay friends—that of Miss Gladys Doty of Berkeley and Lester Albert Fowler, graduate of the University of California.

The bride-elect is the daughter of Mr. and Mrs. Charles Edgar Doty of Prince street. She is a sister of Mrs. W. G. Corlett of Mandana boulevard.

The wedding of the couple will be a simply appointed ceremony at the home of the bride's parents Friday evening, Rev. Franklyn Augustus Martyr, rector of St. Clement's church, to read the Episcopal ritual. There will be no attendants upon the couple.

Fowler is a son of Mr. and Mrs. E. P. Fowler of Novolato, Mexico. At the state university he was a prominent member of the Bachelordom club.

The future home of the couple will be in Berkeley.

✡ ✡ ✡

Among the guests registered at Shasta Springs are Mr. and Mrs. Morris R. Clark of Berkeley and Mr. and Mrs. A. R. McThurston of this city.

✡ ✡ ✡

The Misses Douglass and Virginia Whitehead have arrived in California from New York and are summering in an attractive cottage at Carmel-by-the-Sea. The two young women, who are gifted in the fine arts, have made an enviable record in their respective studies since going east. Miss Douglass Whitehead has composed many successful operettas while at Columbia University, and her sister has attained unusual success in esthetic dancing. They attended the production of "Serra," by Garnet Holmes, presented in the Forest theater. The travelers have been in California but a week and will return to Oakland a little later on.

✡ ✡ ✡

Miss Marion Petray, who is in her senior year at Stanford University, has been touring the south during her vacation and is expected to return in ten days. She accompanied Dr. and Mrs. Henry Clay Petray by motor, the former her brother. Miss Petray will receive her degree from Stanford next spring. Her sorority sisters have entertained extensively for her during her sojourn south.

Mr. and Mrs. Henry Clay Petray, Sr., have returned home from a month's outing on their ranch in Contra Costa county. Later on they will go to Lake Tahoe for a sojourn.

✡ ✡ ✡

PRETTY WEDDING IN CHURCH

The wedding of Miss Anne Harriet Kelsey, daughter of Mr. and Mrs. Harry D. Kelsey of Berkeley, and Kenneth Clyde Smith of Alameda will be one of the smart ceremonies the latter part of August. Upon word received from friends in the east the exact date will be set for the nuptials. In the bridal entourage will be Mrs. Philip Elmore Gier, cousin of the bride-elect; Miss Phoebe Matthews, Miss Madeline Keith and Miss Winifred Coen. Lester Smith will be best man for Smith. St. Mark's Episcopal church will be the scene of the nuptials.

The benedict is a son of Mrs. Frank D. Smith of Mozart street, Alameda.

✡ ✡ ✡

Mr. and Mrs. George Pope Fuller are making their headquarters in Paris during their travel abroad. They divide their time between Coronado, their San Francisco home and St. Helena when in California. Mrs. William Talbot, her sister, now makes her home in Long Beach. Mrs. Edgar Painter, mother of the two young matrons, is planning a trip to China and will make Shanghai her headquarters when in that part of the world.

✡ ✡ ✡

Mr. and Mrs. Charles Butters were hosts at a dinner for ten guests at their home in Chabot road last evening, the guest of honor being Mrs. Wendel T. Hammond of San Francisco, who is home from a New York trip extending over several months. Bridge was the aftermath. Sunday afternoon the chatelaine of the home was hostess at a large tea.

✡ ✡ ✡

Mr. and Mrs. Edward Hall Lohmann, who are touring Europe, are now in Berlin at the Hotel Der Furftenhof, where they will be for the next two months.

✡ ✡ ✡

Among the recent guests registered at Longmire Springs, Rainier National Park, are Mr. and Mrs. W. J. Thorburn, Mr. and Mrs. W. C. Sears, Miss Florence Nystrom, Mr. and Mrs. G. H. Wallace, Carl Berg, Mr. and Mrs. H. O. Kongslie, F. T. Anderson, and Miss M. Mitchell.

Officers Installed By Court Advocate

Officers to serve for the ensuing term were installed by the Court Advocate No. 7378, A. O. F., at its meeting last Friday night. With Deputies William E. Owens, Walter F. Nelsen and J. O. Arnett officiating, the following officers were installed: Junior P. C. R., Arthur Booth; C. R., George H. Athins; S. C. R. A., J. Scott; treasurer, J. W. Realy; F. S., J. McCracken; beadle, C. A. Petersen; junior beadle, M. J. Higuera; organist, T. J. Shaw. A light banquet was served following the installation.

Junior P. C. R. Arthur Booth was presented with an A. P. C. R. certificate and regalia in recognition of his servicese as C. R.

The court subscribed for one pole in connection with the Lake Merritt light necklace.

The carbuncle to which the ancients attributed fantastic properties was no other than the ruby.

Sunset Rebekah Lodge Holds Meet

Sunset Rebekah Lodge No. 109 held a short business session Wednesday evening in order to allow the members to attend the installation of officers at Berkeley Rebekah Lodge No. 262.

One application for membership was presented Wednesday evening. District Deputy President Verna Blackledge and officers will install the officers of Sunset at a public installation.

EX-SEAVE DIES AT 106.

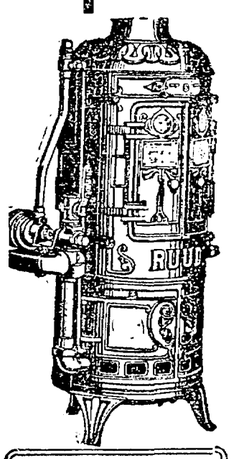

LEXINGTON, Ky., July 25.—Sarah Arnett, colored, age 106, died in the state hospital for the insane here Sunday. She had been an inmate of the institution for more than 53 years. She was a slave prior to the civil war.

If you see it in The TRIBUNE tell them so.

—another drop in the Price of Gas

GAS has many advantages over other fuels: It is cleaner; it is more efficient; it is quicker heating; it does not require valuable space for storage, and with the low cost it makes it the most popular of all fuels.

THE RUUD AUTOMATIC HOT WATER HEATER

A Gas Automatic Hot Water Heater built to give perfect Hot Water Service INSTANTLY.

The best of materials go into a Ruud's construction. Every Ruud is equipped with

an INTERNAL THERMOSTAT--Double Cast Iron Jackets--Double Fuel Control--and with one exception Condensation Plates and Collectors.

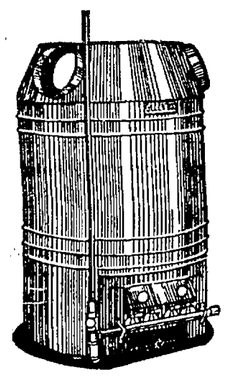

These features have made the Ruud the standard for all Hot Water Heaters—they have maintained this reputation for over a QUARTER OF A CENTURY without interruption.

A bath, a shave or a shower instantly without waiting for the water to heat. Just turn any Hot Water Faucet and all the Hot Water you need, at the Boiling Point, is there for your many needs. No matter how large or small your home may be there is a Ruud for it.

Places a Ruud in your home

Notice to Building Operators
We have something of intense interest to all interested in building. Present your card and this will be explained fully to you.

A GLEEWOOD GAS FURNACE
is the economical and most satisfactory way to heat your home.

Pure fresh air drawn over heated drums is the Gleewood way of heating your home. No chance for fumes to come in contact with the air that is drawn into the rooms. Heat in abundance with the least possible effort on your part.

You will find the Gleewood an economical, quick heating and efficient furnace.

No running up and down stairs to operate—controls situated in living-room or some more convenient place upstairs. No dirt or storing of fuel.

Questionaires sent out to over two hundred Gleewood users say their furnaces are perfectly satisfactory, and they would install another Gleewood if they should build again.

Our furnace expert will be pleased to make an appointment to go over your home—or will call and go over your home—giving you an exact estimate of the job.

AID FOR MEXICO HIGH AMBITION OF HENRY FORD

Development of Country to Place as One of Leading Powers His Hope.

DETROIT, July 25.—(By the Associated Press.)—Development of Mexico industrially and agriculturally to a point where it will take its place as one of the leading powers of the world is, the plan of Henry Ford.

This has been learned by The Associated Press from sources close to the manufacturer. Ford, it was learned, proposes to end forever the internal strife in the southern republic by "putting the people to work," as he expresses it, by making it possible for the peons to obtain education, and by devious ways elevating the masses in the country to the highest possible standard.

The motor manufacturer wants to keep the hands and minds of the Mexican common people occupied so "they will have NO time for fighting." This, it became known, is the substance of Ford's theory, one that he hopes to carry out in the near future by erection of a number of factories throughout the more important states. In short, it was said, he hopes to reveal to the people of Mexico how they can help themselves.

PLANS NEW FACTORY.

The first step in this program may be taken soon with establishment of a Ford motor assembling plant in the state of Coahuila, probably in Saltillo. Business interests of that city and the governor of the state are known here to be eager to bring about the industrial development. Ford, it is known, would enter upon his development program immediately upon erection of the necessary factory buildings. Similar enterprises would be established by Ford in other parts of the country if the plan is carried out, it was intimated.

Ford is said to believe that if the Mexicans once are taught the value of industry, better methods of agriculture and their possibilities individually and as a nation, the advance of the country will prove to be one of the most notable in history.

The manufacturer is known to have an abiding faith in the people of the country. He announced his idea several years ago, at a time when many persons in the United States were advising that the United States send troops to "clean up Mexico."

At that time Ford said:

"Let me invade Mexico with factories and give the people something to do. Then there will be no more war there."

TRAINS MEXICANS.

As the initial step toward carrying out his plan Ford for the last few years has been training Mexicans in his automobile factories here. Several hundred representative workmen from the southern republic have become skilled workmen in the local plants. Now they are ready to return to their own country and become native foremen when the wheels in the Mexican Ford shops begin to turn. These men, it was explained, have learned American methods, adopted American standards of living, and have seen the vision of the new Mexico. They will pass this enthusiasm on to their countrymen, the manufacturer believes, and from this seed will sprout the end of the Mexican peonage system.

Ford, it became known, proposes to take into the southern republic all the ideas that he has worked out in this country. He would open schools where farmers would be taught the use of improved agricultural implements. He would make it possible for his workmen to become educated by attending school outside of working hours and see to it that the children of the poorer class had educational advantages necessary for the welfare of the country.

C. C. Moore to Speak At Richmond Rally

RICHMOND, July 25.—The first gun in the United States Senatorial battle, so far as Richmond is concerned, will be fired here next Monday morning at 9 o'clock. C. C. Moore will address an open-air meeting in front of the Elks' building on Tenth street. From here Moore will go to Pinole, thence to Vallejo, and on to Redding.

ELMER NICHOLS' LITTLE SON IS KILLED BY TRUCK

Child Declared to Have Run in Front of Vehicle in Street.

BERKELEY, July 25.—An investigation is being made today by the Berkeley authorities into the accident which caused the death at 6 o'clock last evening of Elmer Raymond Nichols, two years and eight months old, and son of Elmer E. Nichols, well known attorney.

The boy was almost instantly killed while playing in front of his home at 2509 Milvia street. He was struck by a truck belonging to the Fred Foss Coal company and which was being driven by Robert Franklin, 1908 Vine street. According to Franklin's story, to the police, the child ran directly in front of the heavy machine. He declared he was unable to stop in time to avoid hitting him. Franklin carried the injured boy in his arms to Temple hospital, a short distance away, where the latter died shortly afterwards.

News of the death of her son was kept temporarily from Mrs. Nichols, who gave birth to a son less than a week ago. There are three other children—Welden, Edith and Robert Nichols.

Elmer Nichols, father of the boy, was a former law partner of the late Congressman J. Arthur Elston and at one time a director of the California School for the Deaf and the Blind. Fred Foss, owner of the truck which killed the boy, is treasurer of Alameda county.

Franklin, who was prostrated by the accident, has been released by the police, pending a coroner's inquest, to be held later in the week. Funeral services will be conducted at 2 o'clock tomorrow afternoon at the undertaking parlors of Deputy Coroner Frank M. Berg, with Rev. L. E. Mott of the Friends' church officiating.

Soprano to Be Featured

MRS. BERTHA ANDRE, talented soprano of St. Joseph's Portuguese Church, who will sing at the entertainment planned for the Auditorium theater, and her daughter, ZAUNETTE.

BRUMFIELD MUST HANG.

SALEM, Ore., July 25.—The State Supreme Court upheld today the conviction of Dr. R. B. Brumfield, a Roseburg, Ore., dentist, who was sentenced to hang for the murder of Dennis Russell, July 13, 1921. Dr. Brumfield was convicted last October.

AMATEURS PLAN BENEFIT PLAY

"The Two Orphans" will be presented in the Portuguese language by a group of amateurs under the direction of M. C. Simas at the Auditorium theater next Tuesday for the benefit of the new hall at St. Joseph's Portuguese church. The five-act version of the play will be given.

Between the acts Mrs. Bertha Andre, soprano of the church, and St. Joseph's quartet will provide musical entertainment. Mrs. Andre accompanied by Professor Gerard Taillandier, will sing "Mon Coeur s'ouvre a ta voix" from "Samson and Delila," and the quartet will offer popular songs and a tenor solo by M. M. Soares.

Alameda Chinese Gets Final Decree

SAN FRANCISCO, July 25.—Wong Tong of 1101 Paru street, Alameda, got an interlocutory decree of divorce from Low See, July 23, 1921. Today Judge Cabaniss gave him a final and this was the way he told the story to his attorney, Sidney Robertson:

"I'm pretty sure my wife dead, but I no see her dead. I good gambler, take chance dominoes, cards, dice, but I not take chance matrimony. I want to go to China. Get myself another wife."

HAYS CONTINUES HOLLYWOOD TOUR

LOS ANGELES, July 25. — (United Press). — Converted in whirlwind fashion to his three commandments of the celluloid, all elements of filmdom today were getting acquainted with Will H. Hays, mighty little missionary of the movies.

Hays today was visiting the studios in more leisurely fashion than when with the aid of an advance flying quadron of traffic cops, his caravan of automobiles averaged 50 miles an hour through the streets to spread in every picture plant his tenets of regeneration of the industry.

"To entertain, to instruct, and to bring understanding between man and man, nation and nation," was the cinema catechism being repeated in Hollywood today.

It was the Hays notion of the mission of the movies as he spoke it in forceful little sentences to groups of actors, stars and extras, congregated in the two-dimensioned scenery of the studio.

This was followed by a broad smile that seemed to fill the entire face of the dynamic little man, and he was gone to preach the doctrine elsewhere.

"Ain't he grand." "There's a lot in what he says." "Guess that means we step easy and no fooling," were typical comments that indicated that Hays' first attack had made an impression.

The first appearance of Paris in history is on the occasion of Caesar's conquest of Gaul.

GIRL'S SCALP TORN OFF.

WARREN, Minn., July 25.—The scalp of Miss Nan Head, 31, was torn off yesterday when her hair became caught in the flywheel of an engine in the basement of her home. She will recover, it is said.

Inventor of Roofless Plate

The advantages of roofless plates are: improved speech and taste; cool to the mouth; has several suctions instead of one. It makes no difference if you have any teeth of your own or not.

My work cannot be had elsewhere. It has taken 8 years to perfect it.

Established in Oakland 12 years

Only one well regulated office with personal attention. Beware of cheap imitators. I make nothing less than $20.00 plates.

WOMEN TO AID MOORE CAMPAIGN

SAN FRANCISCO, July 25.—Five hundred women, meeting at the Palace hotel in San Francisco, formally inaugurated their campaign on behalf of Charles C. Moore for United States Senator yesterday. Mrs. Annie Little Barry of Berkeley, Mrs. William Palmer Lucas and Marshal Hale were the principal speakers. A deputy registrar was present to register women who had not already enrolled or who had changed their addresses this year. Pledges were made by those present to canvass their districts by interview, letters or telephone in the interests of Charles C. Moore's candidacy. Mrs. D. E. F. Easton, chairman of the women's committee, presided as chairman.

It is the duty of home-loving women to enter politics, according to Mrs. Barry, the first speaker. "We women are interested in peace. We are out to put Charles C. Moore in the United States Senate because we believe he will stand for permanent peace," she said.

"Charles C. Moore does not belong to any machine," declared Marshal Hale. "He saved San Francisco after the fire. He made a success of the Panama-Pacific Exposition. He was head of the Council of Defense after the United States entered the war. We need C. C. Moore in the United States Senate because he is a free, independent citizen."

A telegram from O. C. Wyman, leader of the Moore forces in the south, predicted that Johnson would lose by 50,000 votes in Los Angeles county alone, and that Moore would go to the Tehachapi with a lead of 80,000 votes.

Berkeley Sciots To Hear Candidates

BERKELEY, July 25.—An open meeting where candidates for office in Alameda county may speak will be held at 8 o'clock tonight by Berkeley Pyramid of Sciots at its clubrooms, 2073 Allston way.

Edward C. Howlett, chairman of the arrangements committee, has announced that all candidates will be granted a hearing. He stated that the following have signified their intention to be present: J. H. MacLafferty, Harry L. Boyle, David D. Oliphant Jr., Elvina S. Beals, Judge Robert Edgar, Ezra Decoto, H. L. Hagan, A. A. Wendering, Edgar S. Hurley, Frank V. Cornish, Louis J. Kennedy, S. J. Taylor, Wells Drury, Fred W. Foss, Frank Barnet, Burton E. Becker and a number of other aspirants for office.

The general public is invited.

Tribune Thanked by S. P. R. S. I. Session

Editor TRIBUNE: The executive committee of the convention of the S. P. R. S. I., which was held in San Leandro, from July 10 to 13, wishes to thank you for the publicity given them before and during said convention.

It is with pleasure that I announce the fact that we had a very successful convention in every way.

Thanking you again for your favor, I am,

Very truly yours,
MARIE A. CHRISOSTOMO,
Sec. of Executive Com.
San Leandro, July 24, 1922.

He Closed The Door

behind him and walked down the stairs in a kind of a daze, the doctor's words ringing in his ears:

"HIGH BLOOD PRESSURE YOU MAY DIE ANY TIME —YOU CAN'T LIVE OVER THREE YEARS."

Later he heard of the Witter Water Treatment and tried it. His blood pressure was gradually reduced to normal.

Did you ever stop to think that blood pressure is a disease which can be accurately measured and consequently the results of any treatment can be definitely known? In the case above cited the man knew that he was helped because the

Sphygmomanometer

definitely recorded the pressure both before and after taking the Witter Water Treatment. The physician who took the pressure also knew of the good results and advised the patient to continue the treatment until he was completely out of danger.

Perhaps you, too, may have dangerous blood pressure symptoms without knowing it. Here are some of them: Cold hands and feet, slight momentary dizziness, sleep unrefreshing, and disturbed by dreams, feeling of fullness in the head, gastric disturbances after meals, constipation, weakness and lowered vitality, nervousness and headaches.

For your own sake and for the sake of those you love and are dependent on you, you should investigate the Witter Water Treatment. Mail the cupon for complete information, or

The Goodyear Cord Truck Tire Is Now Made Rut-Proof

The buoyant, active, tractive Goodyear Cord Truck Tire is now made proof against the ruts.

To that great durability which it has demonstrated from its pioneer days in country hauling, whether on the road or in the fields, has now been added extra resistance to rut wear.

The result of special design and construction is a Goodyear Cord Truck Tire capable of mastering road conditions severer than any other pneumatic can possibly endure.

1—*It has an extra thick sidewall of toughest tread stock reaching from bead to bead around the tire.*
2—*Its body is specially constructed of stoutest long-staple cotton cords, laid in groups of plies that alternate in direction and are insulated in pure rubber.*
3—*A double breaker strip backs up the tread.*
4—*The tread itself is the powerfully tractive Goodyear All-Weather Tread, famous for its sure-footedness in any going.*

The sidewall construction of the rut-proofed Goodyear Cord stands up to thousands of miles of combat with the deepest, hardest ruts.

The patented group-ply construction keeps the tire cool internally.

The sharp, thick blocks of the All-Weather Tread bite deep into the mud, slush, snow or ice. Their wedge-like action prevents side slip. Their steady forward gripping carries the truck onward full distance at every turn of the wheel, saving fuel and engine strain.

The Goodyear Cord Truck Tire today is the supreme pneumatic for dirt-road hauling.

Its tested ability to withstand the severest conditions of service results in unexampled mileage at low cost. Made in all standard sizes from 4½ to 10 inches.

For other types of hauling, Goodyear makes other special types of tires.

COLLEGE METHOD STUDYING WAGE CONDITIONS TOLD

Professor of Pennsylvania University Explains Instruction at Luncheon.

The methods used by the University of Pennsylvania in studying industrial labor and wage conditions were outlined to members of the Kiwanis club at their luncheon at the Hotel Oakland yesterday by Dr. Joseph Willitts, a member of the faculty of the eastern college and a teacher at the summer session of the University of California.

Co-operation between education and industry has brought about the establishment of an unusual school in Philadelphia, he said. This school is operated in connection with the University of Pennsylvania and its various departments have courses for the high-paid executive and the humble shopman.

He pointed out that by comparing records, of labor, turnover and the causes for which workers quit their jobs in industrial plants in the same classification, investigators were able to determine whether men or their employers were to blame for the condition.

For example, he told of a number of metal product plants in Philadelphia which were made subjects for study by industrial classes in the university.

UNSATISFACTORY WAGE

In one plant, he said, one per cent of the men who quit their jobs left because of unsatisfactory wages. In another where the same type of products were being manufactured by the same process, 5 per cent of the labor turnovers was due to unsatisfactory wages, and in a third, 38 of the workers who quit the company did so because of low wages.

"By comparing these facts and by comparing all other conditions, such as plant equipment, working quarters and healthfulness and sanitation of environment," declared Dr. Willitts, "we were able to make reports by which the various manufacturers were able to set a standard of manufacturing methods which could be definitely regarded as normal.

"There are certain assumptions that are held in regard to the field of industrial relations. First, the field is not entirely responsible to managers, those at the head of the industry. The problems that grow out of this relationship are those that have to be solved by facts and the people educated to solve those facts, is the second assumption that is held.

"To the average employee, the foreman owns the plant," he continued. The importance of the work of training foremen was told by the speaker, who said that 1200 of the 1300 foremen in Philadelphia attended classes that the university conducted. Surveys of conditions in the industrial fields near Philadelphia formed important parts by which business conditions could be determined, he said.

Dr. Willitts told of the formation of the school in 1915 by 100 concerns that made up the Philadelphia Industrial Association. Its program was an educational one and from the start it began to grow so as to include workers in different phases of industry. The various departments for the school include those for shop foremen, department managers, high executives, editors of plant papers and industrial physicians.

Meetings were held once a month at first, and speakers brought in to tell the men of the work in their field. Later the group was divided into smaller sections for the purpose of discussion.

Before returning to his home in the east Dr. Willitts will visit the universities and colleges on the Pacific coast to see the work they are doing in connection to industry.

Dr. George C. Pardee, the first vice-president of the club, was presented with a gift yesterday on the occasion of his sixty-fifth birthday, by President Allen C. Hibbard.

From Prison Convict to College Lecturer

The Story of a "Four Time Loser," Who is Lecturing on Criminology at the University of California

By GEO. C. HENDERSON

CHAPTER VII.
Robbing a Society Woman.

Among those present at the "Better Babies" show held in a Kansas City auditorium was the K. C. Kid. Attired in correct afternoon clothes, with just the proper amount of white linen showing and the right number of diamonds displayed, the K. C. Kid became Mr. Leo Gotch, gentleman baby connoisseur.

Mrs. Blank, wife of a big lumber dealer, and society patroness of all such affairs, welcomed the attentions of the K. C. Kid, who was so profoundly attached to the idea of producing better babies. If she had known at that moment that the Kid was more interested in studying her attire and hearing her tell of the engagements that would absorb her for the next few weeks, she would not have been so cordial.

In reality the Kid had picked Mrs. Blank for a victim. From his study of the society columns he had learned that this woman was the possessor of many diamonds and jewels of the first water. He had sized her up as being the most wealthy woman in the city. When he heard that she was patroness of the baby show, he attended that function. What he discovered there had a very distinct bearing upon his future actions.

The Kid now secured a taxicab and shadowed Mrs. Blank. He told the driver that he was a private detective, "getting the goods" on the woman. As she drove an electric, it was easy to keep her in sight with a gas car. So the K. C. Kid studied the habits and movements of this society woman.

He found that she had two servants, a cook and a maid. He watched the house to see when they left, and he found that as soon as the mistress was gone they immediately departed also.

Finally the stage was all set for the robbery. It was a summer afternoon. Mrs. Blank had gone out in her electric and the K. C. Kid had followed her to the door of a theater, making sure that she would not return until the show was over. He drove rapidly back to the house in time to see both servants sneak out.

He was fully prepared for action. He wore afternoon clothes, colored tortoise shell glasses and carried a doctor's black bag. In this bag was a "come along," a small hammer, some punches and a jimmy. "I'll probably run up against a wall 'pete,'" he reflected. "And I will have to knock it over." A "pete" is a safe.

Bearing this outfit, the K. C. Kid walked boldly up to the Blank residence and rang the bell. When no one answered he opened the door with one of his keys, tipped his hat to some unseen person as he kicked the door back and entered.

There was nothing of value in the bedrooms. The Kid was looking for valuable jewelry. He did not want any petty stuff.

Next he went to the library. Behind a picture, a favorite place for hiding a wall "pete," he found the little safe. He attached the "come along" to the handle and proceeded to pull out the spindle. The "come along" is a device which is screwed up by much the same motion used in operating a pair of pipe-cutters. As it tightens up a pressure is exerted on the handle of the safe which tends to drag it from its moorings. This instrument literally tore the handle out of the safe.

It was a simple matter then to pull the spindle clear and punch the tumblers back. This is known as a "silent" work. The K. C. Kid had seen it done before in working with other burglars. The "silent" yegg who operates only on wall petes is not considered to be much of a craftsman by those who "knock over" larger "boxes."

In this wall safe was $15,000 worth of jewelry. The K. C. Kid felt that he had been rewarded for his additional effort. He contrasted this loot with that which he would have found in an ordinary "prowl." There was a diamond sunburst containing seven stones, six of them half a karat, and the center one being seven or eight karats. There were solitaires, lavaliers, diamond bar pins and any amount of other valuables.

When Professor Leo Gotch, alias the K. C. Kid, told this story to his class in criminology at the University of California, one of the students asked:

"But how did you know that Mrs. Blank didn't have her diamonds with her when she went to the theater? You couldn't have been close enough to tell that."

Here was where the trained observation of the skilled prowler came in. The Kid had read in the newspapers of Mrs. Blank appearing at society functions with her diamonds. But at the Baby Show she had worn only a few ornaments. He concluded, therefore, that she did not wear her stones in the afternoon, but only at night, when she was in evening attire.

By this line of reasoning, he assured himself that when she went to a theater matinee she had not worn the sparks. The Kid had not yet begun to taste the bitter fruits of outlawry. He was soon to understand that not even the cleverest criminal can beat the "game" for long. Sooner or later the law triumphs and then come prison bars, hard labor on the rock pile, deprivation of the most precious of human possessions—freedom.

(Concluded Tomorrow.)

PARLORS INSTALL.

The newly elected officers of Piedmont Parlor No. 87, N. D. G. W., and Piedmont Parlor No. 120, N. S. G. W., were installed at a joint public installation in the Pacific building Thursday evening. Following the installation ceremonies a social dance was held.

RHEUMATISM
Leaves You Forever

Deep Seated Uric Acid Deposits Are Dissolved and the Rheumatic Poison Starts to Leave the System Within Twenty-four Hours.

Every druggist in this county is authorized to say to every rheumatic sufferer that if a full pint bottle of Allenrhu, the sure conquerer of rheumatism, does not show the way to stop the agony, reduce swollen joints and do away with even the slightest twinge of rheumatic pain, he will gladly return your money without comment.

Allenrhu has been tried and tested for years, and really marvelous results have been accomplished in the most severe cases where the suffering and agony was intense and piteous and where the patient was helpless.

Mr. James H. Allen of Rochester, N. Y., the discoverer of Allenrhu, who for many years suffered the torments of acute rheumatism, desires all sufferers to know that he does not want a cent of anyone's money unless Allenrhu decisively conquers this worst of all diseases, and he has instructed druggists to guarantee it as above in every instance. All druggists can supply you.—Advertisement.

TO DARKEN HAIR APPLY SAGE TEA

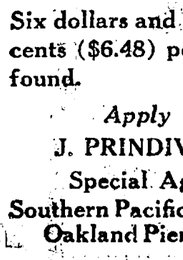

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.—Advertisement.

PAINS SO BAD WOULD GO TO BED

Two Women Tell How Lydia E. Pinkham's Vegetable Compound Stopped Their Suffering

Iron Mountain, Mich.—"I had terrible pains every month and at times had to go to bed on account of them. I saw your advertisement and took Lydia E. Pinkham's Vegetable Compound with very good results. I can work all day long now at my sick time. You may use these facts as a testimonial and I am recommending the Vegetable Compound to my friends."—Mrs. A. H. GARLAND, 218 E. Brown St., Iron Mountain, Michigan.

Xenia, Ohio.—"Every month I had such pains in my back and lower part of my abdomen that I could not lie quietly in bed. I suffered for about five years that way and I was not regular either. I read an advertisement of what Lydia E. Pinkham's Vegetable Compound had done for other women, so I decided to try it. It surely has helped me a lot, as I have no pains now and am regular and feeling fine."—Mrs. MARY DALE, Route 7, Xenia, Ohio.

If you suffer as did Mrs. Garland or Mrs. Dale, you should give this well-known medicine a thorough trial.

DOG AND PARROT AS INSEPARABLE AS HAM AND EGGS

Firm Alliance Takes Pets Through Life's Troubles Side by Side.

SAN LEANDRO, July 25.—Damon and Pythias, whose names are symbolic of real friendship, seemingly have been reincarnated in "Rough," a pointer pup, and "Winnie," a parrot, owned by M. C. Enos, local businessman.

The dog and the parrot, according to Enos, are the staunchest friends. Seldom is one seen without the other. Often the two will walk about the house or yard together and more often they will sit side by side in the sun, in perfect harmony. When the dog, in his travels about the neighborhood, proves to be in somewhat of a hurry, the bird will perch on his back in a manner that announces to the world that that is her distinct privilege.

The outstanding mark of affection, stated Enos, is evinced when the dog stretches himself out at full length, and the parrot runs the tip of her sharp beak over the animal in a careful, gentle scratching enjoyed by the average four-legged pet. This procedure, according to Enos, often lasts for an hour at a time, and is evidently greatly enjoyed by the bird and beast alike.

When "Rough" and "Winnie" visit about San Leandro they frequently are accompanied by six-year-old Margaret Anne Barton, who finds the dog and the bird mighty interesting playmates.

Close Pals Are These Three

"ROUGH," a pointer, and "WINNIE," a wise old bird, form firm friendship. Wherever "Rough" goes there goes "Winnie," and vice versa. Here are "Rough" and "Winnie" and their little companion, MARGARET ANNE BARTON of San Leandro.

Paris Theater Men Alarmed by Tax

PARIS, July 25.—Unless a bill now before the Chamber of Deputies to decrease theater taxes by 8 per cent is passed within a few weeks Paris theater managers threaten to go "on strike." Even the managers of motion picture theaters say they will close their doors.

Total taxes on Theater admissions now amount to 47 per cent of ticket prices.

Ohio Farmer Has Five-Legged Duck

POWHATAN, Ohio, July 25.—Paul Ramsey, farmer residing near here, has a five-legged duck. It was hatched a few days ago on Ramsey's farm. The duck is healthy and walks on the usual two legs as readily as does any normal duckling, and is not handicapped by its excess of pedal extremeties.

Good Evening! Have You Read Your Want Ads?

Ten-Year Building Boom Is Predicted for Oakland

That a building boom is underway in Oakland that will keep several of the city's principal industries working at 25 per cent above the normal rate for the next ten years, and will bring a flood of capital into the city for distribution among all portions of the commercial and industrial population, was announced by the Oakland Real Estate Board today.

The announcement follows an investigation into the building situation here by Colonel Leonard P. Ayres, vice-president of the Cleveland Trust Company of Cleveland, Ohio, who was chief statistical officer of the army during the war, and was statistician of the American section of the peace conference, and also by Oakland Real Estate Board officials and other experts.

EXTEND BUILDING BOOM

According to the figures gathered in these investigations, the dwelling-house building activity which began in Oakland several months ago, will be of at least ten years' duration, during which time it will be multiplied to several times its present extent, and will run into many millions of dollars, before it reaches the point at which this city's present normal demand will be satisfied.

"These millions of dollars, which will be required to satisfy the actual present demand for Oakland homes, will flow first of all into the local building trades and industries," officials of the Real Estate Board said today. "From there, however, they will find their way into other industries, which will be called upon to do their share toward providing the needed number of homes in Oakland, and thence into practically every walk of life that is to be found in the city.

MEANS BIG ACTIVITY

"It means at least a ten-year period of the greatest and most intense activity that Oakland has ever known before, and involving more money in active circulation than the city's banks, manufacturers and merchants have ever seen."

The situation is the outgrowth partly of the building depression that existed during the war and for some time afterward, according to the experts' announcements, and partly to the increase in Oakland's population that has occurred during and since the same period.

BEHIND BUILDING PROGRAM

According to Colonel Ayres, Oakland, in spite of the increased construction begun here lately, is still two and a half years behind in its building program—which means in its ability to meet the acutal present need for homes in this city.

In order to overcome this shortage, it will be necessary for this city to build one and two-story dwelling houses at a rate of 25 per cent above normal for the coming ten years, according to Colonel Ayres.

The average yearly expenditure per person in Oakland for dwelling houses is above the average for cities in general, Colonel Ayres points out, being $52.62 as compared with $31, the general average. This, it is asserted by officials of the local real estate board, means that a maximum amount of money will necessarily be spent in building the number of homes needed here.

Clubwoman Will Testify in Divorce

Divorce testimony in the suit of Mrs. Carry May Samuels, Oakland clubwoman and candidate last year for school director, will be taken before Court Commissioner Clarence Crowell, according to an order of Superior Judge T. W. Harris this morning. Mrs. Samuel recently filed suit against William J. Samuels, an employee of the Southern Pacific company, asking for a divorce and the restoration of her maiden name, Carry May Grant.

According to Mrs. Samuels' complaint, her husband used profane language in addressing her, deserted her upon various occasions, and finally told her "she was not good for anything."

Aged Woman's Effort To Die Is Quizzed

BERKELEY, July 25.—The police are today investigating the attempted suicide of Mrs. Bertha Basye, 2600 Ashby avenue, on Sunday. Following her recovery from the effects of inhaling gas, she was removed by relatives to the Livermore Sanitarium. Dr. Cylde T. Wetmore responded to the emergency call. Mrs. Basye is 50 years old. She has been despondent for some weeks, according to her family.

RENT APPRAISAL UPON PANTAGES BUILDING ASKED

Realty Company Sues Theater Owner to Enforce Terms of Lease.

Appraisal of the Pantages building, Twelfth street near Broadway, and the fixing of a proper rental value is asked of the Superior court in a suit filed today by the Loeb Realty Company against Alexander Pantages, theatrical producer and millionaire theater owner.

The complaint sets forth that the plaintiff owned two buildings which, in 1911, occupied the site of the present Pantages building. It is charged that, at the request of the defendant, the plaintiff wrecked the two buildings and erected the present building at a cost of $150,000 to be occupied by the plainiff's theater. The agreement is said to have called for a 20-year lease covering the theater and corner store, for which Pantages was to have paid a monthly rental of $2000 for the first ten years.

At the end of the ninth year the plaintiff and defendant were each to appoint an appraiser and, upon their findings, the rental for the next ten years was to be fixed. In case no agreement was reached, an umpire was to be appointed by the appraisers. It is alleged that Pantages refused for months to conform to the lease, but that finally he named Rod W. Church to act for him, while Ira Abrahams was named by the plaintiff.

Church is said to have fixed $2000, the original sum, as a proper rental for the coming ten years, while Abrahams set the figure at $3208.33. The two are said to have been unable to agree on a compromise, or upon an umpire to decide the question.

The plaintiff sets forth that the sum of $4166 is in reality a proper rental for the property. The complaint asks that the court make the appraisal and fix the rental and that judgment be given for the amount of rent due from August 32, 1922, the last day of the tenth year, until such timo as judgment is rendered.

VETERAN JUDGE SEEKS PRACTICE IN U. S. COURTS

SAN FRANCISCO, July 25.—Although for nearly forty years an attorney at law, for many terms a superior judge, and for the last few years chief justice of the supreme court of California, Judge Frank M. Angellotti distinguished jurist, was never admitted to practice in the federal court until today.

Judge Angellotti appeared this morning with United States Attorney John T. Williams and on the latter's motion was admitted to practice in the federal district court by U. S. Circuit Judge W. W. Morrow. He then went to the circuit court clerk, where he made oath of his official status and was admitted to practice before that tribunal.

Judge Angellotti is chief counsel for the Western Pacific Railway, the litigation of which is largely in the federal court.

Good Record Wins Man His Release

Because Harry C. Lawson, 53 years old, has not been in trouble for the last twenty-five years he was released on his own recognizance today by Police Judge Edward J. Tyrrell, when he appeared before him on a charge of petit larceny. He entered a plea of not guilty. He was arrested on the warrant sworn to by J. Gold, 476 Hobart street. He is alleged to have taken two small pieces of pipe. The police records show that in his younger days he had been in trouble. The date of his trial was set for August 25.

Museum Regains Dignity Lost in 'Masquerade' Orgy

SAN FRANCISCO, July 25.—The anthropological museum belonging to the University of California has recovered its self-respect and dignity after a day of absolute chaos, when all its long-possessed importance in the world of science and history went down to disgrace at the hands of culprits who raided the museum and changed the placards on the exhibits.

A female figure whose beauty and grace was chiseled by some sculptor of the long ago yesterday became "Fragments of a Plate," while Pericles, the famous lawgiver and statesman, was skipping about with a pair of cymbals in his hands, a dancing contortionist.

The "Winged Artemus" was depicted by a small boy endeavoring to subdue an unruly goose. On a horse's neck was hung a placard reading "Odysseus." Although the horse's neck represented all that is art in Greek sculpture, it bore no resemblance whatever to the work of art represented by the placard.

There were dozens of other outrages. A search for the culprits has been started by college officials, while the curator of the museum has pulled out 99 hairs from his head in an effort to make everything as it should be once more. Having been associated with the exhibit so long, he was met with no small degree of success.

Brother Noah Plans Liberia Trip by 'Angel'

LOS ANGELES, July 25 (By United Press). — "Hallelujah! Hallelujah! The good Lord willed that the good ship Ark should go to the bottom instead of Liberia, but the flagship Angel is now ready to make the same trip."

In these words the Rev. J. E. Lewis, Brother Noah of the colored race, announced that a successor to the home-made Ark has been obtained by subscription and chartered for the long-promised voyage to Liberia.

The Rev. Lewis wsa designer and builder of the famous vessel Ark, on which hundreds of religious colored hands worked piously for nearly seven years, and which now is resting on the muddy bottom of the harbor, which it sought out unerringly at launching—owing, Brother Lewis has explained, confidentially, "to the will of the Lord, and the failure to thoroughly stop up the holes."

The Angel, a 110-foot motorboat, has been chartered and is being provisioned just like the Ark of old, "excepting for the omission of the animals."

The Rev. Lewis was designer pilot, has not studied navigation, but intends the Angel shall be piloted by prayer.

Only colored passengers will be accepted, with a special reduced rate for missionaries. A colored chorus will sing "Nearer My God to Thee" as the vessel sails.

Fifty-eight Chinese Arrested in Raids

Forty-three Chinese were arrested in two raids which were made by the police on an alleged gambling house at 374 Eighth street. According to the police the house is known as the Oriental Citizens of United States Association.

The first raid was made last night at 9 o'clock by Policemen E. F. Murphy and E. A. Yannke, of the moral and narcotic squad. They arrested 28 Chinese, whom they charged with visiting a gambling house. When they made the raid a game of some kind was in progress. They seized $1.50 and a bundle of chips as evidence. The men were taken to the city hall, where they were later released on the deposit of $20 cash bail each.

Just two hours after this raid had occurred Sergeant E. W. Brock and Policeman J. H. Wilson raided the place a second time. They arrested fifteen men on a charge of being in a gambling house behind barred doors. The police say that just as soon as they were released from the city prison the first time they returned directly to the house at 374 Eighth street. On the second charge their bail was set at $100 each. An additional charge of vagrancy was placed against four of the men, the bail on the last charge being set at $150 each. They were all released on bail.

New Trial Sought In Damage Suit

A motion for a new trial in the suit of the Hanlon Drydock & Shipbuilding company against the George W. McNear company, in which the Hanlon company was recently awarded damages in the sum of $43,244.45 by Judge Joseph S. Koford, was made today by attorneys representing the McNear company. The motion will come up for argument before Judge Koford on August 17.

The Hanlon company brought suit to collect for repairs to the steamer Asuncion which it claims were made during the summer and fall of 1920. According to the complaint, the price agreed upon for the repairs was $54,067.30, and judgment for this amount was sought.

Pioneer Resident Of Alameda Buried

ALAMEDA, July 25.—Funeral services were held this afternoon for Mrs. Jacob Browning, 1519 Grand street. Mrs. Browning was an old-time resident of Alameda and a pioneer of California, having resided in the bay district for 63 years. She had lived in Alameda for more than thirty years. For the past year she had been an invalid through injuries received in a bad fall. She was a native of Michigan and was 82 years of age. Mrs. Browning is survived by her daughter, Mrs. Herman F. Dexter.

MORE POLICE SOUGHT.

The civil service board has issued official notice that the next examination for policemen for the Oakland force takes place August 24, and applications can be made out now. The city needs 25 new policemen. Candidates must be at least 25 years old, weigh at least 150 pounds, be 5 feet 8 inches tall as a minimum, and reside for the past five years in California.

R. R. AD. MEN WILL BE CITY'S GUESTS ON EASTBAY TOUR

Pamphleteers Will Be Entertained at Hotel; Program Planned.

The program of entertainment for the railroad advertising agents from all parts of the United States who are to be guests of the Chamber of Commerce tomorrow will include a short reception at the Hotel Oakland.

Postmaster Joseph J. Rosborough will preside at the hotel and Fred Reed will make the short address of welcome. As a majority of the visitors are accompanied by their wives, the program will include dance music.

The party is to be met at the foot of Broadway at 3 o'clock by a special reception committee. They then will put in one hour and one-half riding through the Eastbay district after which they will go to the hotel, arriving there about 4:30 o'clock.

The party is coming to Oakland on a special harbor tug and will leave on this same special boat.

The reception committee is as follows:

J. J. Rosborough, Mel Anderson, Ernest Tanner, William I. Macdonald, George Mellon, Roy Milligan, N. J. Whelan, C. W. Hightower, W D. Southwick, Walter Martin, Roy Stewart, Carlos White, Willard White, L. F. Galbraith, E. A. Vandeventer, Joseph R. Knowland, Louis Aber, Woodson Ross, Don Breed, Zook Sutton, F. M. Davidson, Martin E. Marks, W. C. Jurgens, Charles E. Wehn, Lee Newbert, A. H. Shaad, Fred Reed, Arthur Fehn, W. T. Tupper, Oscar Chilgren, Rossiter Michel, Lowell Hardy, L. H. Richardson, James Warrack, Blanks Everett, B. A Forsterer, Roy Thompson, Charles I. Anderson, W. H. Davenport, R. J. Pickett, R. A. Podlech and L. H. Rodebaugh.

SERVICE STATION ROBBED.

BERKELEY, July 25. — Forty dollars in currency and uncancelled scrip was stolen last night from a service station of the Associated Oil Company at the Tunnel road and Claremont avenue. Entrance was gained by the front door.

Autoist Acquitted Of Reckless Driving

Stewart Graham, 18 years old, was today found not guilty by Police Judge Edward J. Tyrrell to a charge of reckless driving. He was arrested on the complaint of Mrs. Elizabeth Duggan, 1109 Eighty-seventh avenue, following an automobile accident which occurred on July 6 at One Hundredth avenue and East Fourteenth street. The testimony showed that, in crossing the street, she stopped and started to run back to the curb, when she was struck by the automobile which was driven by Graham. One witness testified that at the time of the accident Graham was traveling between eight and ten miles an hour.

BURGLARS SEIZE $100,000 IN RAID

SPOKANE, Wash., July 25.—Burglars broke open eighty vaults on six floors of the Paulsen building here Saturday night and stole in excess of $100,000, it was learned yesterday. This is the largest burglary ever committed in Spokane, according to local police who have been unable to locate any clew thus far.

Although vaults on each of the six floors were equipped with different combinations, the burglars worked the combinations and gained entrance without making any unusual noise and without breaking a lock. Once inside the vault, according to the police, the individual compartments were opened with pass keys.

The robbers escaped with bonds, jewelry and cash, most of the tenants of the building being the victims. The Northwestern Mutual Life Insurance Company was one of the heaviest losers, it was said, although the extent of its loss will not be known until the manager of the company returns to the city.

TIMBER WOLF KILLED.

OLYMPIA, Wash., July 25.—A lone timber wolf has been killed on the Colville reservation, which has been responsible for the slaying of 150 sheep, according to Glenn R. Bach, federal predatory animal inspector. Hugh McShane, federal hunter, trapped the animal.

(FOR SIX)

6 cups clear, strong M·J·B Coffee
24 whole cloves.
1 five-inch stick of cinnamon.
¾ cup powdered sugar
¾ cup heavy cream, whipped and sweetened

Add the spices to the coffee, boil five minutes, strain, add the sugar and chill. Serve in glasses, each of which should contain a little crushed ice, and top with the cream. Dust with powdered cinnamon. This is particularly good with little fruit or nut cakes.

Write for fifteen-page booklet on coffee and coffee making

M. J. BRANDENSTEIN & CO.
SAN FRANCISCO

STARLIGHT

by Idah McGlone Gibson

Virginia Fairfax, daughter of the first families of Virginia, rebels against the puritanical rule of her grandfather and, lured by filmland, runs away to become a motion picture actress. Virginia found herself given a very important place in a picture by Theodore Stratton, a film star. Maud Samson, Stratton's leading lady, quarrels with him about Virginia. Theo and Virginia are madly in love. Virginia learns that Ralph Winston, her father, is alive. Theo's advances horrify Virginia. Her love for him is killed. Virginia receives a wire from her aunt, announcing her coming to San Francisco. She also learns Eddie Montforth, her childhood lover, is in town with a football team. Virginia spurns Stratton. Virginia invited her friends to witness a daring movie scene in which she was to be blown from a yacht and rescued by Stratton. The next day all pictures preparatory to the big yacht sinking scene were finished. The director feared Virginia would weaken in the big test.

Virginia was hurled into the sea. Her head struck a floating object. She was rendered unconscious. Eddie Montforth found her. He doubted his strength to get her ashore. He tells the story.

THE RESCUE.

"After a time the others saw us bobbing about in the waves. A few minutes later Aunt Virginia and Mrs. Chester were ministering to you on the deck.

"You know the rest of the story, dear."

The news of the accident and the rescue spread over the city like wild-fire. Some of the papers got out extras.

There were flamboyant notices to the effect that "Eastern Football Hero and Childhood Sweetheart of Virginia Winston, Beautiful Moving Picture Actress, Saves Her From Death," etc., etc.

With the resilience of youth I was all right the morning after the accident.

In the afternoon Eddie arrived all smiles and bubbling over with good health.

"Virginia," he said, 'let's take a car drive back into the hills somewhere. I feel like a million dollars, but I don't care for a look at the sea this morning."

"Two minds with but a single thought," I quoted, dancing with joy. Then a blush swept over me. Eddie was looking at me with a strange, provocative look—the look of the possessor. "Eddie," I protested, "don't look at me that way. You know what I meant."

"What did you mean?" he pursued tantalizingly. I did not answer.

"I'm going for a ride with Eddie," I called to Aunt Virginia.

She fluttered in.

"That will be splendid, Virginia. It's so nice of you, too, Eddie. I am sure you'll both enjoy it," she said with a twinkle in her eye. Then she added, "Find a nice quiet place for dinner, and don't keep Virginia out too long in the evening air, laddie."

The sun was dipping lower and lower toward the hilltops as the motor purred into the mountains. A restful feeling of peace and contentsettled over me. I leaned back and studied the splendid young figure sitting beside me in the motor. As my eyes roamed over his superb, supple body and lingered on his well-chiseled profile I thought of a piece of statuary I had admired in the local art gallery. It was "The Discus Thrower." Lost in thought and unconscious of my scrutiny, Eddie was gazing straight ahead. I marveled, as I contrasted this young god with the worn face and aging form of Theodore Stratton, that I had even been so blinded as to think the rous actor the superior of the two.

Finally we reached a little picturesque spot, high up on the hills, where, on a small table land, stood a characteristic California bungalow inn of bark-covered logs.

The chauffeur slowed down the car, saying:

"You can get supper here if you wish."

"That will be splendid," I exclaimed enthusiastically under the spell of the beauty and the companionship of Eddie.

Eddie entered and arrange for dinner. There were apparently few guests at this hour. One other car was parked along the roadside.

"Let's take a walk, Virgie," proposed Eddie as he came back to where I was sitting in the motor. "It will be half an hour before they can serve us."

We strolled away toward the setting sun. The hills were a flame of azure gold and the verdure radiantly beautiful. We seemed lost in a virgin solitude.

Tomorrow—The Betrothal.

Merced Will Vote On Pavement Plans

MERCED, July 25.—A special election will be held August 14 for the purpose of levying a direct tax to pave the streets around the various school buildings. The estimated cost is $19,000, which would be raised by a tax of six mills on the dollar. City officials declare the people must decide between this tax and wading through deep mud to the schools in winter.

$83,093.40 SAVED IN SCHOOL FUND

SACRAMENTO, July 25.—An unexpended balance of $83,093.40 of funds of the division of normal and special schools of the state department of education from the fiscal year ending July 1 was reported to Will C. Wood, superintendent of public instruction, yesterday by A. R. Heron, deputy director of education.

Heron said the saving had been effected largely through holding down expenses in the various institutions, but was partly due to an increase in miscellaneous receipts.

The report includes expenditures at the seven state teachers' colleges, the California Polytechnic School, School for the Deaf and Blind, and the administrative officer.

Repairs on Jackson Highway Urged

JACKSON, July 25.—The Amador county chamber of commerce has forwarded a letter to the state highway commission, stating that unless immediate steps are taken to improve the newly-built state highway between this place and Ione, it will soon be impassable. The road is now so deep with dust that many autoists will not travel over it, but take the detour over the old road.

New Gold Ore Vein Found Near Jackson

JACKSON, July 25.—Another good strike has just been made in the old Moore mine, which is being reopened and developed in a thorough manner. A six-foot ledge has been struck 125 feet below the 500-foot level, heavy in sulphides and carrying much galena and considerable free gold. Pannings show the latter freely. The extent of the strike will not be determined for some time, but it is highly significant. Work on the 25-stamp mill progresses rapidly and it will not be long before the mill is crushing ore.

AIDED CUSTER MASSACRE.

WEYLURH, Sask., July 25.—Antoine Ouilette, one of the Indians who served under Sitting Bull at the time of the Custer massacre, more than fifty years ago, is dead here at the age of over 100 years. He died at a hospital where he was a patient.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher on the wrapper for over 30 years just to protect the coming generations. Do not be deceived. All Counterfeits, imitations and "Just-as-good" are but experiments that endanger the health of Children—Experience against Experiment.

Never attempt to relieve your baby with a remedy that you would use for yourself.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It contains neither Opium, Morphine nor other narcotic substance. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.

The Stock with the "A" Rating

Pacific Gas and Electric Company

A California Corporation with over 32,000 California Investors

Controlled and managed by Californians and built up by California capital

Offers Its First Preferred Stock—to Yield 6.86% on the Investment

For California investors this stock combines, in a pre-eminent degree, the element of safety with a number of special advantages due to the present unusually favorable investment conditions

1. *Factors of Safety*

(1) **The Company Supplies Every-day Necessities.** Its business is, therefore, inherently stable and has increased in every single year of the Company's history, regardless of fluctuating general business conditions.

Number of Consumers May 31, 1907	160,485
Number of Consumers May 31, 1922	610,067
Gain in 15 years	449,582
Average gain per year	29,972
Gross Business, 1907	$11,342,140
Gross Business, 1921	37,509,706
Gain in 15 years	$26,167,566
Average gain per year	1,744,504

(2) **It Occupies an Unexcelled Business Field.** California is one of the wealthiest and most rapidly growing of the forty-nine States. Its population in 1920 of 3,426,861 represented an increase of 1,049,312, or 44%, in the last census period. The Company's business field, in which 610,067 consumers were being served on May 31, 1922, includes more than one-half of this population.

(3) **Sixty-eight Years of Experience are Back of its Trained Organization** of more than 8,000 employees, a large number of whom are also stockholders. Its properties and service are maintained at a high standard.

(4) **Its Surplus Earnings, Upon Which Preferred Stock Dividends Have the First Call,** are based upon sound property values and have never been less than double these dividend requirements.

RECENT EARNINGS

Year	Surplus Available for Dividends	Preferred Stock Dividends	Balance
1918	$3,071,303	$1,490,463	$1,580,840
1919	3,340,353	1,528,961	1,811,392
1920	3,922,060	1,777,933	2,144,127
1921	4,969,230	2,132,283	2,836,947
*1922	5,372,213	2,375,586	2,996,627

*Twelve Months Ended May 31

(5) **Dividends on Preferred Stock Paid Continuously for Thirteen Years.**

(6) **A Consistently Strong Financial Position,** with ample cash resources, has been the Company's policy for years. It is rated as one of the financially soundest and strongest public service corporations in America.

(7) **The Stock Is Strongly Protected by Property Values.** With respect to earnings and assets, it occupies a preferred position ahead of the investment represented by $34,684,000 of Common Stock, having a market value exceeding $24,000,000.

(8) **The Proceeds From This Issue of Stock Will Be Expended for Income-Producing Additions and Extensions,** including extensive hydro-electric developments recently completed or now under way, aggregating 137,000 H. P. In the past five years the Company has invested more than fifty millions of dollars of new capital in additional properties necessary to meet the growth of its business.

2. *Special Advantages*

(1) **It is Non-Assessable and Non-Callable.**

(2) **It Is Free from All State, County and Municipal Taxes** in California, except inheritance taxes.

(3) **It Is Exempt from the Normal Federal Individual Income Tax.**

(4) **It Assures a Continuation of the Liberal Return** obtainable under the present favorable market conditions, as distinguished from short term investments which may and many of which probably will be redeemed when opportunities for reinvestment are not as advantageous as at present.

(5) **Dividends Are Paid at Convenient Intervals**—four times a year, on the 15th day of February, May, August and November.

(6) **Established Market for this Stock** in New York, Chicago, San Francisco and other financial centers make it acceptable security to banks for loans. It is, therefore, an excellent medium for the investment of private and business reserve funds.

(7) **Conversion of the Stock Into Cash** may be readily accomplished because of its established market.

(8) **Investment May Be Made in Any Amount** from one share upward.

(9) **Information Regarding the Company Is at All Times Available** to stockholders.

(10) **The Development of California** and of the communities in which we live will be aided by investment in this stock.

This stock may be now purchased and paid for in one amount or on easy installments spread over a period of seventeen months. Under this easy installment plan your money begins immediately to earn 6%, affording a safe, convenient and profitable means of systematic accumulation. Dividends $6.00 per share per annum, payable at the rate of $1.50 per share every three months by check mailed to stockholders. AT THE PRESENT PRICE OF $87.50 PER SHARE, THE INVESTMENT IN THIS STOCK YIELDS 6.86%.

Orders may be placed or further information obtained at any of our offices, or at

Boy on Long Hike Locates Father

SAN FRANCISCO, July 25.—Harvey Lewis, 18, hiked to this city all the way from Bolt, Montana, looking for his father, who had disappeared. He visited the San Francisco police department and told of his mission. Yesterday he returned to the department and was informed by Lieutenant Frank Winters of the detective bureau that his father had been located. He is Frank Lewis, proprietor of a Vallejo hotel. He came to California several years ago in quest of a fortune and lost track of his family.

When informed of his father's whereabouts, young Lewis asked the distance to Vallejo. He said he had no money and intended to walk. Several policemen present dug down into their pockets and supplied him with car fare.

Paris was a fortified town as early as A. D. 360.

BUILDERS TO PUT ON 'BIG NIGHT'

The first big gathering and entertainment in the history of the Builders' Exchange will be celebrated by that organization tonight with a dinner at a downtown cafe and a theater party following. An entire cafe has been reserved by the Exchange for their dinner. Members will attend the production of "Wang" by the Ferris Hartman-Paul Steindorff comic opera company at the Auditorium, and afterwards in another cafe the revelers will gather for an after-theater supper.

It is the plan of the Exchange to have one "big night" each year, and tonight's entertainment will serve to inaugurate an annual custom. It is planned to bring all of the men engaged in the building industry together in a social way. At the same time, through the medium of the theater party, the organization expects to realize not only enough money to meet the expenses, but to provide substantial addition to its present fund.

The committee in charge of the event follows: T. D. Sexton, P. B. Stoddard, J. W. Rule, R. W. Littlefield, M. C. Vaughn, M. E. Hopper, Charles Chubb, Charles Christensen, Earl Beattie, Frank Oates, E. Cunningham, R. N. Osborn, Walter Spencer, H. Phillis, W. S. Lewis, A. Jorgensen, J. A. Turgeon, A. J. Hilam, George Lester, P. E. Bodhoff, W. C. Simpson, Roy Nash, Everett Dowdle, Edward Doty, Henry Christensen, C. W. Broyles and F. G. Jackson.

$300 STOLEN.

F. M. Watkin, 710 East Sixteenth street, reported to the police that $300 in currency was taken from his room. The room was entered some time yesterday by means of a pass key. The money was in a jewelry box on the bureau.

COMPETITION IN ART TO FEATURE OLYMPIC GAMES

PARIS, July 25.—(By the Associated Press.)—The French executive Olympic committee, desiring to give effect to the idea of associating art competition with athletic prowess as held by the original revivers of the Olympic games, will institute five international competitions during the 1924 meet in architecture, literature, music, painting and sculpture, it was announced today.

Three medals, similar to those to be awarded to competitors in athletics, will be awarded in each of the five art competitions. Full liberty as regards subject matter will be allowed, except that the work of art must be directly inspired by the idea of sports.

Lodge to Install Officers Thursday

The following officers of the Concordia Rebekah Lodge No. 152, I. O. O. F., will be installed at the Odd Fellows' Temple, Eleventh and Franklin streets, Thursday evening: Noble grand, Mrs. Hattie Kulick, vice-grand, Mrs. Elizabeth Winn; recording secretary, Mrs. Martha Hahn; financial secretary, Mrs. Margaretha Rohrbacher; treasurer, Mrs. Anna Gloy. The installation is to be private.

DATE CHANGED.

FAIRFIELD, July 25.—Pursuant to a stipulation between counsel, the case of Arthur Draughton et al. vs. W. H. Morrissey et al., has been continued from July 24, the date previously set, to August 7. The hearing will consist of hearing on arguments on demurrers of various defendants to the complaint of the plaintiff, together with a hearing on a motion for a preliminary injunction enjoining the defendants from disposing of certain Six Minute Ferry stoc during the pendency of the action.

MOSLEMS WANT TURKISH SUCCOR

CONSTANTINOPLE, July 25.—Iucliped to be indiffe nt to relief from non-Christian hands, the Moslem inhabitants of the Crimea, still in want, are appealing for succor to the people of Anatolia, fellow Moslems: "We have hopes that Turkey, Afghanistan and Egypt will help us," they say through their representatives, "for we prefer a mouthful of bread from the Turks to sacks of wheat from other sources."

Nevertheless Christian relief is going into the Crimea, for the American relief administration is distributing foodstuffs there and Moslems also have heeded the call. Through the Red Crescent delegation to the Crimea Turkey has sent 10,000 sacks of flour into the district.

The Turkish delegation went to Baghtela Serai and to Akmezdjed, the Moslem sections of the Crimea. Its members say the famine is not so acute as it was. Relief is arriving from various sources.

The Crimea today is an independent federal soviet republic, with a ministerial council composed chiefly of Moslems. The people make walking sticks which are sent to Europe and America for sale, the receipts being used for famine relief. The stricken territories have sent a commissioner to Angora, in Anatolia, the headquarters of the Turkish Nationalist movement, who is laying emphasis on the desire for help from Moslem sources. He describes the situation as bad. Only three schools remain open, he says; there has been no sowing of the usual agricultural products, tobacco, cereals, fruit and grapes, and the harvest outlook is far from promising.

Italian Girls Come To S. F. to Marry

SAN FRANCISCO, July 25.—Two Italian girls yesterday completed their long journey from the homeland to California, where they are to become brides. Vittorino Cirie came from Genoa and will wed Frank Brunetto of Oakland, who came to America two years ago, promising to send for her when he made good.

Albina Shraglia came from Lucca. She will wed a boy sweetheart in Sacramento, who left his native country four years ago.

STATE BLOCKS CAFFEE ARREST IN HAMMER CASE

Blood-Stained Hat Adds New Phase of Mystery in L. A. Killing.

LOS ANGELES, July 25.—Defense plans to secure the arrest of Mrs. Peggy Caffee on a charge of aiding the defendant, Mrs. Clara Phillips, in beating Mrs. Alberta Meadows to death with a hammer, today were believed to have been effectually blocked by Chief Deputy District Attorney Doran.

Doran challenged the defendant's attorney to make the arrest of Mrs. Caffee, declaring they would have to admit the guilt of Mrs. Phillips to prove Mrs. Caffee an accessory.

Reports of another of Mrs. Phillips' alleged "elopements" were denied by Phillips, who said she did not leave Houston, Tex., with either a musician or a gambler, as stated in anonymous letters.

Added to the many mysterious phases of the "hammer murder" case was today the mystery of a hat.

It is a black taffeta hat—a hat spotted with blood—presumably the blood of Mrs. Alberta Meadows.

The hat was found in the back of Mrs. Meadows' automobile—the car in which she drove to the place on Montecito drive where she was beaten to death with a hammer on July 12, and in which, according to the testimony of Mrs. Peggy Caffee, eye-witness of the crime, Mrs. Phillips drove away after having slain the woman she believed her rival for the affections of her husband, Armour L. Phillips.

The question arose today as to which of the three women—Mrs. Phillips, Mrs. Caffee, Mrs. Meadows—did the hat belong.

Dispute Over Bill Ends in Gun Play

SAN FRANCISCO, July 25.—A trivial dispute might well have resulted in a serious tragedy today when Hyman Schuster, a tailor, is alleged to have fired two shots at Harry Hoffman, cigar dealer, both of which missed their mark. That Hoffman was not killed was probably due to the action of Walter Stanton, proprietor of a soft drink parlor, who, the police say, seized Schuster before he could empty his pistol at Hoffman. Schuster was arrested by Patrolman R. T. Skain and charged with assault with intent to commit murder.

The shooting occurred in front of Hoffman's cigar stand at 401 Ellis street. Schuster sub-lets his tailor shop from Hoffman. The latter says Schuster has not paid his electric light bill. Today when he appeared Hoffman had turned off the lights at the meter. A dispute arose and it is charged that Schuster went into his shop, procured a gun and opened fire at close range.

Boy Scouts Plan Hike to Willow Camp

ALAMEDA, July 25.—The Alameda Boy Scouts will take an overnight hiking trip to Willow Camp on the Marin county ocean shore Saturday. The boys, with their scoutmaster, will leave Alameda Saturday afternoon, and will return Sunday evening. They will cook their own grub, and will participate in games, scout tests and swimming. On Sunday morning a short church service will be held on the beach. Scoutmaster Lewis Clark will be in charge and he will be assisted by K. R. Cunningham, W. B. Skowran, H. L. Mathewson and M. Watts.

The second campaign against the ants in Alameda has also been opened by the Boy Scouts. Each scout will be delegated to a city block and will lay out the poison for the ants free of cost to the householder. This is part of the civic duty work of the boys.

Child Auto Victim's Funeral Tomorrow

BERKELEY, July 25.—Funeral services will be held at 10:30 o'clock tomorrow morning from a local undertaking parlor for Edith May McIntosh, three-year-old daughter of Mr. and Mrs. Walter J. McIntosh, 1500 Stannage avenue, who was instantly killed Saturday night in an automobile accident at San Pablo avenue and Jones street. The child was torn from her mother's arms by the fender of an automobile driven by Fred Hartkopf of San Pablo, a Standard Oil employee. Hartkopf was booked at police station on a technical charge of manslaughter.

Beside her parents the McIntosh child is survived by three brothers, Walter Jr., William A. and Robert J. McIntosh.

An Unfailing Way to Banish Hairs

(Beauty Notes)

Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of delatone and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about 2 minutes, then removed and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.—Advertisement.

Throngs Seek Healing At McPherson Services

By FRANK B. SCHUMANN.

Scores of the sick and ailing, both young and old, asked for healing by prayer and faith, yesterday afternoon at the special divine healing session of the Aimee Semple McPherson revival campaign which is being held at the tent-tabernacle on Twenty-sixth street. Many of them came on crutches, others were incased in casts, some wore braces, children assisted their invalid parents to the altar and parents brought their children, some of whom had never known the joy of a healthy and strong body. Those asking for healing were brought up on the altar one at a time, then they came faster and soon a long line had formed down one aisle of the tent.

Mrs. McPherson, assisted by Dr. W. K. Towner of the First Baptist church of San Jose, and a number of Oakland ministers, prayed over those who for the past week had been preparing for this service with prayer and fasting. The line became so long that another group of those asking for the cure and healing of the sick and ailing bodies was formed. Mrs. McPherson and Rev. Milton C. Lutz of the United Brethren church of Oakland prayed on the rostrum, and Dr. Charles S. Price of the First Congregational church of Lodi and Dr. Towner prayed with the group at the altar.

GO AWAY PRAYING.

There were many who went away praising and praying, stating that they had been cured and, returning to their seats, broke into fervent prayer of thanksgiving.

"Praise God, he hears," shouted some one as Mrs. McPherson, who had just finished praying over a young man who stated that he had been born deaf, clapped her hands together and jumped up and down with joy. The young man, who was able to talk, said that he had never heard a sound in his life, and stated that he could hear a noise, but could not distinguish one sound from another, and although he could speak and read the lips of a person speaking, he himself could not understand the language when it was spoken to him. He had never heard music, and when the orchestra resumed playing—it had stopped in the excitement of his reputed healing—he started keeping time with his hand and then sank into a chair on the rostrum, where he remained throughout the service, praying and praising.

CLAIMS HEALING.

Another case was that of a young girl who, with her mother, testified that she had been unable to see with her right eye since infancy, but that during the past week of prayer service she had been gradually regaining her sight in that eye and that yesterday when Mrs. McPherson completed her healing prayer and held her hand over her left eye and then asked her to distinguish objects with the eye which she had reported had been dark all her life, she readily distinguished objects close to her face and stated that she could faintly see those farther away.

Dropping his crutches on the altar, another man who reported that he had been unable to walk without them for eight months walked down the stairs leading from the rostrum and as he walked down the aisle he increased his speed, delighting in what he called his newfound strength as he went up and down the aisle praying and praising. Another man dropped a heavy cane as he got to the bottom of the stairs and walked away without it.

SPECIAL PRAYER.

Special prayer and preparatory services for those who wish to be prayed over for divine healing are being held each morning at the tent-tabernacle under the direction of Mrs. M. Kennedy, the mother of Mrs. McPherson. As soon as enough are prepared special healing services are held.

Yesterday afternoon's service was the second devoted to healing since the McPherson revivals have been conducted here. In her sermon which preceded the healing service, Mrs. McPherson pointed out that healing of the body was not the thing that she was primarily interested in, but that it was the salvation of the sinners that concerned her most.

"Many come to these healing services with selfish motives," she stated. "It is these that I am really sorry for, for nothing can be done for them until they have faith," she continued.

"I am no specially annointed person to perform divine healing, nor have I received a personal touch from God which would give me that power. I only represent the most wonderful physician in the world and that is Jesus Christ our Lord.

NO DIVIDING LINE

"There is no dividing line between what we can ask him for, or what we can't ask him for. There is nothing that says that we may not ask him for healing of the body.

"I am not a healer and it is sacreligious to say or even think that I am. There is no special place for healing if you really believe; it may occur at your home, in your seat or at the altar.

"Sinners, however, who expect the Lord to heal them so that they can serve the devil better have not much hope of help. Salvation must come first."

A testimonial service was held previous to the sermon of the afternoon in which many testified that they had been healed on previous occasions.

Rev. Herbert Dyke, district Superintendent of the Christian and Missionary Alliance, offered the opening prayer of the service. The altar call was dispensed with at this service. Dr. Thomas R. Gale, Baptist State Missionary, gave the closing prayer.

OPENED WITH PRAYER.

The evening service was opened with prayer by Rev. Albert Ehrgott, of the Thousand Oaks Baptist church of Berkeley, and Mrs. McPherson gave the concluding address in the series on her life. The complete story of her life appeared in Sunday's issue of The TRIBUNE.

The Salvation Aarmy band was present at the service and rendered several numbers, both vocal and instrumental. Other musical numbers included selections by the Ministers' Quartet.

The three days' ministers and evangelists conference to further the evangelistic work was opened this morning at the Parish house of the Trinity Episcopal church, where various plans and methods were discussed by the ministers and church workers. Other sessions of this conference will be held tomorrow morning and the day after.

This afternoon Mrs. McPherson delivered another sermon on the women of the Bible and this evening she will speak on "The Second Coming of Christ."

The center section of the tent which during the past week was reserved for young business people is being reserved this week for business men.

DEATH THREAT SENT AUTO MAN BY BLACKMAILER

BERKELEY, July 25—Threatened with death if he did not pay $500 immediately, Teddy Motor Company, 2417 Shattuck-Webb, proprietor of the Webb tuck avenue, today turned over an anonymous letter to the police.

The letter, worded in an incoherent manner, was written by a typewriter on a small piece of office stationery. Because of the nature of the note the police are inclined to think that it is a hoax. Webb declares that he has no enemies who might desire to wreck vengeance upon him and does not take the threat against his life seriously.

The note was merely addressed to "Webb," 2471 Shattuck avenue, Berkeley, Cal. It was marked "Personal" and was mailed in Berkeley at 11:30 o'clock Sunday night.

Mother Sees Train Kill 4-Year-Old Son

ALAMEDA, July 25.—John Flaherty, 4-year-old son of J. Flaherty, 1005 Central avenue, was instantly killed in front of his home last night when he attempted to run across the street in front of a passing electric train. The fatal accident occurred within sight of the child's mother. She is prostrated with gref.

According to witnesses to the accident, the child, not noticing the approaching train, started to run across the street to join Ralph Gillman, a playmate. Motorman Eldredge attempted to bring his train to a stop when he saw the child's intention, but was unable to do so until h ehad slid the body for some distance. Death was almost instantaneous.

Private Policeman For Traffic Sought

BERKELEY, July 25. — A. J. Frankland and Lloyd Huston appeared before the city council this morning on behalf of the Downtown Merchants' Association, petitioning for permission to employ two private traffic officers for Shattuck avenue. The matter will be discussed at a public meeting called for tomorrow night in the council chambers.

Charles D. Heywood, commissioner of public health and safety, this morning expressed himself as opposed to the employment of private officers as making a bad precedent. Councilman Bartlett commented that the city would have funds to employ six additional traffic officers could the salary of the mayor's private secretary and several other employees be eliminated.

U. C. Dancers to Be Seen at Best Tonight

BERKELEY, July 25.—Talented University of California dancers will be seen tonight in the Greek theater, when Joseph Fredericks, artist and dancer, will present a program under the auspices of the university summer session. Unusual color and lighting effects will be given the group of dance numbers. Campus dancers who achieved success in the Parthenela and other college productions will be seen, among them the Misses Virginia Byrne, Naomi Alee, Frances Hatch, Dorothy Churchill and Anna Martyn, Katherine Edson, well-known dancer, will lead several numbers, while Miss Helen Merchant will be the accompanist of the evening.

Cyclist Hurt When Hit by Automobile

ALAMEDA, July 25.—John Hamilton, 153 Mozart street, was struck by an auto driven by W. T. Hopkins, 2247 Grove street, at Oak street and Santa Clara avenue last night. Hamilton was riding a bicycle. He was bruised and his machine was smashed.

Dudley Morton, 1635 Thirty-seventh avenue, Oakland, escaped injury yesterday when his auto was struck by a Southern Pacific train at Burbank street and Central avenue. The car was badly damaged.

Alameda Rotarians To Be Picnic Hosts

ALAMEDA, July 25.—The Alameda Rotary Club will be host to 60 girls from the California Girls Training Home on a picnic in Niles Canyon, Thursday. Edward J. Silver will be in charge of the affair. The girls will be taken from the home to the picnic site in machines and will be accompanied by the matrons of the institution as well as a number of the wives of Rotarians.

GETS MINOR BURNS.

ALAMEDA, July 25.—Richard Toalson had his eyebrows singed off and was considerably burned when his automobile was almost destroyed by fire this morning. The machine was in the garage at the Toalson home, 1354 Pearl street. The fire was caused by a lighted cigarette stub which set some gasoline afire. Toalson was burned while endeavoring to shove the machine out of the garage.

HARTMAN 'WANG' APPRECIATED AS IN DAYS OF YORE

Miss Glaser Sings "A Pretty Girl" at Her Best; Old Memories Revived.

It is easy to separate the sheep from the bromides in a Hartman-Steindorff audience. Your mere bromide whistles and hums and taps his feet. He is a made-over gown and a false-alarm of fervor But watch for shoulders that sway to a lilting melody, for eyes that are closed in reminiscence and for faces that look backward to the day when romance was full-flowered and life was right side up. These mean with vengeance that murmured something about "liking the old tunes best."

The shoulders were there in force, last night, when Lillian Faulkes Glaser sang "A Pretty Girl." Their owners brought out the prima donna time and again to tell the tale of the moon, the maid and the men. "A Pretty Girl" is a coy bit of sophistication—as sophisticated as a song dared be in the days when "Wang" came to light and mother hadn't even thought of you. As Miss Glaser sang it last night it was one of the few legitimate excuses for lowering the lights and turning on the blue borders.

"Wang" trod his villianous path at the Auditorium last night and will keep up the stride for a week. No production of the Hartman-Steindorff combination has brought out more enthusiasm than the roar-opera that J. Cheever Goodwin and Woolson Morse wrote so many years back on the calendar. Ferris Hartman was Wang, the crafty Regent of Siam, the man with an elephant on his hands, the wicked-eyed plotter, the bird who dares wedding with a widow and a chorus of children to filch a treasure chest from the heir-apparent to a tinsel throne. From his entrance on the sacred elephant to his exit on a wave of jeers, Hartman was as deep a comic opera pirate as ever scuttled a second act.

Miss Glaser did the best work of her engagement in the first act, when she wore the Prince Mataya's sack suit and the evening's laurels. Rafael Brunetto kept in the atmosphere of the occasion by simulating an old-fashioned drunk. His Col. Fracasse was splendidly inebriated throughout. John Van sang a light-hearted Boucher, and Hazel Van Haltren was Marie, the vivacious one of the Widow Frimousse family. Nona Campbell was Frimousse and gave much of her heartening voice to the evening. A whole section of the old block was discovered in Paul Hartman, who painted Pepat, the elephant keeper, in gay colors. The youthful Hartman is following in footsteps that have led to fame.

To the splendid ensembles directed by Paul Steindorff add praise for the costumer and the artist who painted the first act set. Both of them gave something of their idea of the modern idea of doing things—blue trees, frivolous hats and splashes of color where one least expects to find them.

Also present were the hind legs of the elephant.

Injunction Asked In Divorce Suit

Threats by her husband, Charles Lewis Hall, Oakland jeweler, to put her out of her residence, caused Mrs. Fannie Bentley Hall to ask the superior court for an injunction preventing him from entering the premises. The request was made in a divorce suit filed yesterday.

Mrs. Hall alleges the residence, 842 Mandana boulevard, is her property. She asks the court to confirm her title, and to award her $100 a month alimony, $25 court costs and $150 attorney's fees. Mrs. Hall alleges cruelty and says her husband accused her of "cussedness."

The couple were married in Washington, D. C., in 1902, and separated in this city in March of this year. They have two children.

Glee Club Jazz Is "Classic" in China

BERKELEY, July 25.—Jazz music as dispensed by the University of California Glee Club has been heralded as "classic" melody in China, according to reports reaching the campus of the enthusiastic reception given the collegians.

The Glee Club is now in Manila after an unusually successful tour of Japan and China. Letters from the Orient declare that the California boys could not make their programs long enough to please Oriental audiences. Music for dancing at big hotels and cabarets was furnished by the club's jazz orchestra.

When not giving concerts the members of the Glee Club donned baseball suits and engaged in games with Oriental teams.

Wife Wins Decree From State Officer

SAN FRANCISCO, July 25.—Mrs. Elizabeth Dozier of 2841 Devisadero street was granted a divorce today from Melville Dozier, Jr., officer of the state reclamation board at Sacramento, on the ground of desertion. Superior Judge Shortall gave the wife a decree, the custody of her two children and $250 alimony.

RANDALL STILL LEADS

OMAHA, Neb., July 25.—Complete returns from last Tuesday's state-wide primary, the majority of which were telegraphed to the Associated Press as official, gaves Charles H. Randall of Randolph, Republican candidate for gubernatorial nomination, 48,997, compared to 48,476 for Adam McMullen of Beatrice.

ARTIST'S WIFE WINS SUIT

NEW HAVEN, Conn., July 25.—William Sergeant Kendall, until recently dean of the Yale Art School, today confirmed a report that Mrs. Kendall, who had been in Paris with her daughter for a number of months, had obtained a divorce from him in that city. Kendall relinquished the office of dean in order to devote his entire time to painting.

Man Aids Mother Sent to Asylum By His Brother

An attempt to free his mother from the state hospital at Agnews was made today by William Erickson, an automobile man of San Francisco, who recently came here from Portland, Oregon. Four days ago Mrs. Annie Erickson was committed to Agnews, another son, R. B. Erickson of Oakland, swearing to an insanity complaint.

William Erickson came to Oakland today to visit his mother, and discovered that she had been committed to the hospital, the order having been signed four days ago by Judge James Quinn. A jury trial was immediately demanded and granted, the statute providing that when application is made within five days of commitment, it must be allowed.

The trial is scheduled for tomorrow before a jury in Judge George Samuels' court. It was learned, however, by Sheriff Frank Barnet that Mrs. Erickson was too ill to come back from Agnews for the trial, and it probably will be postponed.

Mrs. Erickson has six sons and two daughters residing in the bay district. According to witnesses at the time of her hearing before the sanity commission four days ago, she recently suffered from a stroke and since then has labored under an hallucination, according to physicians, that she is in great pain.

POSEY SEEKS TO SUCCEED HIMSELF

County Surveyor George Al Posey of Alameda county today announced that he would be a candidate to succeed himself at the August primaries. Posey was appointed by the Board of Supervisors to fill the vacancy caused by the death of Perry A. Haviland. He was chief deputy surveyor under Perry Haviland for over nine years.

County Surveyor Posey has had a long training in his chosen profession of civil engineering. He attended the Berkeley High school and graduated from the University of California in 1906. Since then his engineering work has been along many lines, but the principal ones were those of the street and road construction, bridge building, sanitation, water supply and irrigation. In his statement, Posey says:

"The duties of the county surveyor are many. He must draw all maps for the recorder, prepare assessment maps for the assessor, and help the superintendent of schools and district attorny with precinct and school district descriptions and boundaries; must make all surveys that may be required by order of court, board of supervisors, or upon the application of any persons, and must assist the surveyor-general. He must make all surveys of county roads, permanent bridges, county water supply, roads and sanitation for the county sanitarium and infirmary. Practically all new construction, except buildings, is under his supervision and direction.

"The 200,000-gallon reservoirs at the Arroyo sanitarium were completed and put into operation and a water softening plant installed. At the Alameda county infirmary Posey has had the direction of the construction of the new roadways, the revision of the fire protection system and the water supply.

"During the year 1921 the overhead crossing on the state highway through Altamont Pass was in process of construction. The Niles-Newark road was added to the list of concrete paved roads, giving more than thirty-three miles of improved county highway. In all, $335,000 of construction work was designed and built. Over $30,000 worth of bridge construction and repairs were started or completed."

Kathleen Norris to Address Students

BERKELEY, July 25. — "The New Womanhood" will be the subject tonight of Kathleen Norris, California writer, who will speak in the First Congregational church before an audience composed largely of summer session students of the university.

A special feature of the evening will be music furnished by Mrs. Orrin Kip McMurray, who will sing several pieces, accompanied by Miss Seta Stewart.

Lieutenant-Governer C. C. Young will preside at the meeting, introducing Mrs. Morris. The program will begin at 8 o'clock. The general public has been invited to attend, and a separate section has been reserved for the students of the summer session, the committee in charge has announced.

Swimming Pools Found Sanitary

The swimming pools of Oakland are in better sanitary condition than the state law demands, according to announcement today by Health Officer Harry Foster, at the conclusion of a general inspection.

"Rumor and innuendo have always implied that swimming pools used by the public are dirty," says Dr. Foster, "but we find a much lower bacteriological count in the water than the state regulations demand. The water is apparently changed often enough to prevent the accumulation of dirt."

Drivers Nabbed on Uncompleted Road

ALAMEDA, July 25. — Bert Cierlo, ranch foreman, and Joe Vargas, gardener on Bay Farm Island, were arrested last night for driving over the unfinished highway which City Engineer Burnett Hamilton is endeavoring to construct across the island. Both men were released on $10 bail and ordered to answer to Police Judge L. R. Winnmann.

These are the first of several arrests planned by Hamilton to stop travel over the highway. The surface is being continually broken by the heavy trucks before it can set.

Dover's Resignation Accepted by Harding

WASHINGTON, July 25.—President Harding has accepted the resignation of Elmer Dover, Tacoma, Wash., as assistant secretary of the treasurer in charge of internal revenue and customs, it was announced today at the White House.

CREAMERY CO. TO BE ALLOWED TO CONSTRUCT BARN

Council Overrules Protests, Votes Building May Continue.

A hard-fought North Oakland war received a quietus today, when the city council finally decided it had no authority to revoke a barn permit for Central Shuey Creamery Company, and that concern will now proceed with construction of its 50-horse edifice.

The council had cited the company to show cause why its permit for building this barn should not be revoked. The citation followed the arrival of many North Oakland protests, which alleged that the presence of a barn there would be insanitary, unsightly and a menace to realty values.

A further protest was received today, announcing the establishment of a civic center at Fifty-fourth and Dover, and pleading that no barn be allowed near the civic center. The barn will be at Fifty-fourth and Telegraph.

The protestants asserted they had no objection to the creamery, but did object to the barn.

The board of education was granted permission by the council to move seven portables from Prescott school to Prescott annex.

The widening of Prospect avenue was ordered for a stretch near Boden way.

Heart Trouble 'Great U. S. Disease, Claim

BERKELEY, July 25.—Because the average person today is "too busy" to take care of himself, heart trouble is becoming the "great American disease," declares Dr. Haven Emerson, New York public health expert now lecturing at the University of California.

Improper care of children during childish maladies, such as tonsilitis, measles, chicken pox and other ills is causing heart trouble at the early age of two years, stated the expert in speaking yesterday at the opening session of a public health nurses' institute being held on the campus under the direction of the state board of health.

Common colds, the expert declared, could lead to heart afflictions if proper care was not taken of the patient during the convalescent period.

Fifty health nurses are in attendance at the conference, which is being devoted to a discussion of problems of community health. Dr. John N. Force of the university is in charge of the meeting.

Oakland Man Jailed For Traffic Violation

SAN LEANDRO, July 25.—S. Labarbera, 1347 East Twenty-seventh street, Oakland, was sentenced to five days in the county jail at Judge W. J. Gannon's Monday afternoon courtt, for cutting in on traffic. Labarbera was not allowed the alternative of a fine.

The following were fined: Miss C. Scott, Oakland, $10; C. A. Best, Berkeley, $10; S. Robinson, Suisun, $35; James Akizuki, Oakland, $5; Gus Carlson, Oakland, $10; Takazi Tomoto, Oakland, $10.

The case against M. McGowan, 16, of Oakland, was dismissed, with the admonition to regulate his speed in the future. John Edgar, 19, of San Leandro, turned over his operator's license to the court for thirty days.

Extension Urged Of Tunnel Highway

BERKELEY, July 25.—The extension of Tunnel road to Claremont boulevard was urged before the city council this morning by Charles Keeler, secretary of the Chamber of Commerce. Keeler declared that the connection would divert travel, which now goes to Oakland, to the college town, and would be a means of averting many of the accidents which occur at the present terminal. The matter was referred to the council, sitting as a committee of the whole, and to the city engineer.

Niles Fire Chief Visitor at Drill

SAN LEANDRO, July 25.—F. C. Smith, fire chief of Niles, was an interested spectator at a short fire drill held here this morning. Smith conferred with H. H. Iverson, assistant fire chief of San Leandro, on various phases of fire protection, commending the local department on its efficiency.

Bavarian Diet Votes Support of Officials

BY INTERNATIONAL NEWS SERVICE, LEASED WIRE TO TRIBUNE

BERLIN, July 25.—The Bavarian diet late today voted to support the Bavarian government in the controversy which has arisen over the defense of the republic act, recently passed by the Reichstag.

WIFE WINS ALIMONY

SAN FRANCISCO, July 25.—Mrs. Mary E. McKannay, wife of Attorney McKannay, former secretary to ex-Mayor Taylor, succeeded today in obtaining $300 monthly alimony by a decision of Superior Judge H. L. Treston of Ukiah. McKannay brought the suit, charging mental cruelty, and his wife filed a cross-action. The court allowed her the custody of the two children, one of whom is a cripple, pending the outcome of the suit, and in addition ordered McKannay to pay all dental and medical bills.

MAPPING FLIGHT DELAYED

SAN DIEGO, July 25.—Necessity for last-minute adjustments to their De Haviland plane, together with adverse weather conditions, caused Lieutenants Charles Webber and Virgil Hines, army airmen, to postpone the start of their 6000-mile air mapping flight until tomorrow.

AUSTRALIANS ARRIVE

NEW YORK, July 25.—The Australian team which will compete in the final round in the Davis cup series arrived here today on the Majestic. In the party is Gerald Patterson, who won the all-comers singles title at Wimbledon; J. O. Anderson, a finalist in the same tournament; Pat O'Hara Wood, and R. C. Wertheim.

Ex-Ship Magnate Pawns Links for Gun to Kill Self

SEATTLE, Wash., July 25 (By United Press).—A pauper's grave yawned today for Joseph A. Sloan, who two years ago was a great figure in the shipbuilding world. His body was found last night in a cheap lodging house, a self-inflicted bullet wound through his head.

Open shirt cuffs told the whole story of the financial cataclysm which brought on the tragedy. But recently rated a wealthy man, Sloan had pawned his last earthly possessions—his cuff links—to buy the revolver with which he ended his life.

Although friends had realized that Sloan's fortunes were on the ebb, they had no idea that he had actually reached his last penny.

During the war Sloan was naval architect for the Sloan Shipbuilding Company, of which his brother, Philip Sloan, is president.

FIRE CHIEFS' DAY PROGRAM READY

Plans for the entertainment in in Oakland August 17 of the more than thousand visiting fire chiefs, delegates to the International Fire Chiefs' convention, opening in San Francisco August 15, are rapidly nearing completion, according to Chief Sam Short, head of the local committee.

The international convention will follow the Pacific Coast Fire Chiefs' convention on August 9, so many of the department heads will remain in the bay region from August 9 to the date of the larger meeting.

August 17 will be the Oakland day of the convention and the delegates will come to this city, where they will be given a program of sight-seeing tours and entertainment. At noon there will be a basket luncheon at Idora park and at night a dinner at the Hotel Oakland.

It has been estimated that at least $3000 will be needed for the entertainment of the visitors. In an effort to raise the money the management of the Century theater will donate the proceeds of next Thursday's show to the fund. The show will be preceded by a parade led by the firemen's band and in which the local department and the Jack Russell company, playing at the theater, will take part.

Violator of Pure Food Law Is Fined

Ed. Vengas, owner of the Olympic restaurant, 2811 Telegraph avenue, was today fined $30 by Police Judge Edward J. Tyrrell, after he pleaded guilty to violating the pure food law on three separate charges.

He was arrested by C. B. Heizer, state pure food inspector. On each charge he was fined $10. He is alleged to have sold skimmed milk for pure milk and served catsup and sauce which were mislabeled.

Heizer told the court that Vengas offered him $20 bribe when he placed him under arrest.

JURY IS CHOSEN FOR TRIAL OF 2 PIEDMONT WOMEN

Men Returning Would Be at Mercy of Railroads, Fear Union Leaders Here.

With the small courtroom jammed with spectators, including many prominent society matrons, the trial of Mrs. Hazel Osborne and her sister, Miss Sara Ergenbright, charged with conducting a disorderly house at their home, 133 Greenbank avenue, in the heart of Piedmont's exclusive residential district, opened in that city's justice court today.

Until a late hour today attorneys for the prosecution and defense were challenging the jury, eight of which were women. Assistant District Attorney Frank Shay directs the prosecution, while Myron Harris and L. A. Sullivan are attorneys for the defendants.

MANY LIMOUSINES WAIT.

While both sides examined the prospective jurors carefully, determined to allow no one on the panel who might be prejudiced, and the court proceedings dragged on monotonously, a line of limousines, parked just outside the little city hall, waited patiently for an adjournment.

The case opened before Justice of the Peace G. T. Burtchaell, and immediately the talesmen were called. They were first challenged by Assistant District Attorney Shay and later requestioned by Harris and Sullivan. Harris examined each prospective juror minutely, and at noon only four had been passed on by both the prosecution and defense.

Trial of the two young women, whose home was raided during the early morning hours of June 1 by Piedmont police, as a result of complaints by neighbors, it is said, was originally set for July 11. On that date, however, when the case was called the charge was temporarily dismissed, due to legal technicalities, and to allow time for the filing of a new complaint.

Police who were responsible for the raid assert they obtained evidence involving Fred W. Stein, assistant manager of the Hotel Oakland, and Miss Ergenbright, bookkeeper at the hotel. According to the police they listened outside a pair of opened French windows for more than an hour, finally turning their flashlights into the room.

The defendants are at liberty on $50 bail each.

Autoist Charged With Intoxication

BERKELEY, July 25.—Richard Waldie, Berkeley contractor, 1911 Cedar street, is in jail, charged with driving an automobile while intoxicated. Arrest is the result of a collision last night with another car, driven by George Shaver of Coleville, Wash., at Harmon and Adeline streets. Mrs. Waldie had reported to the police that her husband was being sold liquor in South Berkeley.

Waldie admitted having one drink. He was arraigned this afternoon and bail was fixed at $2000.

Varicose Veins are Quickly Reduced and Terrible Eczema Goes Quickly

Strong, Powerful, Yet Safe, Surgeon's Prescription Called Moone's Emerald Oil, Has Astonished Physicians.

There is one simple and inexpensive way to reduced dangerous, swollen veins and bunches, and get them down to normal, and that is to apply Moone's Emerald Oil night and morning. People who have painful, enlarged veins should not neglect them for they sometimes burst and cause much misery and loss of time.

Moone's Emerald Oil besides being so marvelously antiseptic that it at once destroys germs and poisons caused by germs is such a remarkable healing agent that eczema, barbers' itch, salt rheum and other inflammatory skin eruptions go in a few days. Piles are quickly absorbed and even goitres, wens and enlarged glands are dissolved.

For years it has been used in hospitals for boils, carbuncles, ulcers, abscesses and open sores, and with the most perfect success. With each original bottle which any pharmacist can supply you, is a folder that gives instructions for use in all of the above distressing complaints.

Your druggist will be glad to supply you.—Advertisement.

Sugar—Jars

Our big buying power has again enabled us to benefit our many customers. We have FIVE CARLOADS of Pure Cane Sugar for our Wednesday shoppers at an enormous saving. Most everyone knows of the present high price of sugar. Take advantage of our low prices early Wednesday morning. Our salesmen will gladly carry your order to your car for you, and you will save much.

(We do not care to sell to dealers, and for this reason must put a limit of 20 lbs. to each customer.)

20 LBS. PURE CANE SUGAR.....$1.29
100 LBS. PURE CANE SUGAR.....$6.59
PTS. STRONG SHOULDER MASON JARS, doz....65¢
QTS. STRONG SHOULDER MASON JARS, doz....77¢
½-Gal. STRONG SHOULDER MASON JARS, doz. $1.17

TUESDAY, JULY 25, 1922.

ADVERTISING MEN WELCOME

A group of men who are engaged in setting before the traveling public the wonders and attractions of the Pacific Coast will be guests of Oakland tomorrow. They are the advertising men of the nation's great railroad systems, the men who put into printer's ink the story of America.

Oakland and the Eastbay will have the opportunity of receiving a delegation which is interested in scenic beauty, industrial progress, and community development. These are the men who, with the aid of the Department of the Interior and the press of the country, have made the "Seeing America First" campaign so large in success. They have been particularly generous in their praise of California, for theirs has been a realization of what this state offers the man of the East or the Middle West.

A trip over the Skyline Boulevard will show to the half hundred visitors rich agricultural lands merging into factory sites and factory sites rimming thousands of homes. In Lake Merritt, the estuary, the bay spread out before them, these men whose business is writing of community assets will be given new inspiration. They will see here the greatest harbor in the country, the gateway to the Pacific.

The railroad advertising men and their families are welcome visitors to a place which, as a result of their efforts, has entertained and claimed as its own many men. It is to be hoped the skies are clear and no mists interfere with the views of our magnificent distances.

POLICING THE ETHER.

Old jokes concerning the freedom of the air must be set aside and older prophecies of a time when the law would be extended upward into the skies given belated attention with the consideration of the Radio Bill now before Congress.

Here is a measure parceling wave lengths and disposing of privileges in the ether. It seeks, says Herbert Hoover in The Scientific American, to procure for the largest number the benefits to be derived from systematized use of the ether; establishes conclusively the legal right of the Bureau of Navigation to grant, and to revoke, operator and station licenses; provides for the collection of fees with which to maintain more adequately the work of inspection, promises a fairer and more orderly allocation of wave bands, and, to make Federal regulation continuously effective, establishes an advisory committee composed of representatives of the departments and the public, to assist the Department of Commerce to provide, concurrently without the delay attendant on new legislation, for unexpected changes in the science, and, notably, for developments in the use of the radio phone.

The use of the radio phone has spread until there are now fully a million and a half receiving sets in the country. Wireless telegraphy while held back a bit by the sudden craze for the phone, has been similarly extended. Complaint from the military and naval branches of the government that their stations are subject to civilian control is recognized in the bill which differentiates between the uses of radio. The President, under it, shall allocate the wave lengths the Government shall use for strictly governmental purposes and all other governmental broadcasting stations shall be subject to the same central regulation and control as is maintained for private transmitting stations.

The amateur will be interested in a section which would amend the present provision that wave lengths, 600 to 1600 meters, shall be reserved, in accordance with the International Convention, for military uses. The Radio Bill is based on the theory that so wide a range is not required and would have the Government determine its requirements and then make available to the public the additional wave lengths. The more than forty newspapers which are now broadcasting can be afforded a separate wave band, commercialized broadcasting can be stabilized on a broader plan, and interference will be diminished.

It is Secretary Hoover's opinion that the proposed legislation will recommend itself to the industry and the public, generally.

WHAT OROVILLE DID

When its main source of revenue fails a town or city is placed upon its mettle. A place may die, it may wait, or it may seek to develop new resources. A striking instance of a city which would not be downed with the decline of the gold dredging industry near its limits is Oroville, in Northern California.

The payrolls of the various mining companies kept Oroville prosperous in the old days. The citizens were far-seeing enough to know that the dredging could not continue forever. They went out after new payrolls. More than offsetting the loss in mining money is the gain from other surces. What is of greater value, the city is no longer dependent upon a single industry.

The payrolls of Oroville now are between a million and a half and two million dollars. There is a lumber company which distributes more than half a million of this and a few of the others include railroad shops, rock and gravel company, canning and pickling plants. The two largest ripe olive plants in the world are in the city.

An old mining town that has made itself an orange, olive, lumber and peach center, Oroville takes a prominent place in that story which Northern California is telling the world.

A LOSING CITY

An example of a city that depended upon one thing alone and is forced to see its glories fade, its citizens, and even its houses, move away, is Dawson, once the pride of the Klondyke. Who is there who does not remember the stories which used to come down from Dawson? A fifty-cent piece, up there, was small change, fortunes were made and lost, and vast riches changed hands with each day and night. It was a great place, was old Dawson, the center of the Klondyke stampede.

Today hotels and private houses are being pulled down in the mining town to be transported to the latest boom city, Mayo, where a new lead-silver camp is situated. Men are camping in boats, under canvas and in any shelter they can find that they may be on the ground. The word has gone out in the North that another large city is to be built and the only circumstance to stand in the way is a lack of transportation facilities.

Dawson, in the Yukon, had no other resources. It will not entirely disappear, and, as a trade center, may in time win back its lost greatness. In the meantime it is seeing the results of luck and enterprise hauled away to make another city.

COLLEGE-TRAINED HOTEL MEN

The high school graduate who is tempted to gain time by foregoing a college education and who would put by an opportunity that is his that he may start earlier to earn his living, should read carefully some of the signs of the times. Never was there such an age of specialists. At no time have trained men been in greater demand.

An example at hand is the suggestion of hotel men that courses in academic training in the management of hotels be included in the universities. Those who hold to the idea of the sufficiency of the "three r's" in education may be surprised to know that such a course is instituted at Cornell and that the National Association of Hotel Men has resolved to raise a fund of $2,000,000 for scholarships at various institutions where the classes may be formed. It is a novel idea, surely, but it should not be attacked without investigation.

There are at present courses in banking, journalism, commerce, and for other businesses and professions. To train the hotel man few new facilities would be needed and little added expense. What would be required is a grouping of the studies most needed. The hotel man, it is assumed, would need a knowledge of the chemistry of foods, the composition of textiles, purchasing, psychology and scientific management. At the end of his term he would be given a degree of Bachelor of Arts along with many other students. The difference would be that, for him, particular attention was paid to the particular job he had in mind.

Whether or not the course in hotel keeping becomes a recognized one in many universities, it is important as indicating the demand for educated help and the efforts of the hotel men's organization toward increased efficiency.

Scions of rich and pretentious families who run connubially amuck cause their clans great perplexity. There have been many instances, the latest being Cornelius Vanderbilt Whitney, son of the Harry Payne Whitneys and grandson of Cleveland's celebrated secretary of the navy. The embarrassment is a Ziegfeld folly girl with an infant exhibit, and the alternatives are marriage or half million, neither of which seems to be relishable to anybody but the scion, who is reported to have followed her to California. There is room here for animadversion, but it would be trite.

Los Angeles' latest murder has a "mystery girl." This would appear to keep the record intact.

DAILY ALMANAC

Tuesday, July 25.

July is getting ready to back out. . . . Nat Goodwin was born in 1857. . . . . And that remainds us, did you see De Wolf Hopper was being sued for another divorce?. . . . . Thomas a' Kempis, a man whose name always seemed to bring to us a picture of a floppy-batted person galloping along the old highway of England, died in 1471. . . . In 1795 Baron Friedrich von der Trench was guillotined. . . . Henry Knox, Secretary of War under Washington, was born in 1750. . . . Maxgeld Parish was born in 1870. . . . Indeed, yes, my dear, I do think his blue backgrounds are won-derful!

Help! Help! Help!

Come, Vulcan, quick, attend my muse,
And give your aid to what I write;
I want a god of muscles now.
No gentle creature quick of flight.

Oftimes I call Calliope,
Minerva hears my fervent prayers,
But not today. Come Vulc, old top,
Slide down Olympus, up my stairs.

This pot'ry game's a lily job,
And then, again, 'tis heavy truck;
Come, Vulcan, with a mallet, say,
My blooming typewriter is stuck.

Sir:

Poppa and me wuz riding tha otha evening, and he sez: "I cun drive pretty good wit only tha wun hand, eh, Momma?" And I sez: "Ah yes, but which did ya learn?" And he sez: "Oh, I neva learn, I'm naturally ambidextris."

Now whut do you think uv that?

Yours ever,
Missis Harris,
(The Man of the Howa.)

The Great Stage Mystery.

(Our heroine, Elsie Malone, is about to take a ride in the green snake, the fast automobile of John Henry.)

III.

"Tear your hair," supplemented Jessie Mouskin. "When John lets her loose it's just a pzzt! and wherever you're going you're going to be there?

"Not on a night as dark as this?" protested the girl quickly.

"I've got a light like a twin power house," John Henry assured her, smilingly. "It's perfectly safe, don't get nervous."

He tied on his own mask with its bleary goggles, while Mousekin did the same. The green snake, a low gasoline stage of racing build, stood panting impatiently awaiting them at a side door of the hotel. John Henry assisted Miss Malone into the front seat and climbed in beside her while Mouskin sat behind in the tonneau. There was a preparatory quiver, the stage jerked a little and then began to move.

(To be continued.)

Another Discovery.

Dere Sir: Sum time ago my husban rote to yu about Archie who wuz in yure paper all the time. the same day he rote yu ran his stuff with Archie under him saing bah. well my old man he got pretty soar about it and it thot he was going to stop the TRIBUNE for he cursed and swoar somethin awful. the idea he sez for that little whippersnappur to say bah to me.

I sez calum yersel Alec lets look at this thing reesonabul (I alwus am that way fer I understand men pretty well and I once wuz correspondent fer a papur) i sez maibe yer lettur hit a soar spot. well he sputtered around but we havin no ink or papur in the house i knowed he count rite and I set about thinkin what cud have maid you let Archie do that way and after several sleeplus nites I hit on the ansur. Archie is your littel boy. when I think how simpul it is I wundur why I didnt think it out sooner. I luked bak threw the TRIBUNE and sure enuf i cud see where his humoor and yoars was similur and I seen that in the pitcher you run he was a littel boy and i thot the pitcher must a been one you had on hand snapped in a caraoturistik poaz I presum.

wen I toald Alex what I thot he sad he gessed t was rite; I toald him he shud rite and give you and archie an Apology but he sez d - - - -d if he wud sow i thot i wud rite and tell you i think Archie duz pretty well for a littel feller and the reeson i ain't rote sooner is becuz as I have sed we didnt have no ritin materuls. so pleez say we ar boath sorrey although if you publish this cut this out for Alex says he aint sorry for nuthin but you know how stubburn men ar.

trooly yurs,
Alex's Wife.

Fair Enough.

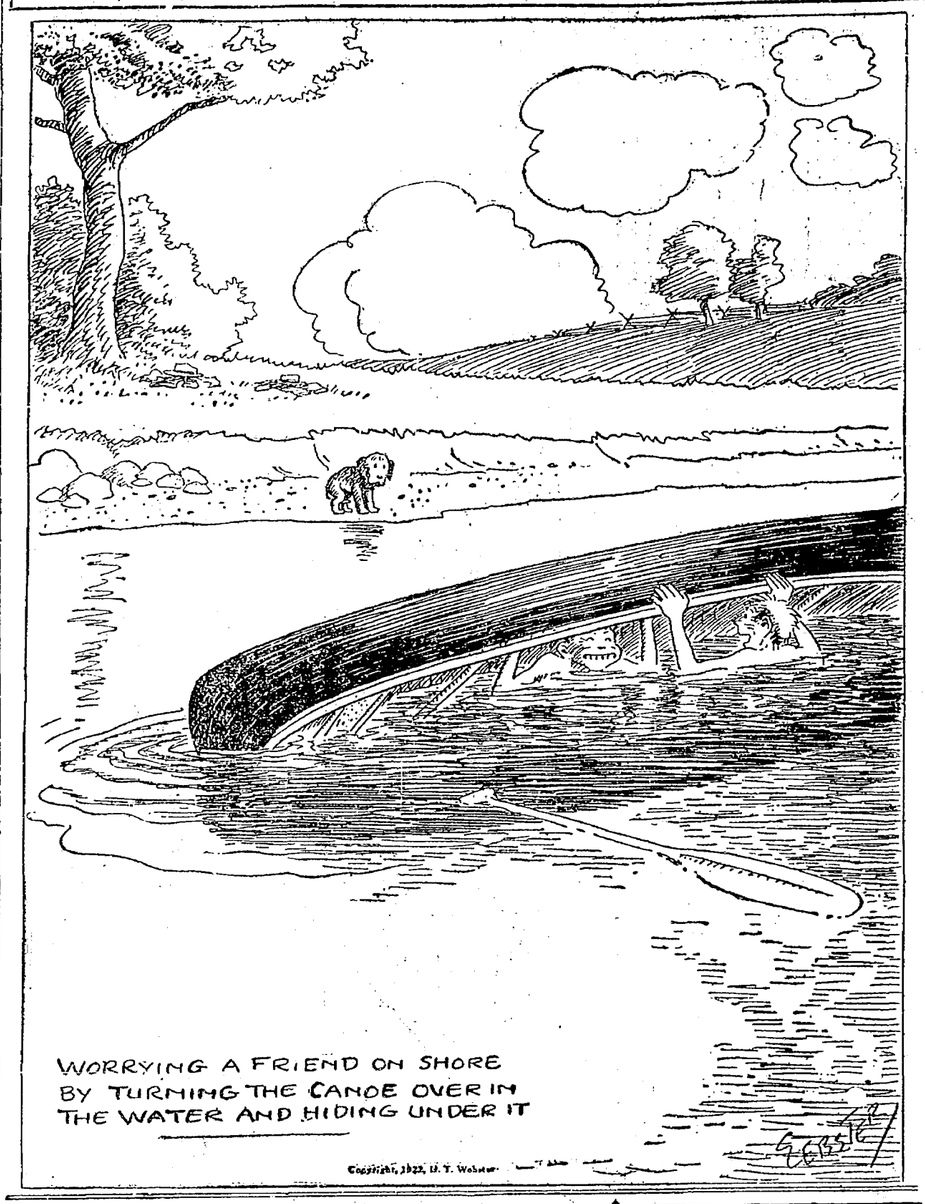

When, in unaccustomed silence,
Upon my bier I lie
When you bend above the remnant
Of all that once was I.
When, in more or less of sorrow,
You take the last sad view,
For the love of Mike, good people,
Please say something new!
Clementina Montgomery.

And yet, when they do climb to the top of Mt. Everest, 'twill be but a day or two before the hotel up there is advertising the superior view of the sunrise.

Wireless Difficulty.

I hear you calling me, dear heart;
And oh, the words are tender—
I cannot answer you, ah me,
Because I have no sender.
—AD. SCHUSTER.

LIFE'S DARKEST MOMENT.

NOTES and COMMENT

"If one is planning a trip to California, by all means buy a return trip ticket before starting." Thus Frederic B. Wilson, hotel man of Los Angeles, to a Washington Post reporter. It is explained that Mr. Wilson's advice was not based on the assumption that the bathing beach beauties of the west coast would prove so alluring to the Easterner that he would not be able to tear himself away from the West, or that the Pacific coast hotels would confiscate the traveler's bank roll. "Too many people have the idea that the West, particularly California, is simply a playground for the rest of the country," he said. "It is a playground, all right, but it is necessary for a man to pay his bills there just the same as anywhere else, and paying bills cost money."

* * *

The Deseret News notes this trend: "There is beginning to be a diversion in routes of travel from Europe to China and other Far Eastern ports. Many tourists from across the Atlantic are reaching the Orient by coming this way. They take train across the American continent and sail to China and Japan from Seattle and San Francisco. Whether the unsettled condition of Europe is making this diversion or whether there is some lingering fear that the Mediterranean is not swept entirely clear of bombs, does not appear. It is claimed that the new route is less expensive and that the time required for travel is less."

* * *

The Oregonian recalls a quarter-century anniversary: "Twenty-five years ago last Monday, July 17, occurred one of the most dramatic events in the history of the west—an event which profoundly influenced the history of the entire Pacific coast from the Arctic ocean southward. It was the arrival at Seattle of the steamer Portland, bringing 67 miners, each of whom carried ashore a 'poke' of gold from the Klondike, a tributary of the Yukon just east of the Alaskan boundary. That gold was material proof that rumors of the great strike made by Bill Carmack in the preceding summer were true, and it started a stampede surpassing that of the California argonauts half a century earlier."

* * *

New York World on the brass rail: "Mrs. Ida Clyde Clarke, insisting upon a brass rail for the lounging-room of the projected new clubhouse for business women in New York, has sentiment and logic in her favor. It is as a symbol of sociability that she demands the shining adornment. 'Men did not miss their drinks when prohibition came,' she says, 'nearly so much as the privilege of putting their feet on the brass rail and talking things out.' And she would invoke for women in their new equality with men every reasonable first aid to the exchange of 'deas."

* * *

Chicago News makes this observation: "One curious sign of the times is the astonishing number of war widows, remarried, who suddenly meet their supposedly deceased husbands on the streets of eastern cities. In every case thus far reported the wife has fallen with glad cries upon the neck of husband No. 1. Though tough on husband No. 2, who suffers in the role of the innocent bystander, these blissful reunions seem a knockdown argument for those who call woman the fickle sex."

* * *

Extent of automobile stealing, according to the Washington Star: "Motor car stealing has become one of the leading industries of the United States. It is estimated that during the past year cars worth $100,000,000 have been taken by thieves in cities and even in the rural districts. Only a small part of the cars taken were recovered, the thieves netting probably $50,000,000 to $75,000,000 in motor values."

* * *

The Kansas City Star takes up an intriguing subject: "Stocking manufacturers voice the fear that longer skirts will hurt the stocking industry, but we should think the stocking industry should be in shape to sustain a pretty husky blow by this time. Anyhow, even if skirts are longer, nobody's going to turn the wind off."

SPIRIT OF STATE PRESS

Saturday evening Howard Goosen, Edward Kemp and Douglas White, in the former's automobile, stepped out in their best "bib and tucker" to attend a party at Benicia. All went swimmingly until about three miles from Benicia the car struck a cow. The grass is high on each side of the highway, and bossy, like the well-known chicken, suddenly made up her mind to cross the road, and the next thing the boys knew, they were picking themselves up after the car had turned over end-ways. —Fairfield Enterprise.

Samuel Gompers thinks the nation is facing a great crisis. This nation has faced so many crises and come off without loss of character or personal freedom that there is little danger of a climax in the present unhappy labor situation. The inherent common sense of the American people, and their love of fair play will preserve us from doing an injustice to our great laboring classes.—Red Bluff News.

The Sun Maid Raisin Association is going to spend two and a half millions in advertising this year. The managers of the association know that advertising sells the goods. The same principle applies to all business—big and little.—Merced Star.

An indication that reaction has set in against the period of post-war extravagance and that habits of thrift are being formed, is given by the news that building and loan associations in the United States have made their greatest membership increase in the past year.—Palo Alto Times.

The Chamber of Commerce placed a full page advertisement in the Packer for circulation at the international convention of apple shippers at Seattle. The co-operative growers of the Northwest also have a page advertisement in the same paper. There is some good stuff in the Watsonville ad, but one difference is very noticeable, and that is what we have no brand to exploit while the Northwest people are boosting their Skookum apples, a brand that is already well known nationally because it has been advertised.—Watsonville Register.

JUST FOLKS

By EDGAR A. GUEST

THE BALLADE OF DENTISTRY.

Whenever I sit in my dentist's chair—
And that is a regular task with me—
Before I open to let him stare
I know right well what he's going to see;
I know the phrase he will spring on me
When he's probed and pried and peered about,
This he will utter most gleefully:
"There is a tooth that is coming out!"

Others with courage may venture there.
Others from pain are forever free;
Men and children and women fair
Come and go without surgery,
But ever a victim I must be
Of his forceps strong and his muscle stout;
This is the burden of his decree:
"There is a tooth that is coming out!"

I have his lecture by heart, I swear,
I can recite it from A to Z:
"Pyorrhea will gray your hair,
Fill your body with misery;
Rheumatism will swell your knee,
Grave neuritis will follow gout—
Gas or local, which one?" says he,
"There is a tooth that is coming out!"

L'envoi.

Prince, I willingly pay his fee,
Never his judgment wise I doubt,
But few times more may he say to me:
"There is a tooth that is coming out!"

(Copyright, 1922, by Edgar A. Guest)

TODAY 20 YEARS AGO

The local board of trade announces that it is still anxious that Alameda county shall make an exhibit in the nave of the Ferry building in San Francisco during the Knights of Pythias conclave.

Professor W. T. Henry of Wisconsin gave an address yesterday at the third university meeting of the summer school in Berkeley. His subject was "Elementary Agricultural Education."

The Department of Domestic Arts at Chabot Home held its first graduation exercises last Tuesday. Miss Mary Flockhart was the only graduate.

It is announced that it will require $77,250 from the city taxpayers to run the schools next year.

THE WAY IN MICHIGAN.

Courses in motion picture mechanics are to be inaugurated in four Michigan normal colleges. It has been found necessary to train teachers to operate motion picture machines to carry out plans already made for putting pictures in the schools in the fall.

Next fall the state department of education will establish a distributing station for educational films. The films are to be purchased outright by the State and rented to high schools.

After the next school year it is planned to enlarge the cinema program by using not only purchased films, but films depicting Michigan industries and institutions, manufactured under the supervision of the State department of education. —Stockton Record.

In Demand.

"I advertised for girls to sew on buttons. But I get no replies."

"Watch the lower hall of your building. A matrimonial agency nails them as they come in."—Philadelphia Bulletin.

About YOUR HEALTH

What "Phlebitis" Is and Methods of Treatment

By ROYAD S. COPELAND, M. D., Commissioner of Health, New York City.

No matter what its form or where it is found, every tissue of the body is liable to inflammation and disease. Inflammation of a vein is called "phlebitis." The symptoms are pain and tenderness to pressure over the vessel. As the fingers are passed over the inflamed vein it is found to be hard and knotted. It feels like a piece of rope.

An exudate covers the inner lining of the vein. This may accumulate to the extent of blocking the vessel. In any case it interferes with the free passage of blood.

Because of the interference with the escape of the venous blood, and because of the exudate thrown out into the tissues around the vein, there it apt to be swelling of the limbs and other parts involved.

The trouble continues until the blocking mass is absorbed, or until the blood has found other channels through which to escape. Then the swelling and discomfort disappear.

Sometimes, however, the clot may become infected. What happens then depends on the local situation. If the vein is closed there may be a local abscess which discharges, and the trouble is ended. But if the pus gets into the blood stream it is carried throughout the body and serious results follow. It produces general blood poisoning.

A slight injury to a vein may cause phlebitis. Following child birth there may be extension of trouble to the veins. Influenza and typhoid fever occasionally have this condition as an uncomfortable complication. It may follow an operation.

What should be done for phlebitis depends on the cause and the size of the vein involved. Protection from movement and from injury is important. In a week or two the exudate absorbs and all is well.

If the trouble is in the leg, the limb is elevated, and the patient is kept quiet.

After the fever and acute symptoms have disappeared, gentle massage may be practiced. Later an elastic bandage is useful.

In the case where pus forms an operation is required.

In all cases your family doctor should be called and the treatment will be directed by him.

WHAT IS DOING TODAY.

TRIBUNE radio broadcast.

Argonaut W. B. A. whist, Wigwam hall, evening.
Pythian Lodge dance, evening.
Builders' Exchange theater party, Auditorium, evening.

LOPEZ PUNISHED.

The most formidable squadron ever assembled up to that time under the American flag sailed from New York in December, 1858, under the command of Flag Officer Shubrick.

The destination of this fleet was far distant Paraguay, and its mission the punishment of that government and its tyrannical ruler, Lopez, for the treatment of Americans and firing on the U. S. S. Water Witch, several years before.

Far-seeing Yankees had settled in Paraguay as early as 1850, an American consul, who was also the agent of the trading company, was in charge of affairs at the capital, and a surveying party in a small side-wheel steamer carrying one gun was on the river by invitation of Lopez. Suddenly, and without apparent reason, the Americans were expelled, and Lieutenant Page and his steamer were fired upon, the quartermaster killed, and all foreign vessels driven from the river.

So slow did news travel in those days, and so ill prepared was the navy to protect and punish, that four years elapsed, February 3, 1855, to February, 1859, before the avenging fleet reached Ascunsion. Its powerful armament of 150 guns, 1750 men and 13 steamers, with some more that lay further down the river, soon brought about a settlement and apology, and from that day the American has been a thoroughly respected and welcome resident of Paraguay.

A description of Commodore Subrick's fleet of 19 shows that even at this late date the heavy fighting of the navy relied on sail. The frigate Sabine was flagship, and several sloops of war are named. The bulk of the steam vessels were hastily reconstructed passenger steamers, and the revenue cutter Harriet Lane was taken over from the Treasury Department.

Placing Him.

"Flubdub has studied both law and medicine."

"How does he stand?"

"Figure it out for yourself. The lawyers call him 'Doc' and the doctors call him 'Judge.'"—Kansas City Journal.

HARRY BOYLE IS ELECTED HEAD OF SCHOOL BOARD

The election of a president was finally achieved by the Board of Education last night, when Director J. F. Chandler moved that Harry Boyle be retained as president for the coming term, and affirmative votes were cast by Directors Chandler, Baccus, Campbell, Hatch and Boyle. Directors Short and Ormsby were not present.

Baccus later explained that "the board members hadn't been able to agree, but Boyle seemed to have a majority and they might as well make it unanimous."

The Civic League of Improvement Clubs pointed out a difficulty near the Manzanita school, where residents want a tract bought just opposite for school expansion. The city, however, plans to pave an intervening street within a week at a cost of about $11,000, and the residents asked that the school board make haste with the purchase of the lot lest a useless paving job be started.

The board will hold a special meeting at 4 p. m. Thursday, and will decide whether or not to buy the lot. Otherwise the paving will proceed.

The board decided a controversy concerning Golden Gate school, where one faction wants a separate wing to the school and another faction desires a sub-school. Plans for a separate wing were approved and the work of building will proceed.

JOHNSON TO RECEIVE BIG RALLY HERE

Senator to Be Given Welcome on Return From Washington Late Today; Coming for Visit Thursday

Hiram W. Johnson, Republican senator and candidate for re-election, is due to arrive here late today from Washington and will be accorded an enthusiastic welcome at Sixteenth street station by friends and supporters in the East-bay district. The senior senator from California is starting on an intensive state-wide campaign.

Senator Johnson will deliver a brief address at the station from the platform of the Overland Limited, which is several hours late, outlining his policies for the coming term.

Later today the senator will be welcomed in San Francisco, where he is scheduled to address his friends from an automobile north of the main ferry entrance. Senator Johnson will spend tomorrow campaigning in San Francisco, and on Thursday will come to Oakland. He leaves for the south on Thursday night.

ADVISORS WITH HIM

Accompanying the senator from the Nevada line into Oakland are state campaign managers and advisors who are participating in a series of conferences en route, outlining the campaign for this state, and in particular for the southern portion which is considered the principal battle ground, according to his supporters.

One of the features planned for Johnson's arrival in the bay region is to be dropping of wreaths and a note of welcome by Mrs. Beulag Myers Curtice, well known San Francisco soprano, from the airplane of Captain Sam Purcell. The wreaths are to be dropped on the ferry boat carrying Senator Johnson across the bay.

Senator Johnson's stay in Oakland will be limited to a few hours Thursday, and will be informal. According to present plans, he will arrive at the Hotel Oakland at 2 o'clock, and remain there until half past four, meeting friends and supporters and outlining his platform.

WILL RETURN LATER

Later in the campaign, according to Martin Madsen, the senator plans to return to Oakland for a series of public gatherings, but no definite arrangements have yet been made for these. The public is invited to tomorrow's soiree, but no addresses will be delivered.

Meanwhile the Johnson-For-Senator Clubs are beginning to function, according to the executive committees, and new organizations are being formulated for the purpose of furthering Johnson's interests in the present campaign. The work of the campaign committee is centering on Los Angeles county, where the big fight is expected.

That Johnson will carry that county by a big majority was announced today by H. L. Carnahan, an attorney of the southern city and a supporter of Johnson's, who said:

"Hiram Johnson will carry Los Angeles city and county at the primary election. Of course I am for Johnson and naturally hear quite a deal of Johnson talk in the south from persons who know me and my affiliations. But in traveling around in Southern California, meeting people who do not know me, I have been surprised at the sentiment in favor of Johnson.

OPPOSITION LACKS "KICK"

"There does not seem to be any 'kick' in the campaign of the opposition in the south. Johnson's opponent hasn't taken hold with the people. He hasn't been able to stir the audiences he has addressed down there. I have no fear whatever about the outcome of the primary fight in Southern California. Johnson will be the big winner."

Former United States Senator Frank P. Flint of Los Angeles, who is visiting here, also expressed the belief that Johnson will carry the Southland without difficulty. According to ex-Senator Flint, Johnson will have the support of the Hooverites with the exception "only of a small number of people who supported Hoover and are now connected with the opposition."

One of the new Johnson clubs is the Twenty-seventh Assembly District Club, where a parent body and four affiliated clubs are organized to carry Johnson's fight for re-election. The parent body is called the Twenty-seventh Assembly District Johnson Club and the affiliated organizations are the Haight and Ashbury Club; the Sunset, the Parkside and the Oceanside Clubs. Phil Deitz is president of the central body.

Shades of Shakespeare!

Here are habitues of woodland glens as conceived for original production of "Midsummer Night's Dream," to be given in Greek theater. Below, left to right the dancers are the MISSES NAOMI ALEE, DEXTER HARDING, FRANCES HATCH, VIRGINIA BYRNE, HELEN STONE and DOROTHY CHURCHILL. Above are MISS MARIE LOUISE MYERS and WALTER PLUNKETT, the king and queen of the fairies.

SHAKESPEARE TO BE MODERNIZED

BERKELEY, July 25.—Shakespearean productions will be given an entirely newt treatment on Saturday night when "A Midsummer Night's Dream" is presented in the Greek theater, under the direction of Irving Pichel.

Pichel has brought from Detroit futuristic costumes of gay coloring used in a new version of the play as presented there by him last year. Fairies and habitues of the woodland recesses will find themselves garbed, not as Shakespeare would have recognized them, but as a twentieth century artist of "advanced" ideas conceives them.

The play will be given an unusually colorful presentation, according to Pichel's plans. In the cast of Greek theater players who will be seen in the fantasy are some of the best-known talent in Berkeley.

Miss Marie Louise Myers will interpret the role of "Titania," queen of the fairies, with Walter Plunkett as Oberin, the fairy king.

Dancers in the performance will include the Misses Naomi Allee, Dexter Harding, Virginia Byrne, Helen Stone, Frances Hatch, Katherine Renshaw and Dorothy Churchill. Others in the cast are the Misses Esther Waite, Margaret Howard, Frederic McConnell and Lloyd Corrigan.

Here's Chance to Give Joy To Girls on Vacation

Being 15, a girl, and loving pretty things is one of the tragedies of youth. Take young Mary, for instance. Her dream is a cosy, comfortable home. She has rolled up her sleeves, gone into the cannery for her vacation and is saving every penny for carpets, chairs and curtains.

Her mother, drawing a widow's pension, although suffering from heart attacks, goes with her. The four younger boys and girls are proud of the modest little necessities which have been added this summer to the household equipment—two dining room chairs and a rug.

But Mary does need a vacation. It will cost $24.25 to send her to the Municipal Recreation Camp in the high Sierras for two weeks. Some persuasion will be needed to wean her away from her simple achievement, but those interested in her say it can be done if they explain that it means better classroom records next term.

Then there is Peggie, also 15, the elder sister of three young brothers. She will enter high school next semester. A widowed mother is trying to keep her little brood together and give them some of the advantages of childhood. The saddest thing which may be said of Peggy is that she lives downtown, always within the sound of street noises, with never a sight of trees and never a ramble in the hills. She wants to see mountains and streams and woods.

Is someone wanting very much to be fairy godparent to these young girls—to make concrete for two weeks all the care-free dreams of their young lives?

A check for the Associated Charities Recreation Fund sent to the Oakland TRIBUNE will achieve that purpose. Gifts little will be as welcome as the gifts big. All the money can be used to send young maids to the mountain playground for a two weeks' outing.

They will be off on Saturday. So hurry, that not one of the waiting list may be disappointed. A child under 12 years may be entertained in the Sierra camp a fortnight for $15.65.

MORE ALIMONY ASKED IN SUIT

Another chapter has been added to the marital troubles of Henri T. Henderson and his wife, Diana T. Henderson, of Berkeley, through an affidavit filed in the superior court today, on behalf of the wife, in which she asks an increase of $50 a month in alimony allowance and also that her husband be required to give bond for the faithful performance of the court's order.

BATTING AVERAGES FALL AS P. C. L. PITCHERS IMPROVE

JIM SCOTT OF SAN FRANCISCO SEALS BECOMES LEADING PITCHER WITHOUT MAKING EFFORT

S. F. BATSMEN FOUND OAKLAND HURLERS IN CLASS 'AA' CONDITION

Work of Local Pitchers Caused Most of the Seals to Lose Points in Batting Average.

By EDDIE MURPHY

Paul Strand, first-sacker of the Salt Lake Bees, is away out in front in the race for the Pacific Coast League batting crown. Paul had another big week of hitting on the Salt Lake lot at the expense of the Portland pitchers, and today finds him claiming the sweet batting average of .400, a gain of eight points on last week's mark. Last week, Joe Kelly of the San Francisco Seals, was tied with him for first place, and Jimmy O'Connell of the same club threatened to get into the argument good and thick, but Kelly and O'Connell, like all other Seals, found it was impossible to get more than a half dozen hits off the Oakland pitchers in the whole seven games, so naturally their batting averages dropped. However, Strand has not got such a big lead that he cannot be overtaken in a week. Kelly slumped from .392 to .371, and O'Connell from .376 to .364, but Duffy Lewis, boss of Strand, and Sammy Hale of the Portland Beavers are the ones who might pass Strand in a week.

Manager Lewis, who led the Coast league stickers last season, keeps climbing up the ladder, and it should not be long before he is up around the .400 mark at the present speed of moving up. Lewis claims an average of .384 and Hale of .378. Kelly follows Hale in the list and next comes "Red" Smith of the Vernon Tigers. Smith suffered a slump along with Kelly and O'Connell. Art Griggs, "Brick" Eldred and "Ham" Hyatt are others who were hitting better than .350 and who took a slump. Frank Brazil of the Portland Beavers had a good week at Salt Lake and stepped up into the .350 class. Bobby Schang of the Coyotes and Don Brown of the Oaks were the only ones of all the regulars in the league who failed to hit hard enough to keep his position in the .300 class. Charley High of Portland and Jenkins of Salt Lake are the only regulars to break into the select class in the past week.

Like the Seals, most of the Oaks found the pitching too good for them last week and fell off in their hitting. Among those to suffer with Brown were Jack Knight, LaFayette, Art Koehler, Ted Cather and Ray Brubaker, the latter losing only three points.

LaFayette continues to be the leading hitter for the Oaks, but only by one point, as Claude Cooper added on a couple last week and is hitting .315. Bill Marriott had a good time with the Seal pitchers and added seven points at their expense.

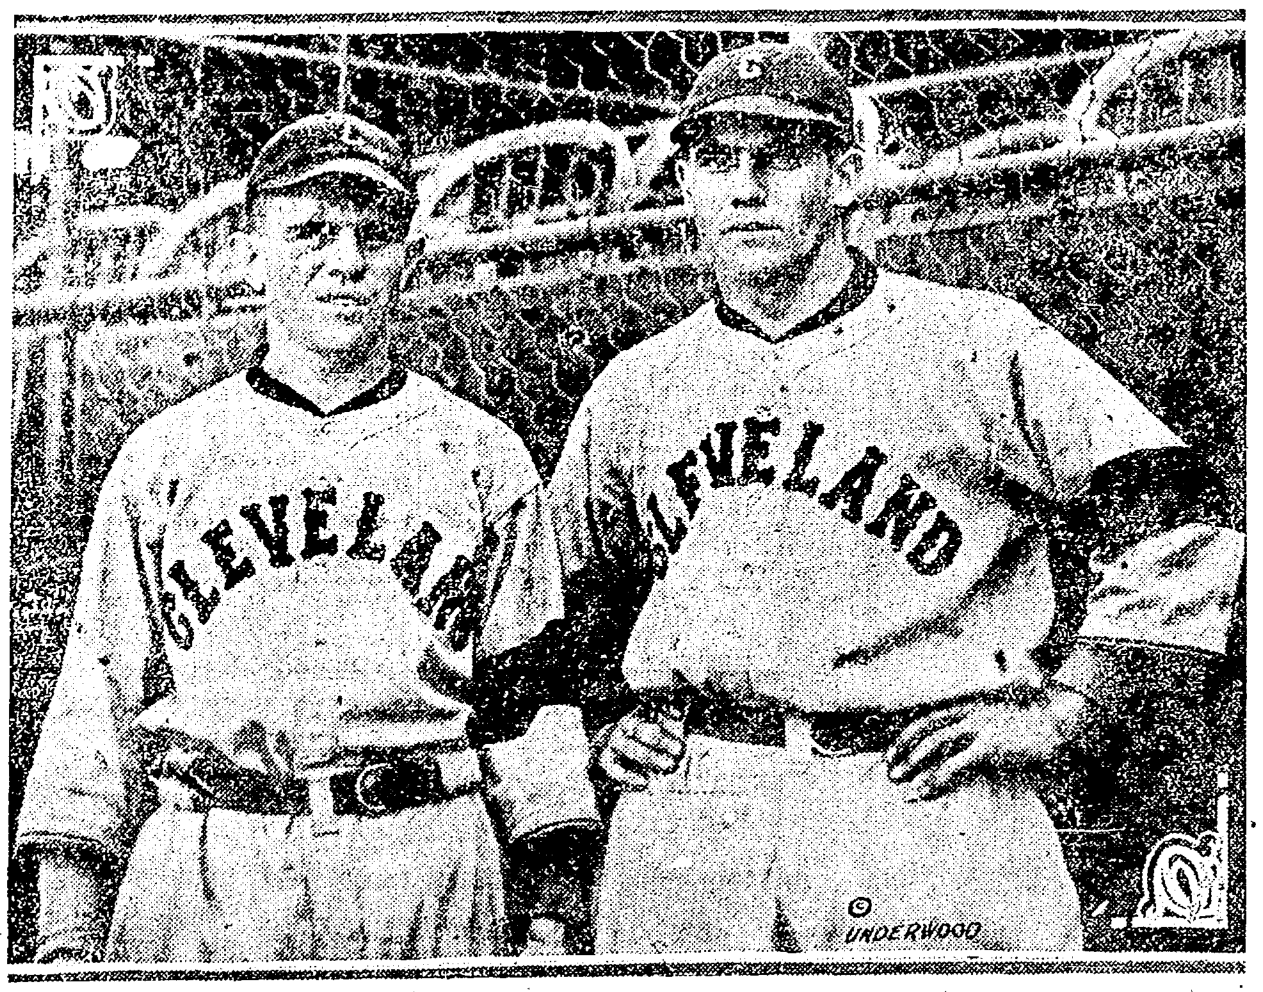

Claude Cooper continues to lead Jimmy O'Connell in the race for the most base steals. He has swiped 33 against O'Connell's 26. Cooper is also tied for the lead in hitting triples, he, Don Brown and Hawkes each having ten. Claude is the third best in run scoring, having spiked the pan 86 times. Maury Schick of the Bees is the leader with 94, and promises to reach the century mark before the present week passes. Schick is tied with Siglin and Griggs for hitting the most doubles, having 33 after his name. Schick also leads the home-run hitters, with 16, and his manager, Lewis, is only one behind. McCann of Portland continues to lead the sacrificers with 35 and LaFayette is second with 27.

"Finds" College Products Picked by Tris Speaker

JOE and LUKE SEWELL of Tris Speaker's Cleveland Indians. They're real brothers, too, each being desirous of the other's success. Joe, the shortstop, made good with Tris, so that when he recommended Luke, a catcher, for a trial, Spoke acted. He hasn't been sorry, either.

J. Fitzgerald Quits Game to Enter Business

Angels Are Here to Play Ivan Howard's Oaks in Seven-Game Series.

Justin Fitzgerald, one of the veteran outfielders of the Pacific Coast League, and who was traded for Pete Compton to the Sacramento Club by the San Francisco Seals earlier in the season, will not be seen in action in a Coast League uniform again, unless he changes his mind about retiring. The little outfielder, who is one of the most popular in the league and who stepped right off the bay cities sand lots to make good, has decided that he has seen his best days at baseball, so he will enter business at Palo Alto. Fitzgerald threatened to retire once before, but was talked out of it, but now it looks like he will go through. Fitz has been acting as field manager of the Senators in the absence of Charley Pick, who was out of the game with a broken leg. Pick is now able to play, and Merlin Kopp and Marty McGaffigan will be back in the Senator lineup the latter part of the week, so Fitzgerald feels that he is not leaving Charley Pick in any pinch, otherwise he would stay.

Fitzgerald was quite a drawing card when he came into the Coast League. In fact he was regarded as a second Gene Valla. Walter McCredie had him and let him go because of a sore arm. Del Howard, then manager of the San Francisco Seals, picked up Fitzgerald, and the little outfielder made good from the start in spite of his poor arm, which never got any better. His speed, hitting, fielding and work on the bases more than made up for the throws he was unable to make. Fitzgerald once went up to the New York Yankees, and but for his arm he would probably still be in the majors.

ANGELS ARRIVE HERE.

"Red" Killefer and his flock of Angels from Los Angeles parked themselves in our fair city this morning and were out at the local ball park right after lunch working the kinks out of themselves after their long trip. The Angels and Oaks are scheduled to put on a seven game series, and if it is to be anything like the one the teams staged here before, the fans are going to see some classy baseball played. The Angels are bustling with joy over the drive they have made toward the pennant, as they have won fourteen out of their last fifteen games, and even shattered the record for straight wins which the Oaks set in 1913 when they won thirteen games in a row. The game this afternoon and all other days of the week starts at 3 o'clock. Tomorrow, Thursday and Friday, ladies are admitted free. The kids get by the gate without a ticket on Saturday.

MOREINGS TALK TRADE.

The Moreing Brothers who control the Sacramento baseball club may announce a trade in the near future. James Boldt, president of the Seattle club, would like to have Billy Orr of the Senators on his ball club and may consider trading Texdahl Wistervil, his third sacker for Orr. The owner of the Seattle Club offered to give Rod Murphy for Orr, but Murphy is not needed at Sacramento. It is also understood that Orr is not satisfied with his present job. The Senators would like to have Wisterzil.

SCOTT KNEW HIS STUFF.

Jim Scott, the Seals' best pitcher, did not work against the Oaks last week, and Manager Miller of the Seals offered the alibi that Scott was being saved so he could pitch two games against the Vernon Tigers. But you cannot make the Oakland players believe that. They think that Scott did not have the nerve to work against them on the Oakland lot, for it will be remembered that Scott pitched the second game of the first series of the season in which the Oaks and Seals met in this city, and the Oaks batted Jim all over the lot and made him make for the showers. It has never been heard of before, where a Coast League manager has rested his pitching a full week so that he would be in readiness for the next series. The Oaks claim that Scott did not have the nerve to work against them. A win for the Seals last week meant just as much as it will this week, is the way they look at it, as Vernon was likely to win from the Angels any day.

Western Net Stars To Meet At Windy City

Walter Hayes, Wray Brown and Wesbrook Enter the Lists.

CHICAGO, July 25.—The leading tennis stars of the west will go into action here Saturday afternoon in the opening play of the thirty-fifth annual western tennis championship to be held at the South Side tennis club July 29 to August 6. An anticipated entry of more than 200 players is expected.

Walter T. Hayes, Chicago, former Western champion; Walter Wesbrook of Detroit, Michigan state titleholder and former big ten conference champion; Wray Brown, intercollegiate singles champion, and Alex Squair, who has held the western title, are entered. Vincent Richard, present titleholder, will not defend.

In the women's singles are two Los Angeles girls, Miss Grace Mulgen and Miss Jessie Grieve, who will stop here on their way east for the national championships next month.

Men's singles begin Saturday afternoon at 2 o'clock. Men's doubles begin Wednesday, August 2. The women's singles begin Monday and the doubles August 2. The finals will be held Sunday, August 6.

Tillie Walker Swats Out His 24th Homer

Babe Ruth Poles Four-Base Wallop in Exhibition Game.

CHICAGO, July 25.—(By the Associated Press.)—New York and St. Louis clubs, leading contenders in the major leagues, today opposed each other in the opening games of series that may have a decision bearing on the outcome of their respective pennant races.

Tillie Walker knocked out his twenty-forth homer as Philadelphia closed its home stand yesterday by beating Washington, 4 to 2, and was robbed of the twenty-fifth when a fan pushed the ball out of the bleachers. Walker is now three ahead of Ken Williams, his nearest American league rival, and two behind Rogers Hornsby, the National league clouting king.

Coveleskie outpitched Red Faber and Cleveland defeated Chicago, 5 to 2, in the only other game played in the major leagues yesterday.

Babe Ruth, the king of swat, lived up to his reputation before a crowd of Cincinnati fans when he poled a home run for the Yankees in the exhibition game played with the Reds.

The veteran Tris Speaker threw a thrill into the crowd when he made a diving catch of a line drive off Harry Hooper's bat in deep center. This started a double play which broke up a White Sox rally.

Bryan Harris held Washington to six hits while his teammates got the jump on Erickson and then continued against Brillheart, giving the Athletics a 4 to 2 victory.

Adolph Retty, the sand lotter, who pitched for the Athletics last Wednesday and beat the St. Louis Browns, signed a contract with Connie Mack and accompanies the Athletics west. Several of the other clubs were negotiating for the pitcher's services.

The Chicago White Sox returned home today after an even break on their invasion of the east. They won nine games and lost nine.

Otis Parker Has a Claim to the Title

Otis Parker, of Idora Park, is the Pacific Coast roller skating champion.

Parker won the title during the past week in a series of three races at Idora Park, winning first place in two of them and scoring 51 points against his two nearest competitors, Cliff Howard of Los Angeles, champion since 1913, and Willie Trounce, an Idora speed star, both of whom finished with 17 points each.

Earl Dye scored 15 points, sharing in the prizes.

Parker won the two-mile event held last Friday night and the one-mile race on Saturday night. Sunday night he tumbled and failed to finish in the half-mile. Howard won with Trounce and Dye right at his heels. Howard's time for the half mile was 1:20.

St. Louis-N. Y. Clash Today In Big Brush

Yanks Meet Browns at the Mound City; Cards Invade Polo Grounds.

ST. LOUIS, Mo., July 25.—(By the Associated Press.)—A battle for the leading position in both major baseball leagues is scheduled to begin today—New York at St. Louis in the American, and St. Louis at New York in the National league, the Browns-Yankee series calling for four games, while the Cardinals and Giants are booked for five.

Performances of the teams this season indicate the local Nationals should have an advantage, while the local Americans appear doomed to draw the shorter end in this crucial series.

The Browns, who are leading the league by a close margin of one and one-half games, returned yesterday from a road trip, on which they won nine and lost an equal number of games.

The Yankees have an edge on the Browns in games won and lost, the visitors having taken six of the eleven contests this season.

Urban Shocker, former Yankee pitcher, and leading hurler of the junior major league last year, is scheduled to open the series against the Browns' nearest rivals. Shocker lost his last four games against New York, after beating the Yankees in his first two games of the season.

PITCHERS GOING WELL.

Lee Fohl's pitchers have been hurling excellent ball during the past weeks, and the last road trip ended rather poorly, chiefly because of weak hitting by the entire team.

Miller Huggins has been forced to admit that his pitchers have not shown the expected effectiveness, Bush and Shawkey being the only two consistent winners of the hurling staff, prized as the best of the league. Hoyt, Mays and Jones, the other mainstays of the moundmen, have been unsteady.

The Cardinals, on the other hand, have found their rivals for the pacing position rather easy this season, as shown by the fact that the locals have won seven of the ten contests in which the two teams have crossed bats. The Giants are leading by a scant margin of one point, the standing being:

Giants won 54, lost 34; .614.
Cardinals won 57, lost 36; .613.

LACK BATTING PUNCH.

While the local Nationals have been handicapped by the weak pitching, the batting punch has more than offset this weakness. Prior to New York's visit last week, the Cardinals had won four straight from their leading rivals and stretched their string of victories to six by taking the first two contests.

Confidence in the Browns' winning the league pennant is becoming stronger every day among local fans. Some have already reserved seats for the big show next fall, while one local hotel yesterday, in advertisements, asked out-of-town fans to make early reservations for rooms.

No comment has been made by the Brown's officials on the latest New York-Boston deal, by which Joe Dugan and Elmer Smith will be permitted to play in New York uniforms, beginning today. "The deal speaks for itself" was the only reply Phil De C. Ball had to make.

PORTLAND CLUB GETTING BACK IN STRIDE AGAIN

SALT LAKE CITY, July 25.—The Salt Lake Bees and Portland Beavers closed their series yesterday afternoon with the Bees winning both games of a double-header, scores 11 to 8 and 14 to 4. It was the sixth win in nine games the Bees scored over the visitors. "Paddy" Siglin got six hits in the two games. Jim Poole hit a pair of homers in the first game. The scores:

Bert Colima Boxes Main Event in L. A.

LOS ANGELES, July 25.—Sailor Larry, colored middleweight of San Diego, will meet Bert Colima of Los Angeles in the main event at Vernon tonight. Joe Layman and Frankie Jerome, local 135-pounders, will box the semi-windup.

Intrepid Winner In Class "P" Race

MACKINAC ISLAND, Mich., July 25.—Intrepid, the class P sloop owned by Donald Prather of Chicago, won the sixteenth annual yacht race which started at Chicago Saturday.

Baseball

OAKS vs. L. A.

Every day (except Monday) at 3 p. m., also Sunday at 10:30 a. m.

Secure reserved box and chair seats for Sunday's games at State Pharmacy, 435 14th St.

Jim Scott of Seals Leads The Pitchers

May, Mitchell and "Buz" Arlett Right Behind the Leader.

Jim Scott, who failed to pitch a game against the Oaks last week, is today leading the Coast League pitchers, and that rest helped him to take the lead, as Jakie May and Oliver Mitchell, along with Buz Arlett, lost a game each last week, and they each won one. Scott has fifteen wins and five defeats after his name. May rates second best, with Mitchell third and Arlett fourth. Arlett has to win one more game to put him at the twenty mark. Bob Geary of the Seals and Wheezer Dell of Vernon are coming along fast.

The pitching records follow:

	W.	L.	Pct.	Rrf.

Australian Davis Cup Team Arrives

NEW YORK, July 25.—The Australian Davis cup team known as the most remarkable contender for the international tennis trophy held by the United States, arrived from England today on the Majestic.

The party included Gerald L. Patterson, the team captain and Mrs. Patterson; Mr. and Mrs. James O. Anderson, Pat O'Hara Wood, R. C. Wertheim and his sister, Miss Wertheim.

Margaret Dillon Wins Grand Circuit

COLUMBUS, O., July 25.—(By the Associated Press.)—The opening day's racing of the mid-summer Grand Circuit meeting here yesterday afternoon was featured by the splendid performance of Margaret Dillon in winning the Elks Home 2:04 pace and by the consistent work of original favorites in two of the three other events.

SUNDAY

AUGUST 6TH

BENNY LEONARD AND LEW TENDLER READY FOR THEIR BOUT

EDDIE MAHONEY AND JIMMY DUFFY BOX MAIN EVENT AT THE AUDITORIUM TOMORROW EVE.

BENNY LEONARD IS ON EDGE FOR BOUT WITH LEW TENDLER

Champion Confident Tendler Not as Tough a Man as Rock y Kansas.

BUDD LAKE, N. J., July 25.—This was the last full day that Champion Benny Leonard put in before his lightweight title bout with Lew Tendler of Philadelphia at Boyle's Thirty Acres, Jersey City, Thursday evening.

Before starting on his daily five-mile run around the rim of the oval body of water from which this mosquito-bitten oasis of New Jersey derives its name, Leonard made this bald statement:

"I'll have no alibi if I lose and I'll be disappointed if I don't win by a knockout before the seventh round."

Ht buttoned up his sweater and called to Brother Joe, who recently made his professional debut in the lightweight ranks, and started away with an admonition to Packy Swartz, the hero-worshipping chef. "Have my eggs as you always do and lots of butter on my toast."

"Now don't get run over by automobiles," Packy answered.

For two weeks Leonard has been living here, surrounded by his family—mother, three brothers and sister, who stay at a hotel not 100 yards from the "training" camp. The camp consists of a large two-story house and a good sized rear yard with a regulation ring perched under a cluster of trees.

Leonard says that today he is at the top of his career. He appears as finely pointed as a thoroughbred and as meticulously cared for as one—fed, rubbed and humored. He says this is the best year he ever will have. He feels so strong, lively and pugnacious that he has broken all championship records by boxing three top-notchers within four weeks.

Two Other Bouts Improved Condition

The previous two fights—with Jack Britton, welterweight champion, and Rocky Kansas, of Buffalo, have put him on the necessary edge for Tendler, who for more than a year has been acclaimed the logical contender. Feeling so positive of himself, Leonard has signed for a fourth bout, with Ever Hammer, a lad who has brought out a two-fisted name for himself in the Middle West.

This bout probably will be held at Michigan City, Ind., August 5.

Leonard speaks slightingly of Tendler's pugilistic ability. He holds Tendler cheaply, he says, because the Philadelphian's record doesn't impress him. He avows that Tendler has been floored too often by men lacking a genuine punch and that Tendler doesn't tote the wallop that Leonard has demonstrated that he carries in both hands. He granted Tendler's aggressiveness and a certain amount of cleverness, but he withholds the label "championship calibre."

Champion Has Worked Out Daily

The champion has worked out every day since coming here with three sparring partners—Mike Carnier, a tall, long-armed 150 pounder; Johnny Martin, who has battled Tendler twice, and Sammy Berne, a fleet, shifty 156-pounder who puts fight into his sparring. Leonard goes either two or three rounds with them in succession every afternoon and then shadow boxes.

There is no change of style in Leonard's workout but those who have watched him will not be surprised if he alters his tactics by devoting more time in the arena to Tendler's neck and belt line than above the shoulders. Tendler's big asset is getting inside his opponent's guard and raining short, steaming crushers that dig into the stomach.

"This year," said the champion yesterday, "I feel that I am at the heighth of my power—that I never will be a better man than I am now. This is the best year of my life. This is why I have had so many bouts this summer and why I am going to have several more after disposing of Tendler. I won't have an alibi if I lose—not even that I was worried or off form.

"Yes, I am in better shape than when I won the title from Welsh. I am stronger now than then. I am matured. I have had all kinds of ring experience. A specialist who examined me yesterday said that I was in perfect condition—my heart, lungs and temperature.

"Now Tendler is a good boy and a good boxer. He is young and ambitious and he can hit—but not hard enough. You know I violated all the anons of boxing when I began fighting with a right lead—a right hand that works like a left jab. But that is why I always have it only with southpaws."

"I am not over-confident and I realize I'll have to fight. I'm training hard."

Leonard Shows Bunch of Stuff

The champion went through his whole repertoire and bundle of tricks yesterday; first a four-mile run, then a light breakfast, a few hours' play with his sister "Sid," eight three-minute rounds with sparring partners, one round of shadow boxing, calisthenics and a long rubdown and muscle kneading from Matty Seamon, the trainer.

Afterwards the champion took a dip in the lake, came home for a lamb stew dinner, back down to the lake to paddle "Sid" about in a canoe, and then trudged home to talk with his mother and three brothers and wait—with the aid of a pinocle deck and a rasping phonograph until bed time.

The most impressive feature of his ring work in camp has been his condition at the end of eight or nine, bristling, mauling rounds with three sparring partners—a fresh one every three rounds. The heavy, struggling respiration of the "human punching bags" affords the contrast that showed how ordinary Leonard breathes at the end of the practice.

He says he hasn't changed his style for Tendler and his sparring proves it. He will attempt the same amazing footwork, the dancing in and out, the quick punch and get-away, the clever blocking and snappy return.

So confident is the champion that he has signed articles to meet Ever Hammer, who has been making a name for himself in the Middle West, at Floyd Fitzsimmons' arena at Michigan City, Ind., August 9. Two weeks later he will probably meet another man in Pittsburgh.

DELANCO, N. J., July 25.—At the Tendler camp last night, t was said that the Philadelphia lightweight was in fine fettle with the prospect of stepping into the ring Thursday night in the best condition of his career. His sparring partners declared after the workouts today that they had never known him to be in better form. Tendler expects to continue his strenuous daily grind up to the day of the bout. Short road hikes will wind up his training.

ABE ESPINOSA SETS NEW MARK ON S. F. LINKS

Abe Espinosa, well-known local professional golf star, yesterday astounded the devotees of the game on the links at the California club in San Francisco by setting a new record for the transbay club's course, making the 18 holes in 65, thus smashing the record of 67 formerly held by Jones, former California club professional, by a margin of two strokes.

By playing around in 65 Abe negotiated the tough California course 5 below par, the par for the course being 70. Three birdies were turned in during the trip around and an "eagle" was narrowly missed by a matter of three inches.

A. E. Maumus, caddy master at the California club, went around as scorer during the record-breaking phenomenal as it undoubtedly seems ion to doubt the accomplishment, phenimenal as it undoubtedly seems to golfers who have played over that course.

Espinosa's card for the day follows:

	OUT								
Par	4	5	5	4	3	4	5	4	3—37
Espinosa	3	5	4	3	3	5	4	3	3—33
	IN								
Par	3	4	4	4	4	3	4	3	4—33
Espinosa	3	4	4	4	4	3	4	2	4—32

CHAMPION SURVIVES.

DETROIT—Miss Lucille Dezenberg of Kalamazoo, the defending champion, was the only golfer from outside Detroit to survive the qualifying round today in the women's state championship tournament. Of the fifty who entered less than a dozen were from other cities.

Skokie Field Will Compete At Detroit

Same Golfers Sarazen Beat to Meet on the Links August 23-25.

CHICAGO, July 25.—By the Associated Press.)—Virtually the same golfers from whom Gene Sarazen of Pittsburgh recently won the national open championship at Skokie will compete in the western open tourney at Detroit, August 23-25, it was announced today by Secretary W. W. Harloss of the Western Golf Association, who sent out formal notices of the meet.

The contest will be played on the links of the Oakland Hills Country Club, said to be one of the finest in the country, and is open to all professionals and amateurs in the world.

Definite word has not been received from Bobby Jones of Atlanta, and John Black, of Oakland, Cal., as to whether they will try to win the event after their failure by only one stroke of tying Sarazen, but they both have said they would play if possible. Sarazen is expected to try for the title now held by Walter Hagen, recent winner of the British open crown.

The prizes are the same as in the national championship, but the play lasts only three days. On the first day, all entrants will play 18 holes and all will repeat on the second day. The best 64 scorers and ties for 64th places will then play 36 holes on the third day. The player having the best medal score for the 72-holes will be champion.

The rules of the United States Golf Association will govern play, except as modified by the local rules used by the western association.

GOLF FACTS worth knowing

by INNIS BROWN

Q. In lifting a ball from casual water, is a player entitled to walk back as far as he likes in dropping it, provided he keeps the point at which it lay in line with himself and the hole?

A. No. The rule provides that the ball be dropped within two club lengths. The player does not have to drop back of the place where the ball lay, so long as he does not drop nearer the hole.

Q. In a four-ball match, if a player of one side stop the ball of a member of the opposing side, does that disqualify him for further play on the hole, or does it lose the hole for both himself and his partner?

A. It loses the hole for his side.

Q. Is there any rule in tournament play that forbids a player to tee his ball before his opponent has played, when the latter has the honor for the hole?

A. No. However, the etiquette of the game recognizes the right of the player with the honor to tee and play before his opponent tees up.

Q. If a player drives out of bounds in a medal qualifying round, can he take advantage of the rule which allows him to tee up at any place with a penalty of two strokes, supposing that he selects a place on the fairway opposite to where his ball lay out of bounds?

A. No. There is only one procedure following a stroke out of bounds. Play another ball from the same spot, with a penalty stroke under U. S. G. A. and Canadian rules, counting the previous stroke as well, of course. Under W. G. A. rules there is no penalty stroke.

Q. If a player's ball stops in high grass, is there any penalty, if he plays another ball found there through mistake?

A. In match play, there is no penalty, if the error is discovered and reported to the opponent, before he plays a stroke. If he has played a stroke, the player loses the hole. In medal play, there is no penalty for playing one stroke with a wrong ball, but if two strokes are played, the player is disqualified, unless the mistake occurred in a hazard. If, in a hazard, he is not penalized, if the mistake be discovered before a stroke is played after recovering from the hazard. In all cases, it is presumed that the player on discovering his mistake, plays his own ball.

If any golf rules puzzle you, write Innis Brown, care of our Sporting Editor, enclosing stamped, return envelope.

Tilden-Johnson Out Of Penn. Net Play

PHILADELPHIA, July 25.—Carl Fisher, the title holder, and most of the other favorites, won their first round matches yesterday in the middle states tennis tournament at Cynwyd.

Both William T. Tilden, national champion, and Wallace F. Johnson, holder of the Pennsylvania state championship, defaulted.

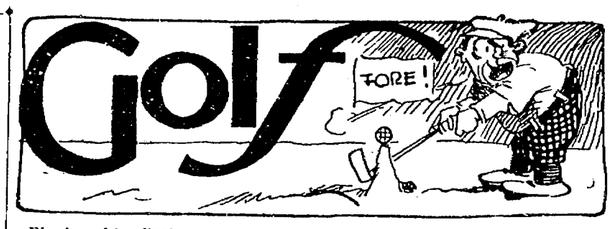

GUS GLEICHMAN RETURNS.

LOS ANGELES, July 25.—Gus Gleichmann, manager of the Edmonton club of the now defunct Western International league, has returned to Los Angeles. The Canadian league will be re-organized next season on a much stronger basis, Gleichmann says.

SACRAMENTO SHORT LINE

PHONE PIEDMONT 345

Trains for Sacramento and Pittsburg leave 40th and Shafter Depot daily. 7:50, 9:30, 11:50 a. m. 1:30, 3:30, 5:10, 8:30 p. m. Dining-Observation Car on the 5:10 Through trains to Marysville, Colusa, Oroville and Chico. Lake Tahoe leave 7:50 a. m.

Playing his first round of golf over Claremont since returning from Skokie, John Black rounded the course in 67, three under par. Davie Trufelli, with L. A. Redmond as partner, challenged W. J. Gardner and the Skokie expert for ball, ball, ball, all of which went to Gardner and his partner. John hit a terrific tee shot from the first and was hole high with a mashie niblic to the left of the pin, his putt for an eagle 3 just missed by an inch. His tee shot to the second was hole high but off the green to the right. Approaching with a mashie niblic instead of his old reliable jigger, John left himself a 4-foot putt, which he missed. The short fourth was badly played, all taking fours. Another long drive at the fourth left him a mashie niblic approach, which stopped 2 yards from the hole, but his putt stayed out and a par 4 was recorded.

A perfect drive and short approach left him 2 yards from the cup, sinking the putt gave him a birdie 3. Driving just short of the sixth, John played a deliberate shot for the tree at the back of the green, but got the trunk instead of the branches, came too far back, and a 4-yard putt was a few inches away.

Using his patent stance with the left foot off the tee he drove well up the slope towards the road bunker and approached to within 3 yards of the pin and holed out in 3. An iron shot just off the green, an approach and putt parred the eighth hole. A 250-yard drive and a 150-yard approach and two putts gave an out round of 33, three under par. Playing the tenth too strong, John's ball rolled off the green and a missed putt cost him four. Davie won the hole with a par 3. The eleventh was badly played by both sides; good drives, weak approaching and bad putting halved the hole in fives. John hit a beauty at the twelfth, which left him a short pitch to the green; his putt of 2 yards over rolling ground was missed and 4 was recorded. The 200-yard thirteenth was reached with a mid iron; two putts gave another par 3.

Black's tee shot at the 248-yard fourteenth almost carried the green, but stopped dead in the well-watered Bermuda surrounding the green. His approach was short, but he holed a missable putt for a birdie 3 after Davie had almost holed his approach for a 2. The fifteenth, sixteenth and seventeenth were all recorded in par figures, putts for birdies in each case just falling. John's tee shot at the eighteenth was slightly pushed to the right, but a beautiful brassy second was hole high just off the green. An approach to within 12 inches of the cup gave him another birdie 4 for an inscore of 34.

"STRANGLER" ED MEETS GARDINI ACROSS THE BAY

"Strangler" Ed Lewis, the grappling champion, meets up with Renato Gardini, the Italian wrestler of promise who is challenging for the championship, this evening on the mat at the Civic Auditorium in San Francisco. It should be a clash of headlocks, according to the best authorities of the mat game, "Strangler" Lewis being famous for the hold after which he was nicknamed, while Gardini in several of his matches in the bay region has shown a disposition to come to close quarters and apply the crushing hold.

The appearance of Lewis in San Francisco tonight marks the first appearance in the transbay city of a real wrestling champion in many a moon.

There will be two preliminary bouts on tap before the main event. Charlie Andrews, U. C. wrestling coach, will referee the match.

Princeton Track Star at Occidental

LOS ANGELES, July 25.—Charles R. Erdman, captain of the Princeton track team in 1920-21, will assist Coach Joseph A. Pipal at Occidental college next season, it was announced here. He will devote much of his time to the hurdles, in which event he excelled at Princeton.

John Black Is Seen On Screen This Week

John Black of Oakland, Cal., who became famous by his recent performances at the Skokie Golf course, New York, when he finished a close second to Gene Sarazen, is at the New Franklin theater on the International News film this week. Black is shown in the now famous contest, pitting his skill against that of 21-year-old Sarazen.

Ira Dern Wins in Two Straight Falls

SALT LAKE CITY, July 25.—Ira Dern of Salt Lake City won two straight falls from Basanter Singh of Calcutta, in a middle weight wrestling match here last night. The first fall took 12 minutes and was accomplished by a combination cradle, head and leg hold. The second took 15 minutes, Dern using the crotch and half-Nelson.

RICHARDS AND VOSHELL PLAY WAY TO A WIN

NEW YORK, July 25.—Vincent Richards of Yonkers, N. Y., and S. Howard Voshell of Brooklyn, who rank No. 3 and No. 8 respectively on the national list, won easily yesterday in their first matches in the Metropolitan singles tournament on the courts of the Crescent Athletic club.

Ted Thye Winner Over Carl Furness

EUGENE, Ore., July 25.—Ted Thye, Multnomah amateur athletic club wrestling instructor, Portland, won from Carl (Doc) Furness, Chicago medical student and trainer of Johnny Meyers, in two straight falls in a wrestling bout staked here last night.

Thye obtained his first fall over Furness in 54 minutes with a body scissors and arm lock. Five and a half minutes after the opening of the second round Thye again got his man, this time with a wrist lock.

Lassen Lumber Nine Trims Reno, 10 to 2

The Lassen Lumber and Box Company club defeated Reno yesterday, 10 to 2, in the second of their five-game series. Kilburn allowed six hits, while Shultis was pounded for sixteen. On July 30th, the lumberjacks play a double header with the Durant Motor club of Oakland.

GUN CLUBS MAY CONSOLIDATE.

LOS ANGELES, July 25.—A proposed consolidation of the Los Angeles Trapshooting Association and the Vernon Gun club will be up for debate at a meeting of trapshooters here tomorrow night.

BARRETT WINS DECISION.

PHILADELPHIA—Bobby Barrett, Clifton Heights, Pa., lightweight, won the popular decision over Joe Welling of Chicago, in an eight-round bout tonight at the Philadelphia American League baseball park.

Molla Mallory Twice Winner On the Court

Helen Wills Wins Match in First Round of Rye Tourney.

RYE, New York, July 25.—Making her first appearance on American courts since her defeat by Mlle. Suzanne Lenglen in the finals at Wimbledon, Mrs. Molla Bjurstedt Mallory, national woman's title holder, won two matches and advanced to the third round yesterday in the New York state women's championship on the courts of the Green Meadow club.

Mrs. Mallory disposed of Mrs. R. C. Carlbach, 6-2, 6-0, in the first round, but was extended in the second round to defeat Miss Florence Ballin, New York, 6-4, 6-3.

Other stars who came through their matches successfully on the opening day of the tournament included Miss Helen Wills of Berkeley, Cal., national girls' champion, and Miss Margaret Grove of New York, ranked number ten on the national list last year.

Mrs. May Sutton Bundy of Los Angeles, who lost in the finals last year to Miss Mary K. Browne of Santa Monica, Cal., arrived here today from the coast and will play her first match tomorrow.

Summaries:

First round — Miss Margaret Grove of New York defeated Miss Marion Iler, 6-0, 6-1; Miss Katherine Gardner defeated Mrs. Alberta Oelson, 6-2, 6-0; Mrs. Molla Burjstert Mallory defeated Mrs. R. C. Carlbach, 6-2, 6-0.

Second round—Mrs. Mallory defeated Miss Florence Ballin, 6-4, 6-3.

Cleveland Refuses Kilbane-Martin Go

CLEVELAND, Ohio, July 25.—In refusing a permit for a proposed bout between Johnny Kilbane and Pepper Martin for the featherweight championship here this summer, Mayor Fred Kohler yesterday took occasion to attack the New York Boxing Commission. The mayor said: "From my viewpoint, professional boxing is not in a healthy condition right now, and the acts of the New York State Boxing Commission in making and unmaking champions at its will has made a joke of the game."

EARL FRANCE LOSES.

PHILADELPHIA—Sammy Seiger, New York featherweight, slightly out-pointed Kid Wagner, Philadelphia, in eight rounds. Bobby Barrett, lightweight, outpointed Joe Welling, Chicago, and Eddie Fitzsimmons, New York, outpointed Earl France, California.

VETERAN WINS ONE.

NEW YORK—Soldier Bartfield, welterweight, won a 12-round decision from Phil Grube.

HERE'S A NEW ONE.

COLUMBUS, Ohio—Pete Hartley, New York, fought Ko Mars, Cincinnati, 12 rounds to a draw here last night.

DUFFY'S RIGHT HAND IS IN SHAPE FOR HIS MAHONEY MATCH

James Realizes Value of K. O. Wallop and Will Attempt to Flatten Little Playmate.

By BOB SHAND.

Jimmy Duffy is out to roll up a string of K. O.'s, is the latest report from West Oakland, where Mr. Gold is doing his training. It seems that Harold Algernon Fitzgibbon Broom, trainer-in-chief, has been working overtime with Jimmy's port walloper and Harold is authority for the statement that Jimmy can stop any fighter he can hit, and in the same breath he asks if there is any lightweight in these parts whom James cannot hit. Broom realizes the value of a K. O. clout and so does Duffy. Jimmy was in none too strong with the customers last week until he threw that right in the direction of Frankie Farren's chin and sent his opponent to the mat. Then the clientele stood up en masse and everything like that, while enthusiastic admirers carried James to his dressing room. It was something entirely new for Duffy to be hailed as a hero, but James very candidly admits he likes the act and is willing to have the boys repeat it. Incidentally, he knows that little gents with knockout wallops are in big demand and can obtain diamond studded medals from red-headed guys like Tommy Simpson.

During the week Duffy has been throwing mean right crosses at his sparring mates and the boys are willing to make affidavit to the effect that James carries a powerful kick. Tomorrow night at the Auditorium Eddie Mahoney will be in there swapping blows with Duffy in the main bout of the show and the young men who have been sparring with the local lightweight will be at the ringside ready to pack Mahoney out. That's the way they feel about it but of course they are a bit prejudiced. If you want to take Dave Symon's word for it Duffy is going to get the surprise of his young life. Dave says Mahoney is boxing like a champion and is in better shape than he has been for years. Eddie was not exactly a sensation in the east but he attributes his defeats to the climate. Now that he is back in the old home town Symon declares Mahoney can lick anything of his weight.

Ray Pelkey is being congratulated upon being a good game guy. Ray has accepted a match with Jack Reeves and gents doing this cannot be accused of having a lack of heart. Reeves is one of the most punishing fighters in the business. He hurts every time he lands and he is a bad man at infighting. However, Mr. Pelkey has been winning right along and his most recent victory over Walter Caldwell convinced Manager Bert McCloud that Pelkey is a real headliner. He will be all of that if he licks Reeves tomorrow night or even gets a draw.

Eddie Macey and Eddie Mende, two kids who have met in main events around Los Angeles, will box one of the preliminaries. They're smart and fast. Al Sange, the West Oakland grocer, who stopped Frankie Conifrey, will hook up with a seasoned performer in Bud Soules. The latter is quite popular in the south. Vic Morrison, the green kid who did well for a pair of rounds last week, will entertain Frankie Oldrich. Racehorse Roberts has a date with Sammy Pelsinger and Eddie Kelly will help Young Rooney provide the curtain raiser.

Frankie Conifrey has gone back to New York. Just as Frankie was beginning to like the four-round game Al Sange poked him on the chin.

No announcement has yet been made of the name of the orchestra that will play at Boyle's famous Thirty Acres Thursday night. It is understood that a number of bands and orchestras are bidding for the job.

Floyd Fitzsimmons says he has Brennan and Dempsey signed for Labor Day but the flag at the city hall is not flying in honor of that achievement. Dempsey vs. the large and numerous Brennan family might be worth while.

Bo McMillan Goes Home on a Visit

FORT WORTH, Texas, July 25.—Bo McMillin, former captain of the famous Center College football team, who will become head coach at Centenary College, Shreveport, La., this fall, arrived here yesterday to visit relatives. Madison Bell, coach of the 1921 Haskell Indian College team, also came in Monday. Both are Fort Worth residents. McMillin plans to leave for Shreveport the middle of August to line up the 1922 football campaign.

MY FAVORITE STORIES by IRVIN S. COBB

Kind Words for Us Yanks

Here are two compliments from widely different sources for Yankee valor:

In 1914, R. H. Davis, editor of Munsey's magazine, was visiting G. K. Chesterton, the English writer, at the latter's home near London. Davis was standing with his back to the fireplace when his host entered the room.

"You astonish me, Mr. Davis," said Chesterton. "I didn't know an American ever turned his back to British fire."

In Paris a column of our troops marched under the Arc de Triumphe in the parade in honor of the French unknown soldier. At the conclusion of the ceremony, the commanding officer approached Marshal Foch for instructions.

"Do we go back, Marshal, the way we came?" he asked. "It's a one-way arch."

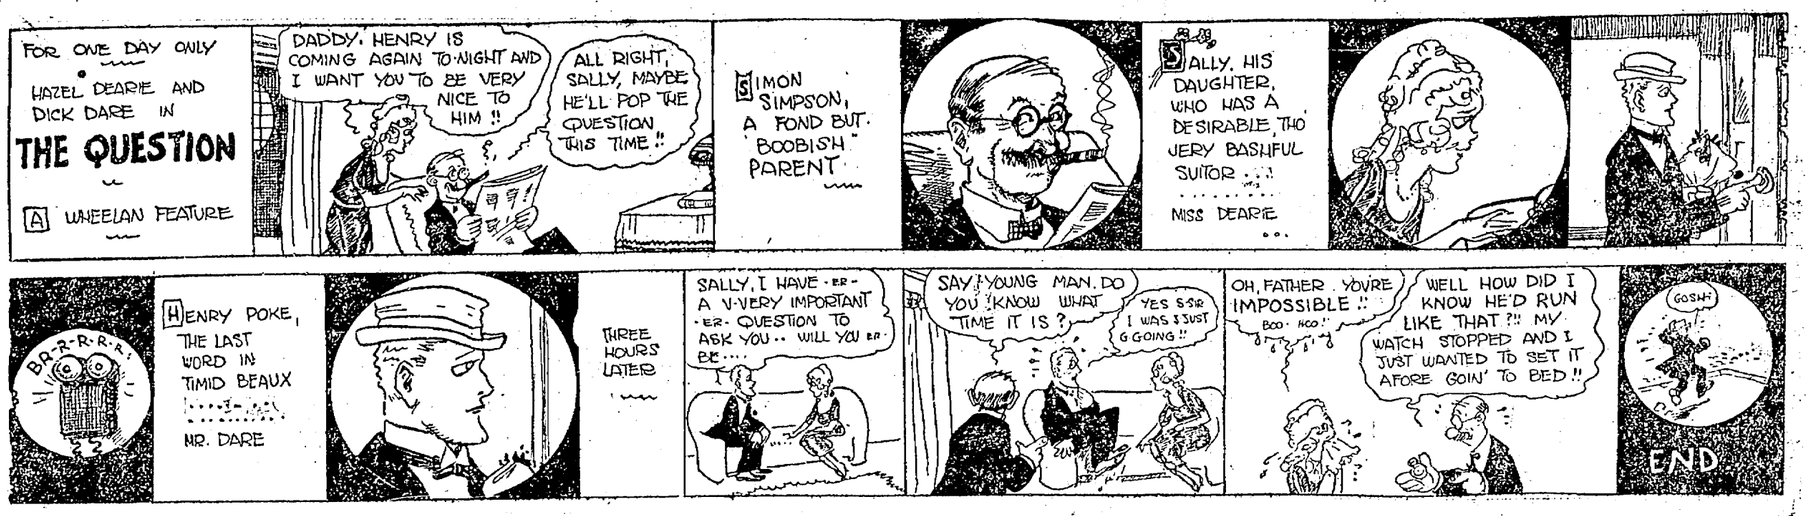

With a smile the great Frenchman made answer:

"No, sir; the American army never goes back!"

Uncle Wiggily Stories

by HOWARD R. GARIS

UNCLE WIGGILY AND GRANDPA BULL.

UNCLE WIGGILY was hopping one day near the duck pond ocean where Lulu, Alice and Jimmie Wibblewobble, the ducks, practiced their swimming lessons, when, all of a sudden, near a place where the tall-cottail rushes grew, the bunny gentleman heard a loud splash in the water.

"Oh, my!" cried Mr. Longears, as he jumped aside to hide under a log. "That must be the Woozie Wolf or the Fuzzy Fox throwing stones at me! But that stone didn't hit me, for it fell into the water. However, I must be careful!"

Uncle Wiggily kept himself hidden under the friendly log and waited, thinking to hear more splashes in the water, which would tell of other stones being thrown at him. But he heard no splashes, and he saw neither the Woozie Wolf nor the Fuzzy Fox.

"I must have been mistaken," said Uncle Wiggily out loud.

"And Bully and Bawly No Tail will find out that they have been mistaken also!" cried a loud voice not far away.

"My goodness! Who's that?" asked Uncle Wiggily, greatly surprised.

"Ha! Ha! Ha! Don't be afraid," went on the loud voice, quite a jolly one, by the way.

"But who are you?" asked the rabbit gentleman.

"I'm Grandpa Bull, the frog," was the answer. "I heard you coming and I thought you were some boys getting ready to throw stones at me, so I plumped myself into the water."

"Oh, then it was you who made the big splash?" asked Uncle Wiggily, coming out from beneath the log.

"I suppose so," croaked Grandpa Bull with a loud laugh. "I am getting quite fat, I dare say," and, indeed, as Uncle Wiggily looked at the old gentleman frog, the bunny thought he had never met with one so nearly a giant in size. He was almost as large as the largest pussy cat you ever saw.

"Well, I'm glad it was you and not the Wolf or Fox," said Uncle Wiggily to Grandpa Bull, as the frog hopped up out of the water and the bunny sat on the log.

"And I'm glad you weren't a lot of boys coming to throw stones at me!" rumbled Grandpa Bull.

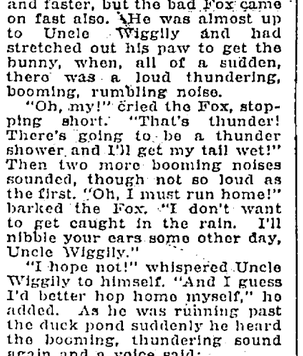

"What was that you said about Bully and Bawly?" asked the bunny.

"Oh, those little rascals of boy frogs think they can sing as loudly as their grandfather!" laughed Mr. Bull. "The other day they were boasting how loudly they could croak. It isn't good for boy frogs to get too large an idea of themselves, so I told Bully and Bawly I would meet them here today and see who was the loudest croaker. Just wait until they hear me," said the old frog. "They'll wish they had never boasted. Once I croak my loudest—well, here's a sample,' and puffing himself up Grandpa Bull made the ground fairly tremble with his booming croak, and Uncle Wiggily must needs hold his paws over his ears so he wouldn't be made deaf.

"How's that?" asked Grandpa Bull.

"Wonderful!" answered Uncle Wiggily.

Then Uncle Wiggily hopped

"Wonderful!" answered Uncle Wiggily

along to look for an adventure, for he thought to himself that he didn't want to be in the neighborhood when Grandpa Bull and the two boy frogs had their croaking race to see who could make the most noise.

The bunny gentleman hopped on and on, while Grandpa Bull sat on the shore of the duck pond ocean waiting for Bully and Bawly to come and try their voices against him.

As for the rabbit gentleman, he had not hopped very far, before he met Nannie Wagtail, the goat girl, and poor Nannie was in trouble, for she was carrying home a basket of groceries from the store, when the handle of the basket broke.

"Never mind," said Uncle Wiggily, kindly, "I'll gnaw you another handle from a piece of wild grape vine. There are many vines growing hereabout."

So the bunny gnawed a new handle for Nannie's basket, and sent her on her way home happy. Then, all of a sudden, as the bunny was twinkling his pink nose, the Fuzzy Fox leaped out from behind a briar bush and barked:

"Now for some good ear nibbles!"

"Not yet! You don't get my ears if I can help it!" cried the bunny. Away he hopped, faster and faster, but the bad Fox came on fast also. He was almost up to Uncle Wiggily and had stretched out his paw to get the bunny, when, all of a sudden, there was a loud thundering, booming, rumbling noise.

"Oh, my!" cried the Fox, stopping short. "That's thunder! There's going to be a thunder shower and I'll get my tail wet!" Then two more booming noises sounded, though not so loud as the first. "Oh, I must run home!" barked the Fox. "I don't want to get caught in the rain. I'll nibble your ears some other day, Uncle Wiggily."

"I hope not!" whispered Uncle Wiggily to himself. "And I guess I'd better hop home myself," he added. As he was running past the duck pond suddenly he heard the booming, thundering sound again and a voice said:

"There, Bully and Bawly, see if you can croak as loud as that!"

"Boom! Boom!" sounded two lesser noises and then a voice said: "No use, Grandpa Bull. You were right. We aren't big enough yet to beat you croaking."

"Ha! Ha!" laughed the bunny as he saw the three frogs. "It wasn't thunder after all that scared the Fox. It was only Grandpa Bull and the frog boys. Now I can stay and have some fun with them," and he did.

So the Fox had no ear nibbles that day.

The new night watchman at the observatory was watching some one using the big telescope. Just then a star fell. "Begorra," he said to himself, "that fella sure is a crack shot."

TOOTS AND CASPER *Is Aunt Tessie Getting Casper's Goat?* BY MURPHY

Officers Elected by Good Templar Lodge

BUTTE, Mont., July 25.—National officers were elected yesterday at the annual convention of the Grand Lodge, Independent Order of Good Templars as follows:

Chief templar, Rev. Edwin C. Dinwiddie, Washington, D. C.; counseller, Harry E. Wellman, New York; vice-templar, Mrs. Ruth Burton, Montana; superintendent of juvenile work, Mrs. E. J. Chandler, New Hampshire; secretary, Willard O. Wylie, Massachusetts; treasurer, Albert Sutcliffe, Massachusetts; past chief templar, Dr. C. A. Carlson, Ohio; superintendent temperance education, Miss Laura R. Church, Washington, D. C.; chaplain, Harvey Penberthy, Washington; marshal, C. Wilmer King, Delaware; deputy international chief templar, F. W. Sarles, Montana.

City to Buy Golf Links Water System

The board of playground directors, at its meeting yesterday afternoon, decided to advertise for bids for about $10,000 worth of grass seed, sprinklers, tools and all the other elements to finish the municipal golf links near Lake Chabot. Bids will be opened a week from Thursday.

The decision was taken in order that all the lawns will be well planted by winter and growing by spring.

"The idea is to plant the grass in time for the rains," says Superintendent Jay Nash, "and then the lawns will irrigate themselves during the winter, saving big water bills."

Pipes for the complete water system, to keep all the putting greens in perfect order, will be installed immediately.

From Sergeant M. B. Bennett, U. S. M. C., in charge of the local Marine Corps recruiting station in the basement of the city hall, comes the story of "Lizzie Leatherneck," reputed 'dark horse" in the coming fifty-mile race for stock Fords to be run in connection with the speed classic to be held at Cotati August 6.

The Marine Special, a second entry of the William L. Hughson Co. of San Francisco, is to sail under the colors of the United States Marine Corps, with an ex-marine at the wheel. Painted a gleaming white, Lizzie is striped diagonally from stem to stern with a broad ribbon of red, white and blue, sealed in the center with the blue and gold eagle, anchor and globe insignia of the marines. The Mare Island sea-soldiers have affectionately dubbed her "Lizzie Leatherneck," and claim they will paint across her after-deck—have "tatooed between her shoulder blades" is the word—the legend, "Look out! We're coming back!"

Bennett advises Ford agents in the bay counties to pep up their entries for the coming race at Cotati. Although he admits that the marines have yet to distinguish themselves in the automobile racing game, still he avers that "You can't beat a marine, that Lizzie is a racin' fool, and that he knows ex-Marine Billy Mize and his mechanician to be speed demons and dyed-in-the-wool leathernecks."

The keen interest of the sport-loving public in the dealers' race for stock Fords, held at the San Carlos track during the recent Shrine convention, has found expression in the decision of other speedway associations to feature special Ford events in all of the coming speed classics.

A fifty-mile race at Cotati on August 6, for first, second and third prizes of $300, $150 and $50, respectively, is bringing out numerous entries from dealers around the state, notably in the north bay counties. Competition was so marked at the race held during Shrine week that practically the same line-up that started then is entered for the coming race, augmented by the addition of other fast dealers' cars.

What is suggested as a possible "dark horse" at the Cotati meet is the second entry of the William L. Hughson Co. of San Francisco, the Marine Special, which is to sail under the colors of the United States Marine Corps, with a skipper and crew of ex-marines.

The entries up to yesterday were the Hughson Special, the Marine Special, the Cheffoli & Maggini Special that won the San Carlos event driven by Hanson, the O'Neill Special, the Smith Special and the Sanderson Special, fast cars all, and the best assurance of a hard-fought contest. Other entries were expected hourly.

Dealers may secure entry blanks not later than August 1 from George W. Hughson, 1499 Market street, San Francisco.

NEW ROOSEVELT MEMORIAL.

NEW YORK, July 25.—A stadium to be named for Theodore Roosevelt and devoted to spreading among the alien born the gospel of Americanism as the former president taught it, is soon to be erected on the lower East Side, where Hester street meets Essex, it was announced yesterday by Harry H. Schlacht, president of the downtown Chamber of Commerce.

PARTISAN ATTACKS.

VALDIVOSTOK, July 25 (By the Associated Press).—The partisans are operating on the very outskirts of town and in Nikolsk-Ussurisk, 100 versts from Vladivostok, they entered the town and attacked the guard defending the railway station. Railway bridges are being destroyed daily.

TWO SLAIN IN STORM.

ST. LOUIS, July 25.—Two persons were killed by lightning, farm buildings were blown down and considerable damage was caused to crops by a storm which swept Southern Illinois Sunday, according to word received here yesterday.

CANTON ADVANCE OF SUN TROOPS IS BEATEN BACK

Forces of Deposed President of Southern China in Full Retreat.

CANTON, July 25 (By the Associated Press).—Troops of Sun Yat Sen, driving southward through Kwangtung province in an effort to recapture Canton for their leader, the deposed president of the southern republic, have been defeated in a number of skirmishes in the last two days in the vicinity of Shiuchow, about 80 miles north of Canton, according to railway advices.

Sun's forces also are reported to have been defeated near Yungyun, southeast of Shiuchow, in a battle entailing considerable casualties on both sides.

The army loyal to Sun is said to be retreating in the direction of Chihing, northeast of Shiuchow.

Reports that Sun Yat Sen soldiers had captured Yingtak, about halfway between Shiuchow and Canton are unfounded. Chen Chiung Ming, the opposing general, continues to send reinforcements northward.

A puzzling situation exists through the fact that Sun Yat Sen, aboard his gunboat in the harbor here, obtains unlimited supplies of food and fuel, although his enemy, General Chen, controls Canton.

RADIO REACHES HONDURAS.

TEGUCIGULPA, Honduras, July 25.—Honduras will have radio communication with the outside world within a few weeks. A powerful wireless station, now nearing completion, will be able to communicate with the United States and Europe. It is being erected by an American company.

DIPLOMACY AT BERLIN BACK ON PRE-WAR BASIS

BERLIN, July 25.—Berlin is rapidly resuming its pre-war position as a diplomatic and consular center and there are today 91 such posts here, representing 58 countries, as compared with the handful of neutral and Central European representatives which remained during the war. The present diplomatic personnel numbers some 2000, to which the United States, Russia and Afghanistan are the most recent contributors.

The legation of Siam is the only pre-war post which has voluntarily not been re-established. Peace was concluded with that country at the signing of the Versailles treaty, but a separate agreement still is pending. However, the Turkish embassy, which remained during the war, was dropped in accordance with the demands of the entente, and that country's interests here are now being handled by the Swiss Confederation.

GREEKS GRANT OIL RIGHTS.

ATHENS, July 25.—The Greek government has granted the Anglo-Persian Oil Company petroleum rights for the whole of Macedonia. If the company's enterprise in that territory is successful the government will draw royalties which are expected to be an important source of revenue.

Prince Will Rest Up After World Tour

LONDON, July 25.—With the exception of a luncheon given in his honor by the City of London Corporation, the Prince of Wales will undertake few, if any, public engagements during the next three months.

Toward the end of September it is probable he will "play himself in" as captain of the Royal and Ancient Golf Club at St. Andrews, and there is every probability that the fixture will be treated as one of the utmost interest and importance throughout golfing circles in Great Britain. The prince's first ball from the tee will be redeemed in traditional fashion and will become a treasured possession of the club.

LUMBER BODY TO MEET

PORTLAND, Ore., July 25.—As president of the National Lumber Manufacturers' Association, John W. Blodgett of Grand Rapids, Mich., will preside at the semi-annual meeting of the executive committee of the association, which will open here next Thursday.

UTAH CELEBRATES BIRTH

SALT LAKE CITY, Utah, July 25.—Utah yesterday celebrated Pioneer Day, the seventy-fifth anniversary of the arrival of the first band of Mormon pioneers.

Ready-to-Serve

Crisp, delicious, oven-baked, filmy shreds of whole wheat, salt-free and unsweetened—

Shredded Wheat

Sun and soil produce nothing so good for man as the whole wheat—but you can't eat raw wheat—it would be only partially digested. Shredded wheat is the whole wheat boiled in steam, drawn into filmy shreds and baked a crisp, golden brown. A Summer joy to the busy housewife.

Two Biscuits with milk or cream make a complete, nourishing meal. Eat it for breakfast with sliced bananas or prunes; for lunch with berries; for dinner with sliced peaches, apricots, stewed raisins, or other fruits. Ready-cooked, ready-to-eat.

THE MELLOW'D COFFEE

In every cup of S&W Coffee you will notice an unusually rich and mellow'd flavor. It's not there by chance. It's there because the green coffee has been specially aged in the tropics. It's easy to make good coffee *now*—simply ask your grocer for S&W.

The Makers of U.S. Royal Cords *Beg to State* —

NOT quite seven years ago the U. S. Royal Cord Tire was announced to the public.

People who saw it remarked on the beauty of the tread design, which is protected by U. S. Letters Patent.

The same design that since then has proved itself the most scientific tread pattern ever put on a pneumatic tire.

To identify this superlative tire under all conditions—whether running or stationary—Royal Cord makers adopted as a trade mark a circumferential *white stripe* placed on each side wall.

Today, Royal Cord beauty and identity is so known and distinguished that even a newsboy can spot one whisking around the corner.

And car-owners everywhere look upon a Royal Cord as the measure of *all* automobile tire values.

* * *

According to some tire dealers and manufacturers the public has been having one of its "price spells" and demands cheap tires.

This is contrary to the facts.

Otherwise Royal Cords wouldn't keep gaining and gaining and gaining in sales to *quality people.*

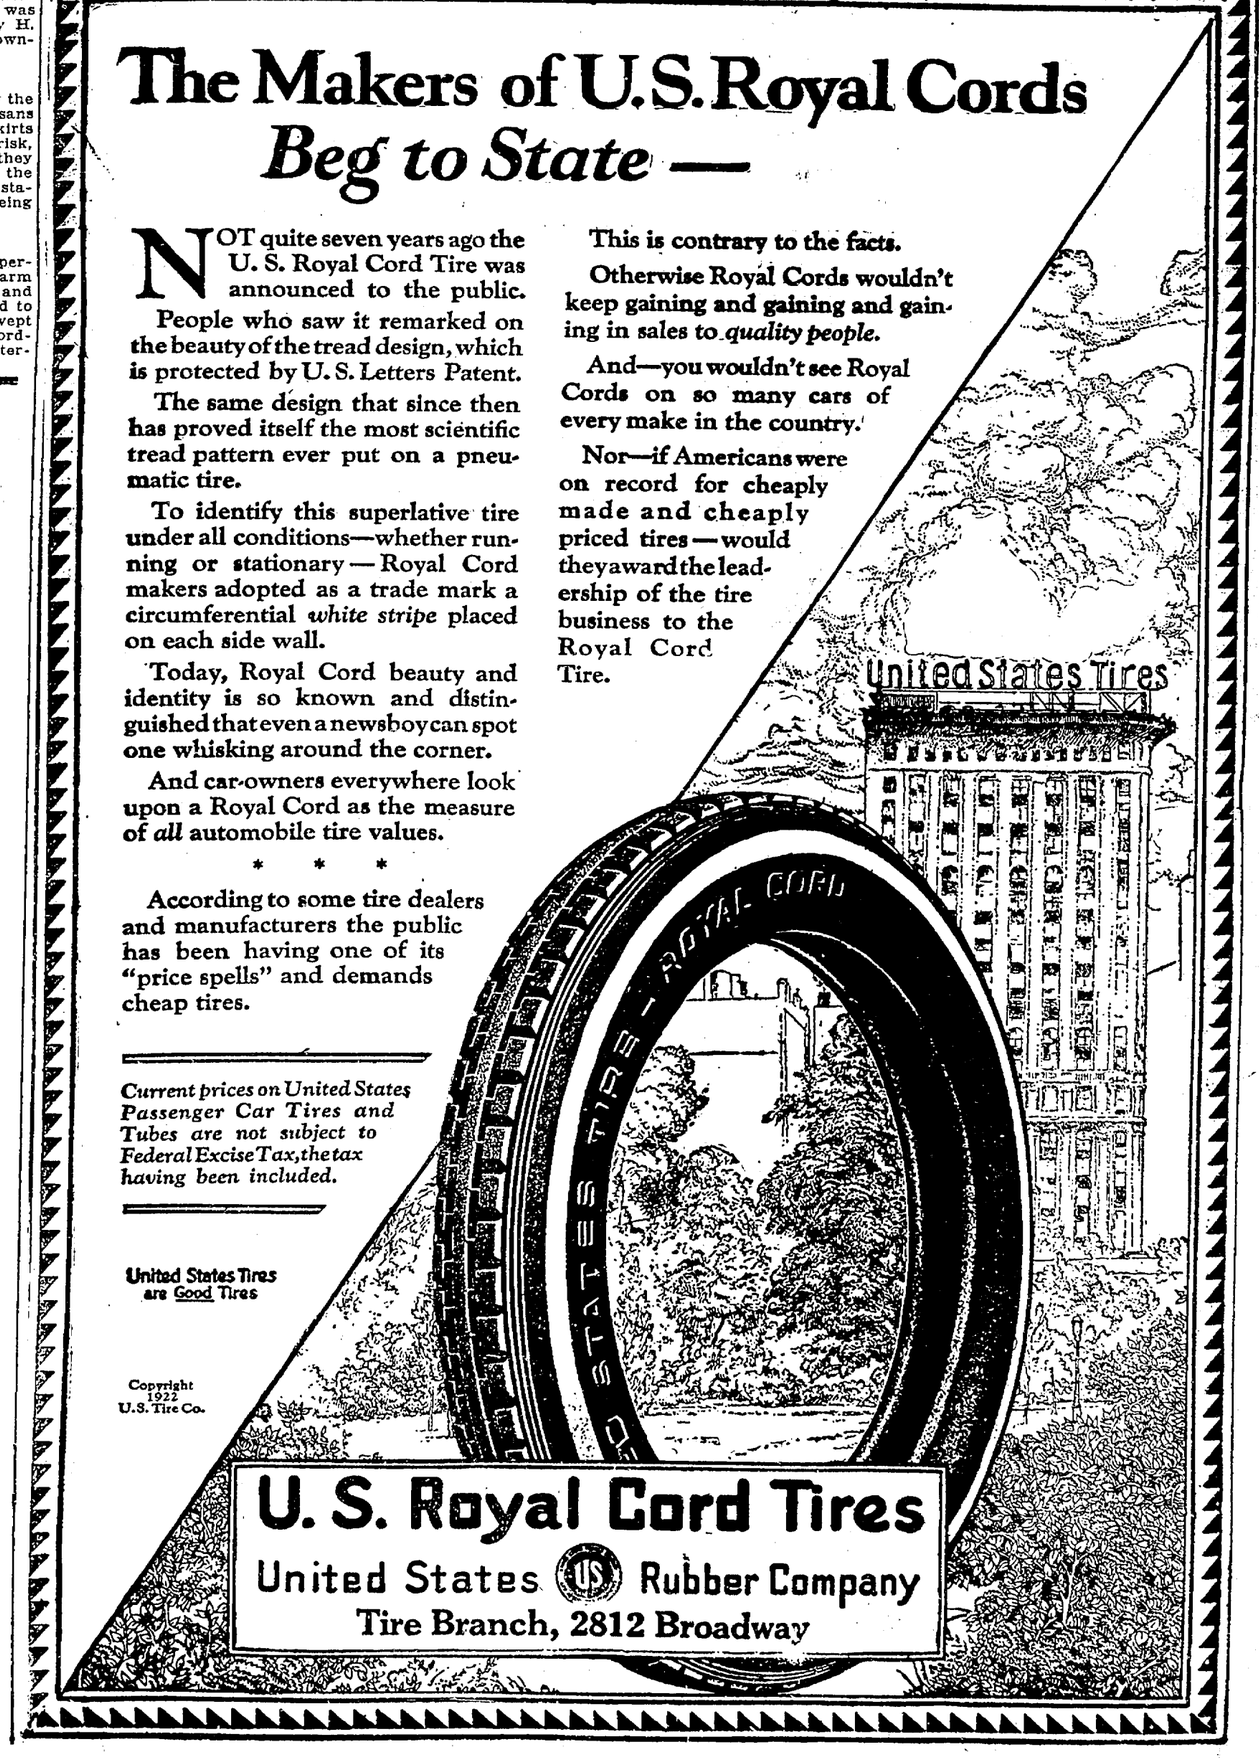

And—you wouldn't see Royal Cords on so many cars of every make in the country.

Nor—if Americans were on record for cheaply made and cheaply priced tires—would they award the leadership of the tire business to the Royal Cord Tire.

Current prices on United States Passenger Car Tires and Tubes are not subject to Federal Excise Tax, the tax having been included.

My Marriage Problems

Adele Garrison's New Phase Of

Revelations of a Wife

(Continued from Yesterday.)

WHY DICKY PRIDED HIMSELF ON HAVING BESTED BESS DEAN.

"That'll be splendid," Mr. Cosgrove gave a relieved sigh. "I'll get the bait dug this afternoon. How many are going?"

"Just as many as wish," Dicky declared generously. "That boat of mine is like one of those old telescopes they used to pack clothing in—there's always room for some one extra."

"Well, let's see," Mr. Cosgrove was radiantly contemplative. His delight in the proposed expedition was patent to every one. "You and Mrs. Graham, Miss Dean, that's three. How about you, Bob?" addressing Robert Savarin.

"Do you think you could stand such a trip?" The artist asked the question of Lillian in lieu of an answer.

She shook her head.

"I am afraid not, Robert, but that need not—"

"Count me out," Robert said decisively, and Pa Cosgrove turned to his wife, his eyes twinkling.

"How about it, Mother?" he asked. "Will you go fishing with us?"

"I think I'll manage to struggle along tonight without going," she rejoined a bit tartly.

"Then that makes six of us," her husband went on seemingly undismayed, "for the twins and me will sure be on the job. Now, remember, you want to put on something old and warm, woolen stockings and sneakers, and take a sweater apiece along, for it gets mighty cool down there on these stones toward morning."

"Are you permitted to fish from the dam at night?" Lillian asked. "I thought—"

Mr. Cosgrove put his finger to his lips and drew down his left eyelid in a prodigious wink.

A TACTICAD ERROR.

"H-sh!" he said. "Don't ask any questions, then you won't know anything if any inquisitive person should ask you anything. But don't any of you worry. I'll take all the responsibility."

"I shall have to go somewhere and buy some sneakers," Bess Dean said, calmly ignoring the fact that I, because she had ruined mine, would have the same errand. "Who's going to volunteer to chauff me to the nearest shoe store, and to tell me where it is?"

"Why, Madge has—" Dicky began with usual masculine blindness, but I happened to be sitting near enough to him to enable me to plant a wifely kick upon his ankle, and with a wince he dropped the dangerous subject. I knew that for him to blurt out as I feared he would that I had a pair of sneakers too large for me in my trunk which she could have, would pitch so much fat into the fire that the ensuing blaze might not be subduable.

"Why can't you run Bess over to Phoenicia, Dicky?" I asked sweetly. "There's a shoe store there. And you can get me a pair while you're about it. I'll give you the size before you go."

"Delighted, I'm sure," Dicky said perfunctorily. But I caught a vindictive glance out of the corner of his eye, and knew that he was anything but pleased with his assignment.

DICKY'S STORY.

I wondered if I had hit upon an infallible recipe for preventing Dicky from philandering with attractive girls. Was it only necessary for me to urge his attention to any woman whom I subtly disliked or feared, in order to have him find her society irksome?

The day drifted lazily by as autumn days in the mountains do, and in the afternoon Dicky dutifully escorted Bess Dean on the shoe-hunting trip to Phoenicia, coming back with a paper-covered parcel in his hand, and a suppressed grin on his face, which contrasted with a vindictive sparkle in Bess Dean's eyes. When we were alone, he tossed me the parcel and explained the grin.

"That damsel is certainly foxy," he said. "When she buys her sneakers she says carelessly to me, says she:

"'Just give me Madge's size and I'll get them with mine. I owe her a pair,'" she says.

"'Couldn't think of it,' says I, of course. She insisted. I protested. And finally she gave in.

"'All right,' she says. 'I'll let you pay for 'em, but there's no need of your staying around here, men hate to lounge around shops. I'll get 'em, and you can smoke comfortably outside.'

"'All right,' I says, but when she comes out with the sneakers all wrapped up, I smells a mouse, and I takes 'em and carelessly unwraps 'em.

"'By your leave,' I says. 'It just struck me that I gave you the wrong size for Madge's sneakers. Yes, by Jove, I thought so. We'll have to change 'em. Hers are two sizes smaller than these.'

"She was boiling inside, but she had to smile sweetly, and let me change 'em. You see the point, don't you?"

"That she herself—" I queried.

"Exactly," he interrupted. "I gave her the right size, but she pretended to the bigger size. But she'll have to get up earlier than even daylight-saving time before she puts anything over on your Uncle Dudley."

(Continued Tomorrow.)

Cry of Geraldine's SHOULDER

Trademark Registered

Listen, World!

THE ground squirrel uses about a billion times more sense in digging his burrow than the average Human does in conducting his married life. It isn't because the ground squirrel has more brains than the Human. Humans have enough brains, but we have been sedulously educated in the belief that marriage is an affair of the emotions rather than of the intellect. In fact we're not apt to think that an insistence of a businesslike platform for marriage is rather cold blooded, almost a profanation of a sacred pact.

Take this business of Quarreling, for instance. With what sugary sentiment we goo over "their first little quarrel!" As a matter of fact, it would be just as sensible to goo over their first little murder. There's nothing beautiful about a quarrel, within or without marriage. It's a corroding obstruction and it ALWAYS leaves a scar. If we thought of marriage intelligently we wouldn't tolerate the quarreling tradition for a second.

Why in the world should married folks allow themselves to quarrel, no matter what the provocation?

In no other job in the world is quarreling regarded as a trivial offense save in marriage. If you insist on quarreling in an insurance office, or a composing room, or a lumber yard, or a factory, you're fired. The provocation does not matter. If you can't control yourself not matter what the provocation, out you go. That's all.

Yet, simply because a silly sentiment has included this in the marital program, we take wedded quarreling as a matter of course. Men do it as commonly as women. A man who is a tower of restraint in his office will fly into a childish temper because the beef steak is cold. Act as fairly and politely and sensibly in the marriage pact as you would if you were running a gasoline station and you'll get somewhere. But let your little heart beats throb all over the place and you'll land in the soup of divorce.

(Copyright, 1922.)

Here's an S. O. S. for the Gang's advice:

Dear Geraldine:

I have been a silent reader of your column for some time. Many of the letters on your page have interested me. And now, Jerry, I am coming to you with my tale of woe. It is my only "real love affair" and I want your "straight to the shoulder" opinion.

I met her when she was 16 and I was 21 and we were just good friends. I liked her then, but I knew that she and I were both young, and I wanted to be fair with her. Later she left the home town to work in the city. And when the time came to part, I wished her success and she allowed me my first kiss as I kissed her good-bye when she left for the city. Then I was called with my company for service on the Mexican border. We did not exchange many letters during my stay on the border, but I still thought of her as my only girl. When we went back to our home town from the border, and war was declared on Germany, I then realized what a parting with her meant, and as it had been some time since last I had seen her, I was not prepared for the change that two years had accomplished. The little girl I used to know had grown up into a beautiful and graceful woman, and, Jerry, I was so surprised I could find nothing to say. I sat and worshipped her in silence.

I knew then how I loved her. I was almost cold, I am afraid, in my attitude towards her, but as the time drew near for my departure I took her in my arms and she sobbed on my shoulder and I held her close, trying to comfort her. I don't know why now, unless it was the war and the tragedy that follows it, but I lost control of my emotions and lost my head. I know I was a brute, and though I offered her marriage and, down on my knees I apologized for what I said in that mad moment, it wounded her pride and shattered her confidence in me, and though I still believe that she cared for me, the next week she married a sergeant in my regiment.

When I saw her and she told me that she was married, I could not say anything; I felt the color leave my face and I only pressed the hand that she held out for my congratulations; then I turned and walked away. Somehow I felt that I had lost all interest in life. The blow of her marriage seemed to dull my senses but I summed up all of my pride and decided that I must forget. I took all of her letters and her picture and gave them to my sister to keep; then I went to parties and theaters when I could get leave from camp. I made it a business to meet girls. I met all sorts, but they held no interest for me. At night in my dreams I dreamed of the only girl that I had ever loved. I found myself comparing her with the other girls I met. She was so different and sincere. I hated myself for my weakness. I knew that it was vain to love another man's wife, for she could never be anything to me. I tried to forget. I fought with all the strength that I possessed against it, only to face defeat. I loved her.

When I sailed for overseas I took her pictures with me. When I prepared to go over the "top" I placed them in the pocket of my uniform and inwardly I hoped that a Fritzy would sight me as a target. I had nothing to go back to; life was nothing worth while to me any longer. When I saw a "buddy" wounded and saw him struggle with an effort to postpone his trip "west," I wondered why I couldn't take his place—he had a sweetheart back home waiting and praying for him, while I had nothing but an empty dream.

Jerry, I came back safe and sound, but I feel the same. I have tried every way I know to forget, but still I live with my dreams. It happened over five years ago, yet her memory is as strong with me as ever; that love is there. I haven't tried to cherish it, I have tried to forget in my wanderings; yet all in vain. Now, Jerry, tell me, am I just a plain fool? Do you think that I will ever forget? I am nearing 27 and that happened years ago. I would be grateful to know the "Gang's" opinion on it.

JUST A WANDERER.

I'll give you my plain advice since you ask it, Friend, but perhaps you won't like it. I believe that you're sincere but I don't think that our general state of mind is healthy. You may not have tried to cherish this particular love episode but it's plain to be seen that your ideals and viewpoints are all smeared over with a nice thick layer of sentimentality. You can free yourself from a love obsession which is draining your life just as easily as you can walk out of a room which is filled with stagnant air—IF YOU WANT TO. As yet, you don't want to. You find it easier and pleasanter to drowse along in the memory of those sensuous moments than to buck up and grab hold of a regular line of logic. It's YOUR life and if you want to poison it with too many lollipops it's nothing to me. But I'd snap out of it, and settle down with some nice ordinary girl and give my dreams the ha-ha if I were you. Wasting your life in selfish, romantic dreaming seems just about as selfish to me as any other form of suicide. And now I bet you're good an' mad, and have decided I have no soul. Well, have it your own way, Buddy. There are only a few of us who can afford the luxury of letting their souls graze all over the public highway, and I'm not one of 'em.

And still "The Man With the Hoe" insists that we can settle all our economic and industrial troubles by "voting every man a job." And still I personally can't see how you can vote men into industrial contentment unless you own the jobs and the men. So there you are. But space is free—so let's go.

Dear Jerry:

My vocabulary and my opportunities will not permit me to answer your comments on my idea of voting a job for every man who wants to work. I appreciate your efforts very much, as they leave the way open for a comeback, and I regret very much the fact that no one else seems to take much interest in this subject. You say: "You can vote men jobs but you can't vote men spines," and I would like to add you can give the privilege of voting to every American citizen but you cannot give them enough intelligence to use it.

I was told when I was a boy that CAN'T never did anything, but I was also told to "Be sure you are right, then go ahead." Therefore if it is necessary to tax the poor man also, come on. The little increase in his taxes will be paid back a hundred per cent with the privilege of working any old time. Besides, if he has any heart and soul to be proud of it will be a great pleasure to know that no one need go hungry and suffer for want of work.

You are right, Jerry, "The trouble is with human nature itself," and "you can't make a man fly by pinning wings on his shirt and there is no use trying," and I would like to add, There is little use in trying to make a woman (and some men) take a voting interest in a working man's troubles when a lovely chicken (no, a female), just ahead of them has a skirt a little shorter than the latest!

Now, Jerry, do not permit the idea that I want everybody brought down to the level of a common laborer. The laborer hardly exists when he works all the time and if there is a God in heaven He surely will hide His face when a laborer only works half the time. I would rather bring the laborer to the level of a mechanic. A laborer's work is not only useful and necessary but it is positively the hardest physically and mentally. Markham was right when he said, "Stolid and stunned—a brother to the ox." Lots of great writers respect a man's sincerity, but where one of them asks (why this mournful reiteration of the brother to the ox slogan) remember, listen. I have tried to interest several good writers, educators and statesmen, with this right to work question. They have not the time. I wrote one of them: "You have not the proponsities." I might not be safe in saying the same of them all, but I fear I would be telling the truth.

Yes, Jerry, the spirit of American labor is much more a brother to this year's model of a twin six than it is to an ox. That is, the portion of labor that has been employed and otherwise untroubled.

But I want to start a little ball rolling to bump the hearts of these big fellows who go joy riding in luxury when 60 per cent of the people are unemployed. Their flirtations with the widow Normalcy would make Judas smile with envy.

Let somebody else say something for

THE MAN WITH A HOE.

I respect your sincerity Friend, but I fear you'll get scant consideration from either individual writers or the general public unless you put your ideas into more concrete form. You bemoan conditions and generalize about "voting jobs" but you don't get down and saw wood. HOW CAN YOU VOTE MEN INTO JOBS UNLESS YOU CONTROL THE SHOPS. FACTORIES AND INSTITUTIONS WHICH PROVIDE JOBS? Granted that everyone were interested WHAT DO YOU REALLY SUGGEST DOING? Nothing less than an absolute monarchy or a completely communistic form of government would have sufficient power to do what you suggest. Do you wish either of these extremes?

Geraldine

Child's History of the HUMAN RACE

by Ramon Coffman

The Song of the Sirens

CHAPTER 108

CIRCE was in earnest. She turned the sailors back to their human shapes, and for days everyone in the palace feasted. Odysseus greatly enjoyed living with Circe, but by and by he was reminded that his dear wife must be waiting anxiously for him to return. He then told Circe he would have to leave.

She was sorry to hear of the decision, but gave advice to help toward a safe voyage.

"Beware of the Sirens," she said. "You will hear them singing on a nearby island coast. Their song is so charming that it drives men to mad actions. They leap from their ships into the sea. They hope to reach the Sirens, but always die before that happens. Put wax in the ears of your men. Let them bind you to the mast of your ship until the Sirens' island has been passed."

The counsel of Circe was followed. When Odysseus heard the Sirens, he forgot about wisdom and tried vainly to loosen the ropes which bound him. He ordered his men to untie him, but the wax in their ears kept them from hearing what he said. He motioned to them, but they would not heed—for he had ordered them not to pay any attention to what he might da while near the Sirens.

As the ship passed on the song of the Sirens died in the distance. Odysseus and his men were saved.

(Copyright, 1922.)

Odysseus can be seen struggling to get free and come to the Sirens in answer to their song.

Beauty Talks

by Lucrezia Bori

HOW YOU MAY REDUCE YOUR HIPS BY A FEW SIMPLE DAILY EXERCISES.

No matter what the fashionable silhouette may be, no woman wishes to become stout. The svelte figure is the admired one and, consequently, the woman who has the least tendency to superfluous fat is eager to learn how to overcome it.

LUCREZIA BORI

It never is advisable to try to attain a slender figure by the use of drugs or dieting, which reduces too swiftly. The better way is to conquer the condition by systematic exercise. This need not necessitate a long period of strenuous work. A few minutes every morning or during the day, should that time fit in better with your plans, is all you need devote to it.

Of course, you should discard all the clothing you possibly can, for you should have the greatest freedom of movement. If you are so situated that you can do these exercises in the open air, so much the better. However, their efficacy will not be lessened if it is necessary to do them in your bedroom.

The little effort demanded now to retain a youthful figure will be more than repaid by the satisfaction you will gain. When doing the following exercise or any other, a one-piece bathing suit is an ideal garment to wear.

The first position to assume is to stand erect with your feet slightly apart. Rest your hands upon your sides with your finger-tips pointing downwards. Next, without moving your hands, raise your right leg sideways and as high as you possibly can. Then alternate with the other leg. Do this without bending your knees, and straighten your instep each time you throw your leg outwards.

Repeat ten times with each leg, and be sure to breathe regularly also, should you be naturally rather short of breath, take a deep breath as you raise your legs, and exhale as you lower them. You will find, however, that with regular practice your breathing will improve, and when this is accomplished you should inhale throughout the entire movement of the one leg, and exhale during the complete movement of your other leg.

This exercise may be elaborated by the addition of some rubbing, which should prove most healthful. However, it is well to achieve a certain amount of efficiency in the swinging of your legs before you do this. When you have accomplished the rythmical breathing at the same time, then you should incorporate the rubbings with these movements.

Now each time you raise your right leg you should slide your right hand downwards over your side, hip and the outside of your thigh and your knee. When you are about to change the direction of the movement of your leg, slip the palm of your hand round under your knee. While your leg is dropped, stroke upwards along side the inside of your thigh. Then bring your hand back to its place on your side, keeping your fingers pointed downwards while your left hand and your left leg now are exercised.

When you find you can do this with ease you should press heavily with your hands against the movements of your legs. Do this when you raise them and when you lower them. This exercise and its elaborations will give a delightfully svelte appearance to your hips, and will impart much grace to your figure.

ATTRACTIVE RECIPES

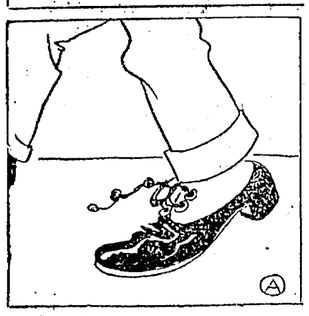

Strawberry Vinegar

Wash and top six pounds of berries and put them in a crock with three quarts of white wine vinegar, let them stand for three days, drain and add the same amount of fresh fruit, let them stand four days and drain again. Put this mixture in a kettle with three-quarters of a pound of sugar to each pint of vinegar, melt, boil gently, skim thoroughly, and cook for a half-hour, then bottle, cork and seal.

Nested Eggs

Break the whites and yolks of six fresh eggs, separately. Beat the whites very stiff, adding a saltspoonful of salt and a teaspoonful of sugar. Lay six delicate toast rounds on a buttered pan and make a nest on each with the white of the egg. Drop the yolks to poach in hot water and drop one yolk into each nest, then brown in the oven like merringue, and serve with strips of boiled bacon.

Husband and Wife

My husband never gets new shoe strings—they're always full of knots.—L. E.

What Does Your Husband Do?

BRAIN TESTS

by Sam Loyd

8 Minutes to Answer This.

A farmer says that one side of his right-angled triangular tract of land measures 47 rails in length, and he wants to know how many rails of equal length it will require to inclose the entire tract. Now, assuming that each of the other two sides is an exact number of complete rails in length, who can answer the man's question?

Answer tomorrow.

Answer to Yesterday's.

The rebuses represented STARCH and THYME.

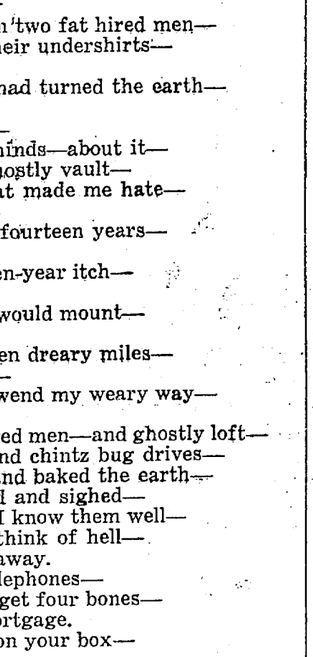

Post-Scripts by Scoggins the Mailman

Good Old Days!

He sat—
On a well-whittled drygoods box—
In the sun—
And chewed his cud—reminiscently—
His Adam's apple—
Keeping perfect time—
With his goateed chin—
And whined about—
Them good old days.
The—them—might well be—those—
I know—
But he said—them—so let it go—
I heard his lengthy spiel—with pain—
I also knew those days of old—
And trust they'll never come again—
Them good old days—I knew them well—
Back on the farm—when wild winds blew—
I took a candle dip and sneaked—
Up creaking stairs—to cheerless loft—
And sought the hay—
There crushed between two fat hired men—
Who never changed their undershirts—
Of flannel red—
'Till rose-leafed June had turned the earth—
To leafy bowers—
And sometimes then—
They changed their minds—about it—
And in that stifling ghostly vault—
I passed the night that made me hate—
Them good old days—
And when I was just fourteen years—
They knew it well—
For I had had the seven-year itch—
Just twice—
And every morning I would mount—
A spavined mule—
And urge him seventeen dreary miles—
To the old log school—
Then after school I'd wend my weary way—
Back home again—
To candle-dip—and hired men—and ghostly loft—
Grasshopper pests—and chintz bug drives—
And hot winds came and baked the earth—
And everybody whined and sighed—
Them good old days—I know them well—
They often made me think of hell—
And vision it not far away.
No motor cars—no telephones—
You'd slave a year to get four bones—
Then pay it on the mortgage.
Sit there and whittle on your box—
Old Boy—old Socks—
And dream your dreams—of olden days—
If dreaming brings you pleasure—
But as for me I'd rather live one year of now—
Than forty of—
Them good old days.

Tribune Clarice Patterns

(No. 1426)

This is a very good style for everyday summer use which can be made in less than a day at a cost of about $2.25 figuring 50c a yard for gingham for the dress and 30c a yard for lawn for the guimpe and 10c a yard for binding.

The pattern No. 1426 cuts in sizes 16 years, 36, 38, 40 and 42 inches bust measure. Size 36 requires 3⅛ yards of 32-inch material with 2¾ yards of binding for the dress, and 1⅜ yards of 36-inch material for guimpe. Price 15c, stamps or coin.

How to Obtain Clarice Patterns

Write your name and address plainly, including city, giving the number and size of such patterns as you want. Inclose 15 cents in stamps or coin (wrap coin carefully) for each number and address your order to Clarice Pattern Bureau, Oakland TRIBUNE, Oakland, Calif. As these are ordered specially from Chicago, a few days should be allowed for delivery.

CUT OUT ALONG THESE LINES

The Army of a Million Crooks

by Geo C. Henderson

A study in scientific criminology. Facts gleaned from the records of the Berkeley School for Police and of its founder, August Vollmer, past president of the International Association of Chiefs of Police, and leading authority on criminology.

CHATTER 37.

The Bunco Artist.

Best known of all the bunco games are the "badger game," and the "shell game."

The badger game is in reality a blackmailing proposition. The crooks in this case pick on some well-known man who has money. Frequently they approach a business man who is visiting in the city.

A very pretty woman will strike up a flirtation with this business man either in a hotel lobby or on a train or on board a boat. If the man is amenable to reason it is not difficult to induce him to go to her room. If not, she pleads great distress and induces him to visit her to help her straighten out matters of grave importance. She tells him to wait and she goes into an inner room to find the papers.

When the woman comes out she is generally dressed in scanty attire or sometimes is wearing a night gown. She rushes at the man, tears open his coat, vest and shirt, dishevels his hair and then screams. This is the signal for her confederates to rush in. One of these confederates is generally the outraged husband. The other poses as an officer.

The business man is forced to "pay up" then and there under threat of exposure.

I know of one case where a man alone worked a variation of the badger game on women. The crook in this instance was a well-known character, half-Japanese and half-German, who traveled in Bohemian circles. His scheme was to rent an apartment in a fashionable place and then watch the tenants.

He waited until the husband went out, leaving his wife alone. Then he went to the door and knocked, and on the appearance of the woman stated that he was a neighbor next door and wanted a match or something of the kind. If the woman turned to look at the time or get a match, this bunco man walked inside and threw off the dressing gown, revealing that he was clad only in paamas. Then he locked the door.

When the woman confronted him she screamed, but the bunco man sat and calmly stared at her.

"Think of the scandal that would be raised if they found a man undressed in your room and you only in negligee," he said to her. "Now, I won't go till you give me $50." Sometimes he demanded as much as $200 or $300 and got it. The terrified woman, fearing scandal, afraid that her husband might come home, would give him anything to get him to go.

Shell game artists generally operate at circuses, county fairs and big gatherings. Three half shells of walnuts are placed on a table. A tiny rubber ball is concealed under one of these shells, and they are then moved about. The bunco man bets the sucker that he can't pick out the shell under which lies the "pea." Now, the sucker has been watching that shell all the time and he triumphantly points to it.

As a matter of fact the rubber ball is not under any of the shells. When the bunco man juggles the shells about, he catches the "pea" between two fingers and when the greenhorn bets, he hasn't a chance to win. Then when the victim has picked up the wrong shell the crook will quickly grab one of the others and exhibit the "pea" in his hand to prove that the little ball was there all the time.

Bunco men do not confine their activities to small deals. One crook went all over the United States working a bunco game by which he secured thousands of dollars' worth of Liberty bonds.

First he went to the office of a prominent attorney under some pretext, either to consult the lawyer or to wait for some member of the firm whom he knew had just left. While there he called up a big stock selling house and said:

"This is the firm of Burke, Burke & McGowan. We have a client who wishes to buy $10,000 worth of Liberty bonds. Will you accommodate him? He'll be right down."

The bunco waited to give the stock company time to call to verify the telephone message. If they called he would answer and assure the concern that Burke, Burke & McGowan had already sent the man referred to down to them.

The bunco man then went to the stock concern, tendered a check for $10,000 and got Liberty bonds in return. By the time the concern found that the check was worthless, Mr. Bunk was miles away.

Tomorrow, "ROBBERS."

Mother (to vicar)—Oh, please, sir, I was a-goin to ask you, could anything be done to change pore little Lloyd Georgie's name 'ere? The pore little kid's 'ad to suffer summat cruel. 'E can't do nothin' right since 'is father's changed 'is views about the prime minister.

OAKLAND SAFE RAID SUSPECTS TAKEN IN RENO

Two Men Suspected of the Attempted Robberies Here Captured in Nevada.

The Oakland police are trying to connect Charles Miller, alias "The Big Swede," and Leo Shaw, alias Arthur Shaw, with the men who attempted to blow two safes in this city during the first week in July.

The men were arrested in Reno, Nev., according to word received today by Chief of Police James T Drew from Chief of Police Kirkley of Reno. The men were surprised while in the act of blowing the safe of the Ginsberg Jewelry Company in Reno.

According to Drew they are suspected as the men who drilled the safe in Lesser Brothers' Market July 9. The second safe they attempted to open was in the Oakland poolroom. The safe there was in a small closet. When they opened the door of the closet a burglar alarm went off and they were frightened away.

The police in Reno say they had a most complete set of safe-cracking tools.

Drew says that both men admit that they were in California, but refuse to discuss their movements.

Chief Kirkley says that the two men have blown safes in Fresno, Los Angeles, Bakersfield and Reno. Shaw has been identified by Sheriff Hillhouse of Reno as Robert Morton, who is wanted in Casbar, Wyo., for jail-breaking.

FURTHER CUTS IN OIL IS EXPECTED

SAN FRANCISCO, July 25.—(United Press.)—Automobile owners today were expressing hopes of receiving the benefit of "overproduction" in California oil fields which led to a 25-cent reduction in the price paid by the Standard Oil Company for crude oil at the wells of the producers.

The company announced the reduction as effective this morning, covering the San Joaquin valley; the Whittier and Fullerton oil fields.

In making the announcement the company said its storage facilities were taxed to their full capacity and that there was no "relief" in sight from the "over-production in Southern California."

Other sources said that the oil reserve of the state now was the largest since before the war.

Rumors of impending reductions in the cost of gasoline were going around, but received no attention from oil companies.

Other companies were expected to follow the lead of the Standard in cutting prices paid to owners of producing wells.

Klan Man Leads in Texas Primaries

BY UNITED PRESS.
LEASED WIRE TO TRIBUNE.

DALLAS, Tex., July 25.—Earl B. Mayfield, carrying the support of the Ku Klux Klan, and James E. Ferguson, impeached former governor, opposed to the Klan and to federal reserve system and an advocate of light wines and beer, probably will meet in the second heat of the Texas democratic primaries for the honor of succeeding United States Senator Charles A. Culberson.

With 455,000 votes counted early today, coming from 238 out of 251 counties in the state, Ferguson was leading Culberson for second place in Saturday's primary by 16,289 votes, and the two are expected to finish close.

Mayfield is assured of first place.

Governor Neff has been renominated and will stand for re-election without the necessity of a run-off.

Witness Tells of Offer to End Strike

BY UNITED PRESS.
LEASED WIRE TO TRIBUNE.

CHICAGO, July 25.—An offer to settle the strike of the Chicago Building Trades workers for $75,000 to $100,000 was made by union heads, Henry H. (Smash) Hanson testified today.

Hanson is the chief witness for the state in the trial of "Tim" Murphy, Fred Mader, "Con" Shea and others in connection with gang terrorism in the labor war. Hanson said he acted as the "go between" in the negotiations.

Crew Abandons Sinking Steamer

BY UNITED PRESS.
LEASED WIRE TO TRIBUNE.

PORT ARTHUR, Texas, July 25.—Fears for the safety of the steamer Charles A. Braley, 75 miles northwest of Tampico, were felt today when wireless communications with the Port Arthur naval station ceased.

The last message received here said the crew was taking to the open sea in lifeboats.

Efforts to communicate with the doomed steamer have been fruitless.

GIRL MISSING

Kikue Ukai, 2203 Eighty-first avenue, 18-year-old Japanese girl, is missing, according to a report filed with the Oakland police. She left home on July 19. It is believed she is suffering from despondency over failure to obtain certain grades in her school work, according to her parents to whom she addressed a note. She is ambitious to become an author, her parents say.

Don't forget that safety first for yourself and others saves life and limb, and often your temper.

ALONG THE WATERFRONT

The United States Navy supply steamer Arctic arrived at San Diego yesterday from New York, bringing three million pounds of frozen meats and several hundred tons of canned fruits and vegetables to be divided among the warships on this coast. This is the Arctic's first visit to the Pacific Coast since she was taken over by the war department.

The steamer Dewey, which loaded a large cargo at this port and sailed for Los Angeles a week ago to complete her cargo for the far east, is making good time, according to her wireless reports. She left Los Angeles on Friday last and is going direct to Yokohama. She will not stop at Honolulu until her voyage home, which will be in September. Jack Ellis, chief steward of the Dewey, who was married a week before sailing, but was compelled to leave the wife behind, is rather lonesome on board his large craft.

On Wednesday or Thursday of this week the first concrete for the foundations of the Matson Navigation Company's new 15-story building at Market and Main street, San Francisco, will be poured, according to the engineers in charge of the big building job. The concrete foundations will be laid on top of the 1284 piles which have been driven to give them a secure base. Each pile averaged 89 feet long, making a total of more than 19½ miles of piling used in this part of the foundation structure.

Steamers have been named after almost everything in the world but for newspapers, and now they are to have their turn. The first one on the list is known as the Chicago Tribune and will be followed by the New York Times. They are being constructed at Chicago by the North Island Shipbuilding Company for Robert McCormick and will be used on the Great Lakes in the pulp and wood trade. These vessels are 250 feet long, 43 feet beam and 19 feet depth of hold.

The new automobile ferry steamer San Mateo, recently completed for the Six Minute Ferry Company, was taken out for a spin yesterday by the Southern Pacific crews. Captain Charles Crowdace was appointed master. She was tied at the new auto slip of the Southern Pacific Company at West Oakland terminal to see how she fitted and to drill the crews, who are not accustomed to that sort of a craft.

The latest charters reported here today are: Norwegian steamer Camilla Gilbert, 3532 tons register, to take a cargo of lumber from British Columbia to New York for the South Alberta Lumber Company, September loading. Norwegian motor ship Handicap, 3027 tons register, to load barley at this port in August, for the United Kingdom; British steamer Berenger, 3027 tons register, from Straus and Company. The freight rates were not given on any of the three vessels.

The British steamer Valdura, which went aground two weeks ago at Barbers Point, near Hilo, has been pulled into deep water after her cargo of 6000 tons had been unloaded upon barges. She was taken to the drydock at Honolulu for a survey and repairs.

Change of masters registered at the U. S. Customs House:

Captain Clarence Fulton, tanker Kern.

Captain Charles Crowdace, ferry steamer San Mateo.

Captain H. McNuty, river steamer Valletta.

Captain Jacob Olsen, steam tug Traveler.

Captain George A. Metter, gas tug Flyer.

Captain J. Swanson, tanker William H. Herrin.

Leith—Arrived July 23, Fr stmr Saint Louis from San Francisco.

SUN, MOON, TIDE

The time and heights of tide in the following U. S. Coast and Geodetic Survey table are given at Fort Point, at the entrance to San Francisco bay. For Webster street bridge, Oakland, add approximately 10 minutes.

Tuesday, July 25.

Sun rose .....5:06|Sun sets.....7:26

Moon's first quarter.....July 30, 8:12 a.m.

July 25 to July 31.

Time and Height of High and Low Water.

Date.	Time Ft	Time Ft	Time Ft	Time Ft.	Time Ft	Time Ft
	Low.		High.		Low.	High.
25	5:58	-0.6	12:55	5.3	5:40	2.6 11:54 6.4
26	6:40	-0.4	1:38	5.5	6:45	2.4 ....
27	0:48	6.0	7:23	0.0	2:21	5.7 7:46 2.2
	High.		Low.		High.	Low.
27	0:48	6.0	7:23	0.0	2:21	5.7 7:46 2.2
28	1:47	5.5	8:08	0.3	3:05	5.8 8:51 2.0
30	4:16	4.8	9:44	1.7	4:45	6.0 11:16 1.5
31	5:43	4.2	10:37	2.2	5:38	6.1 ....

Note—In the above tabulation of tides the daily tides are given in the order of their occurrence, commencing with the early morning tide in the left-hand column and the succeeding tides as they occur. On some days but three tides occur, the fourth occurring the following morning.

The columns of heights gives the elevation of each tide above the place of Coast Surveys Chart Soundings. The numbers are always additive to the chart depths, unless preceded by the minus sign or dash (—).

CHICAGO BROKER NAMED AS 'ANGEL' IN DANCER CASE

Advanced Money for Hospital Bills in "Sonny" Whitney Romance.

NEW YORK, July 25.—Another interesting angle to the sensational Fontaine-Whitney legal fight developed today when Mrs. Faun Evan Fontaine, mother of Evan Burrows Fontaine, revealed that one day Jay J. Meagher, said to be a prominent Chicago stock broker, had advanced money to defray the girl's hospital expenses at the time little Cornelius Vanderbilt Whitney Jr., was born. Mrs. Fontaine said she gave her own personal notes for $4500 to the broker to cover the loan.

It was only the opposition of his mother that kept Cornelius Vanderbilt ("Sonny") Whitney from marrying Miss Fontaine long before the birth of the dancer's son, Cornelius Jr., according to Mrs. Faun Fontaine, mother of the disappointed girl.

In an interview with an International News Service correspondent at her home in Kew Gardens, L. I., today, Mrs. Fontaine asserted that not only had young Whitney proposed immediate marriage to her daughter on more than one occasion, but that his father had indicated his willingness to the match. Mrs. Whitney, however, refused to listen to the proposals.

300 Tons of Soot Per Mile a Year Falls in London

LONDON, July 25 (By the Associated Press).—Lord Newton, speaking in the House of Lords yesterday, declared England and Scotland were the dirtiest countries in Eprope. He uoted statistics to show that 300 tons of soot fall every year on each square mile of London, which was enough to build a pyramid four times as high as the famous clock tower over the houses of parliament.

Conditions in some provincial cities, he declared, were much worse. He said it was estimated that the smoke in Manchester caused an extra expenditure of £50,000 annually for washing men's collars.

Campaign on For Ferry Fare Cut

BERKELEY, July 25.—Agitation to petition the State Railroad Commission to reduce fares between Berkeley and San Francisco was launched this morning when Mrs. W. T. Cleverdon and members of the Berkeley Housewives' League appeared before the city council. As spokesman, Mrs. Cleverdon declared that commutation rates were at present sixty per cent higher than before the war, and single fares eighty per cent higher. In referring to the water situation, she declared that companies were refusing to write insurance for homes in the hillside districts because of improper fire protection.

Councilman George Schmidt suggested to the delegation that the members might well consider a campaign for reduction of the six-cent carfare, including Berkeley in the list of the few cities in California where this rate is in operation. He also declared that if Mrs. Cleverdon's statements regarding the insurance companies were authentic, the city should take over the writing of the insurance.

The matter of petitioning the railroad commission for a decrease in fares between Berkeley and San Francisco was referred to the city attorney.

KANSAS GOVERNOR DEFENDS ARREST OF W. A. WHITE

Old Friends Appear on Same Platform as Henry J. Allen Pleads Course.

EMPORIA, Kan., July 25.—(By International News Service.)—Governor Henry J. Allen invaded this "old home town" of William Allen White, sage of the wheat belt, today and upheld his course in causing the arrest of his long-time friend.

It was another dramatic climax to the controversy which began when White displayed a railroad strikers' placard in the window of his Emporia Gazette in defiance to Governor Allen's industrial court law, and kept it there until he was placed under arrest.

Governor Allen spoke before the teachers' college of Emporia and cited a decision of the United States supreme court in upholding the stand of the state against White for alleged violation of the anti-picketing law.

Whit occupied the same platform as the governor and introduced him. It had been announced that the author and editor would not be present for fear of "embarrassing Henry," as he put it, but Governor Allen on arriving sought out his former war-time "buddie" and as a result both attended the meeting — "friendly enemies" in a rumpus which has made all Kansas forget the coal shortage and the railroad strik..

Pointing out the supreme court decision to uphold his stand, the governor quoted from the decision in a case brought against a Socialist organ at Milwaukee: "Freedom of the press may protect criticism and agitation for the modification or repeal of laws, but it odes not extend to the protection of him who counsels and encourages the violation of the law as it exists. The constitution was adopted to preserve our government, not to serve as a protection screen for those who, while claiming the privilege, seek to destroy it."

In discussing the subject of faithful citizenship, the governor told of the obligation of both the citizens and the official, explaining the right of a man to work without intimidation or molestation was just as sacred as hte right to free speech.

CROWD APPLAUD FOR WILSON, NOT VARCOE

ALAMEDA, July 25.—Pride received a wallop in the leading theater of Washington recently, William Varcoe, who represented Alameda Lodge 1015 of Elks at the grand lodge conclave recently in Atlantic City, tells the story on himself. Varcoe, who is city clerk of Alameda, took a side trip to Washington at the close of the convention. With a couple of friends they were sitting near the front of the house. When the show was over Varcoe noticed the crowd gazing in his direction.

"Well, they have discovered that I am here, I remarked to the others," says Varcoe. "Then the crowd commenced to clap and I was about to bow when I glanced two rows back and saw all the attention was for Woodrow Wilson, who had also attended the show with his family. Pride sure goeth before a fall."

According to Varcoe the former President looks exceedingly well except that his hair has turned snow white. He is also as carefully guarded as is President Harding, a corps of secret service operatives surrounding the car when he left the theater.

The state of Georgia spent nearly $25,000,000 on good road construction last yeaer, leading all states in the southeast. Almost $10,000,000 represented federal aid.

ASK THE TRIBUNE Bureau of Information

"Please print a good recipe for blackberry jelly," requests a TRIBUNE reader.

Mash a few in the bottom of a preserving kettle, using a wooden potato masher. Continue to add more berries and mash. Cook slowly until soft. Strain through a double thickness of cheesecloth or a jelly bag.

Measure, bring to the boiling point and boil five minutes. Add an equal amount of sugar (heated by placing in a warm oven previously. Boil three minutes, skim and pour into jelly glasses. Place in a sunny window and let stand for 24 hours. Cover and keep in a dry cool place.

A query has come in concerning Halley's Comet.

It was visible the last time in April, 1910. It has a record dating back to B. C. 240. Its appearance spread great alarm throughout Europe during the middle ages. It was the first comet whose return was predicted by an Astronomer Royal of England and will for this reason always be an object of great scientific interest.

The TRIBUNE Information Bureau will answer all questions of a general nature except school or legal problems, debates, trade and firm names, and queries as to the time of day.

The bureau is open every day except Sunday from 8 a. m. to 9 p. m.

If answers are desired by mail stamps must be enclosed. Quickest results can be obtained by telephoning to the bureau.

WOMAN HIT DRY OFFICER, CHARGED

SAN FRANCISCO, July 25.—Prohibition agents who raided the ranch of Joseph Rinella, just east of San Jose, were attacked when they attempted to destroy a quantity of illicit brandy, according to a report made today to Chief Agent Samuel Rutter.

The officers descended suddenly on the ranch, expecting to find a still. None was discovered. There was a quantity of brandy and when the officials began destroying it, they say, Mrs. Rinella struck one of them. Rinella and his wife were charged with violating the Volstead act.

Drivers of motor vehicles carrying more than 28,000 pounds in New York state are arrested and fined $50. They are also liable to 30 days' imprisonment.

THREE HELD IN BIELASKI AFFAIR AS CONFEDERATES

Modiste, Lawyer Arrested in Connection With Mexican Kidnaping.

MEXICO CITY, July 25 (By the Associated Press).—With the arrest yesterday afternoon of Madame Milo and Jesus Barcenas, three of the six members of the new famous automobile party of A. Bruce Bielaski, who was kidnaped a month ago near Cuernavaca, now are in jail. Montes Deoca, the party's chauffeur, has been under arrest at Cuernavaca for more than three weeks, together with Colonel Enrique Goldbaum Padilla, who was charged with having overstepped his authority as federal army officer in directing activities looking toward the release of Bielaski, formerly of the American department of justice.

Bielaski, Mrs. Bielaski and Senora Barcenas were still at liberty up to a late hour last night.

Why Barcenas and Madame Milo should have been selected by the authorities for detention instead of the principal of the kidnaping affair has caused much speculation here. Barcenas, a native Mexican, is an attorney of Mexicala, and Madame Milo, a French modiste, was an acquaintance of Francisco Montes de Oca, woh suggested the Cuernavaca outing.

Masons to Conduct Blanchard's Funeral

Funeral services for Cyrus Edgar Blanchard, local insurance man and prominent for many years in Masonic circles, will be held at 2 o'clock tomorrow afternoon from Scottish Rite Cathedral, Fifteenth and Madison streets.

Blanchard, who lived at 16 Fairview avenue, Piedmont, was born in Oakland 47 years ago. He was a charter member of Aahmes Temple, and also blonged to the local Scottish Rite organization, Alcatraz Lodge No. 244, F. & A. M., and Unity Chapter, No. 65, O. E. S. His funeral will be held under the auspices of Alcatraz Lodge.

Blanchard's widow, Mrs. Emma Blanchard, is a past grand associate matron of the Order of the Eastern Star. Other surviving relatives are a brother, R. C. Blanchard, and a sister, Mrs. Grace Elsey.

Blanchard died yesterday after a short illness.

The spire of Salisbury Cathedral, (400 feet), is the highest in England.

REGAINS HIS HEALTH AT 80

Oakland, Calif.
After having suffered from stomach trouble for many years my pain was well-nigh unbearable. I consulted several physicians in Oregon, but grew gradually worse. I could scarcely drink or sleep and there was a continuous sounding in my head. I also suffered from Catarrh. Getting no relief, I was brought to my brother's home in Oakland and again put under the care of physicians, but without result. Finally my brother took me to the Fong Wan Specialist, and after having drunk the tea for several weeks, I was able to eat and sleep and my catarrh and pain had given way. I am 80 years old and am happy to give this testimonial.

FOR SERVICE AS RAILROAD

Machinists Blacksmiths
Sheetmetal Workers
Copper Smiths
Car Inspectors
Car Builders (Carpenters)
Helpers—all classes
Boilermakers
Electricians Pipe Fitters
Tinners Car Repairers

Under strike conditions best explained by Chairman Ben W. Hooper, of the United States Railroad Labor Board, in his statement of July 1, reading as follows:

"In this case, the conflict is not between the employer and the oppressed employees. The people of this country, through an act of Congress, signed by President Wilson, established a tribunal to decide such disputes over wages and working conditions, which are submitted to it in a proper manner. It is the decision by this tribunal against which the shop crafts are striking.

"Regardless of any question of the right of the men to strike, the men who take the strikers' places are merely accepting the wages and working conditions prescribed by a Government Tribunal and are performing a public service. They are not accepting the wages and working conditions which an employer is trying to impose. For this reason, public sentiment and full Government power will protect the men who remain in their positions and new men who may come in."

Adequate provisions have been made for the full protection of new employees, the same as old employees who remained loyally at work. Applicants should apply at SOUTHERN PACIFIC EMPLOYMENT BUREAU, Room 7, 65 Market st., San Francisco (open 8 a. m. to 8:30 p. m. daily, including Sundays), or any of the following officers: Superintendent (3d st. station), San Francisco; Oakland Pier, Sacramento; Stockton, Dunsmuir, Bakersfield, Los Angeles; Assistant Superintendents, Sparks, Nev., and Roseburg, Ore.; Superintendent Motive Power, Sacramento and Los Angeles.

SILVER PICK STILL BOASTS OF PREMIER OUTPUT

Many Lessees Busy on Consolidated and Florence Holdings in Goldfield.

GOLDFIELD, Nev., July 25.—Twenty-one lessees are working on the Goldfield Consolidated Estate and eight on the Florence. The Silver Pick continues to be the premier producer, although June tonnage is reported at but 325 tons as against 600 tons in May.

BATTLE MOUNTAIN, Nev., July 25.—The Betty O'Neal mill is to be completed by September 1st, according to the manager, Noble H. Getchell. The process to be employed is oil flotation and a high grade concentrate will be made. Tests show that mill ore will average about $25 per ton in gold, silver, lead and copper, and the concentrates will have a value of above $500 per ton.

ROCHESTER, Nev., July 25.—The Packard mill is now treating 160 tons daily. The Packard has the distinction of handling profitably the lowest grade ore of any Nevada silver mine. Large veins, which can be mined through tunnels, render it possible to extract ore at minimum cost.

The Rochester Silver corporation produced $46,650 during June, with a net profit of $9532.93. Lower mill heads are responsible for the decrease.

TONOPAH, Nev., July 25.—The 1921 report of the West End Consolidated recently issued shows profits of $653,182. This is $80,000 more than 1920 and $290,000 more than 1919. Larger tonnage is responsible.

For the first six months of 1922 the Tonopah Divide Mining company reports a gross production of $266,160 and net $130,000.

UNIONVILLE, Nev., Juy 25.—George Schriver has discovered a promising vein of ore showing high values in gold, silver and lead. A sample recently assayed returned a total value of $200 per ton. The new find is about two miles from the Inskip mine of the Universal Silvers company.

The new 150 H. P. engine recently purchased by the Universal Silvers Company has been delivered at Mill City the shipping point for this district. It will be transported to the mine this week.

It is reported here that a cyanide mill will be erected on the Golden Era mine in Natchez canyon about fifteen miles easterly from Unionville. The mine was recently purchased by Sacramento capitalists and development has been going forward steadily for some months. A milling plant located in California is now being dismantled and will be moved to the Golden Era property.

The treatment plant which will handle the tailings made from the Arizona mine during early operations is now nearing completion. Benjamin S. Hall of Nevada City, California, who is backing the project, is personally looking after the work.

LOVELOCK, Nev., July 25.—Lessees on the Lovelock Willard property, nine miles northeast of Lovelock, are installing a stamp mill. Several outfits are now leasing in the Willard district and claim substantial tonnages of milling ore ready for treatment. The predominating value is gold.

The Majuba Fresno Mines company is developing its property near Imlay and reports large tonnages of milling ore in sight. It is controlled by Fresno people.

WEATHER FORECAST

Oakland and vicinity, Northern California, Sacramento, Santa Clara and San Joaquin vlleys: Tonight and Wednesday fair and warmer; moderate northwesterly winds.

Southern California: Tonight and Wednesday fair; light northwesterly winds.

Nevada, Idaho, Washington and Oregon: Tonight and Wednesday fair; moderate westerly winds.

CONDITIONS.

An area of high pressure off the northern coast is moving slowly inland, causing fair weather over the Pacific slope, except cloudy or foggy along the coast, and thunder storms in the northern Plateau region. Scattered light rain has fallen in the Plains states, Tennessee, Florida and western New York. In other portions of the country the weather is fair. There have been no important changes in temperature. Conditions are favorable for fair weather in this district tonight and Wednesday, with warmer weather in Northern California.

SLOW EXPANSION OF BUSINESS IS SEEN FOR FALL

Commodity Prices Rising, But Industrial Disputes Disturbs Outlook.

"Conditions at the close of the first half of 1922 indicate that business will expand moderately during the autumn and winter months. It is now one year since the definite beginning of recovery from the depression of 1920-21. Progress was slow until the close of 1921 but since the beginning of 1922 improvement has been rapid. Money is cheap. The crop outlook is excellent. With few exceptions, stocks of raw materials and of manufactured products are not larger than necessary to bridge the normal period between production and consumption. Commodity prices are rising. The movement at present seems to be primarily one of adjustment between the different classes of commodities, and as long as the upward tendency does not assume a speculative character, it is a favorable factor. Except for strikes, there is little idleness. Production has expanded steadily since the beginning of the year, and as yet the usual mid-summer dullness has been little felt," says the National Bank of Commerce of New York.

QUALIFYING FACTORS.

"Any fair appraisement of the situation must, however, take cognizance of several groups of qualifying factors. First and most important of these is the position of domestic consumers. Many are cautious and disposed to economize. Buying is not likely to be stimulated by reports of impending shortage of goods, or fear of higher prices, for except in the case of necessaries the public is willing to wait, or to do without, if prices show a tendency to soar. Furthermore, large sections of the population cannot buy, no matter how willing, if prices rise too rapidly. Although they have recovered somewhat, wages and salaries are lower than two years ago. Enforced unemployment left many workers in debt, or with depleted savings, not yet made good. Strikes have kept hundreds of thousands in idleness for months and threaten to result in idleness for other thousands if not speedily brought to an end. Farmers are usually conservative buyers and although prices of farm products have improved, prices of what farmers must buy are still too high in relation to what they have to sell to place them in a position to expand their purchases rapidly.

"Furthermore, they are paying their debts. There is every ground to expect a reasonable volume of fall business at moderate prices, but there is no basis for expectation of such volume at high prices or of boom business at any price.

LABOR SITUATION.

"The second retarding factor is the labor situation. The United States is in the midst of widespread labor troubles. It is useless to declaim against the sprit that has brought this situation to pass. Each side in both the railroad and coal strikes believes it is justified. Workmen do not lightly sacrifice their earning power, or corporations carelessly take the risk of damage to their property or thoughtlessly forego the hope of profits for a long period. That section of the public which is not directly concerned is an equal sufferer for these conflicts are certain to be felt in lessened productivity and restricted distribution in every line. The only settlements which can be ultimately in the public intrests are fair settlements, and the public has the right to take all measures which may serve promptly to bring them about. Delay in reaching settlements will temporarily delay expension, but it will not affect the fundamental causes which for more than a year have been making for better bnsiness.

EUROPEAN SITUATION.

"The third factor which seems likely to limit business expansion in the United States is the European situation. Outwardly it remains complicated. Enormous issues of paper have further depreciated the German mark. There have been assassinations and other evidences of political unrest and Germany has formally applied to the Reparation Commission for a moratorium on reparations payments. Difficulties arising from depreciated currencies and disorganized public finances are bound to be a retarding influence, and may have a certain adverse effect on exports of grains and other food products, cotton and other raw materials from the United States.

Farm Products Show Big Drop in Value

WASHINGTON, July 25.—The purchasing power, or exchange value of farm products slumped four points between March and June to 72 per cent of the 1913 basis in the latter month, according to statistics made public by the Department of Agriculture. The buying power of the farm products in terms of other products stood at 76 per cent in March, having advanced from 65 per cent in January, which was a rise of three points over the low mark touched in November, 1921.

WIRE SUMMARY

By E. F. HUTTON & CO. WIRES

United States Steel Corporation for the quarter ended June 30, reports net earnings of $27,286,000 after federal taxes against $19,339,000 the previous quarter and $21,892,000 in second quarter of 1921.

New York Central reports net operating income for June at $6,008,000, an increase of $5,517,000.

Anglo Persian Company has been granted oil rights for whole of Macedonia.

Alan Ryan's liabilities have been reduced from $32,000,000 to $18,000,000.

EASTERN MARKETS

CHICAGO, July 25.—Cattle—Receipts 8000; slow; early sales beef steers steady to strong; spots shade higher; few choice beef steers $10.25@10.40; good to strictly choice and prime offerings scarce; bulk beef steers, $8.60@10.00; calves strong, 25c higher; early; other classes generally steady; butcher cows and heifers mostly $5.00@7.25; canners and cutters largely $3.06@3.75; bologna bulls mostly $4.60@4.75; bulk vealers early $9.25@9.50.

Hogs—Receipts 23,000; market opened steady to 15c higher on butcher grades, later all early advance lost; closing steady to 10c lower than Monday's average; top $11.00; bulk $8.35@10.85; mixed and packing grades slow, weak to 15c lower; bulk good butchers $10.15@10.85; packing sows mostly 8.00@8.75; pigs steady; mostly $9.75@10.35; heavyweight $10.15@10.45; medium $10.40@10.85; light $10.80@10.90; light lights $10.40@10.90; packing sows, smooth, $8.25@9.00; packing sows, rough, $7.75@8.30; killing pigs, $9.75@10.50.

CHICAGO, July 25.—Wheat turned upward in price today during the early transactions, offerings being limited and the Liverpool market appearing to reflect fully yesterday's weakness in America. Talk was current that rural holders had largely stopped selling, and it was pointed out that the amount of wheat afloat for Europe showed a falling off as compared with a week ago. Commission houses and shorts were the chief buyers. The opening, which varied from unchanged figures to ⅜c higher with September $1.07½ to $1.08 and December $1.09⅜ to $1.09⅝ was followed by moderate gains all around.

Corn and oats lacked any aggressive support. After opening a shade to ⅜c lower, September 62⅞c, the corn market continued to sag.

Oats started unchanged to ⅛c higher, September 33⅝ to 33¾, and later underwent a moderate general setback.

Provisions were dull and weak despite higher quotations on hogs.

COTTON MARKET

NEW YORK, July 25.—The cotton market opened quiet today with prices 3 points lower to 1 point higher. After the start a firm tone developed on short covering and a moderate foreign demand, prices moving up to a net advance of 15 points.

The market was firm in the late dealings, closing at a net advance of 4 to 18 points.

FRUIT INTENDED FOR EAST NOW COMING HERE

Prices Make Another Slump as Heavy Shipments Congest Local Markets.

The wholesale market was wrestling with another deluge of produce today. Peaches, tomatoes, squash and cucumbers were particularly abundant, far beyond the capacity of the market to absorb them naturally. As a result price levels were very unstable and weak. Towards noon there were sales being made that did not represent much more than freight labor handling.

The truth of the matter is that the railway strike is beginning to cause growers and shippers in the interior to divert stuff to the bay that would otherwise go east. Should this condition continue many days the whole fruit and vegetable market will be "sick."

The threat of a railway tieup is further accented as far as the grower and shipper is concerned by the famine in box shooks. This has become a regular nightmare to certain growers, especially pear and apple men. There does not seem to be prospects for any immediate relief in sight.

Melons are coming in in large quantities from the Turlock region. A few honeydews were among the newcomers today and the first Persians are due about the first of the week. The prices are not very steady, cantaloupes especially showing weakness.

Arrivals today included two cars of watermelons, two cars of bananas, one car of lemons and one car of potatoes. Corn arrivals were 1500 sacks.

The California Peach and Apricot Growers have named opening trade prices:

Prime—Adriatic, 6¼c per pound. Standard—Calimyrnas, 8¾c; Adriatic, 6¾c; Black Mission, 11½c.
Choice—Calimyrnas, 11¾c; Adriatic, 8¾c; Black Mission, 14¼c.
Fancy—Calimyrna, 14¾c; Adriatic, 11¾c; Black Mission, 17¼c.

The above prices packed in 25-pound boxes. ¼c pound less for packing in 50-pound boxes.

Adriatics, ungraded, in bags, 7¼c per pound.

Adriatic Fig Paste, 75-pound boxes, 5½c per pound.

Twelve 10-oz. Bricks, Adriatics, $1.10 per box.

Twenty-four 8-oz. Bricks, Adriatics, $1.75 per box.

Fifty 6-oz. Bricks, Adriatics, $2.80 per box.

Seventy 4-oz. Bricks, Adriatics, $2.95 per box.

Twenty-four 8-oz. Bricks, Calimyrnas, $2.25 per box.

For foil wrap on Brick Figs, add 10c per box.

10-pound box, 4-row layer Adriatic, 2½ inch spread, $1.60.

10-pound box, 5-row layer Adriatic, 2 inch spread, $1.40.

10-pound box, 6-row layer Calimyrna, 2½ inch spread, $1.90.

Forty-eight 1-pound Round Box Pulled Calimyrna, $10.40 per case.

Six 5-pound Boxes Pulled Calimyrna, $6.60 per bundle.

OAKLAND PRODUCE

FRUITS.

Green Onions—Nominal.
Egg Plant—$1.50@1.75 per bushel.
Garlic—3½@5c per lb.
Turnips—$1.75 a sack.
Parsnips—$1.25 a box of 40 lbs.
Peppers—Chili, 8@10c; Bell, 12½@15c.
Radishes—20c per doz bunches.
Tomatoes—40-lb. lugs, 75c@$1; L. A. lug, 50@75c.
Cucumbers—25c per lug.
Rhubarb — San Leandro, $1@1.25 per box of 40 lbs.
Squash—25c per lug.
Peas—2@3c per lb.
Beans—Pole, 3@6c; Wax, 3@6c; String, 3@6c.
Artichokes—75@90c a dozen.
Okra—15@18c per lb.
Green Corn—$1.25@1.50 per sack.
Mangoes (Florida)—$5.50@6.00 per doz.

AUTOS.

NEW ORLEANS, July 25.—The increase in sales of motor cars that started three months ago is being steadily maintained, averaging about 100% over last year. Indications are that demand will increase as the year goes on.

Business and Finance

Liberty bonds continued to establish new high records on the Stock Exchange today, the 3½s rising to 101.16, the first 4¼s to 101.68 and the fourth 4¼s to 101.74.

Mexican Petroleum and Standard Oil of California, forfeiting large fractions to 1¼ points with Pan-American, Sinclair and Invincible at the opening of Wall street. Coca Cola, American Ice, Consolidated Gas, United States Rubber, Sears-Roebuck and Sumatra Tobacco also were heavy.

The market turned upward on short covering before the end of the first hour. Republic, Crucible and Gulf States Steels rose 1 to 2½ points. American and Bodwin Locomotives gained 1 to 1½ and Studebaker and Chandler recovered much of yesterday's losses. American Smelting, American Sugar, Allied Chemical and Industrial Alcohol advanced 1 to 2 points. Rails also strengthened, especially Atchison, Baltimore and Ohio, Chesapeake and Ohio, and New York Central but Atlantic Coast Line was heavy. Call money opened at 4 per cent.

The raw sugar market was strong and prices were 1-16 cent higher with Cubas quoted at 3¾c cost and freight; equal to 5.36 for centrifugal. There were sales of 25,000 bags of Cubas for August shipment. Continued buying by trade interest and Wall street, the latter said to be for Western account, led to renewed strength in raw sugar futures. At mid-day prices were eight to nine points net higher, the highest level recorded this year.

On the New York curb interest was attached to the automobile group because of the persistent accumulation of Durant Motors, which in the early trading rose to the new high of 41⅜. Moon Motors sold off from 10⅞ to 10⅝. Locomobile shares were sold at 40 cents, but shortly after noon the price declined to 10 cents. Glen Alden Coal was firm with a moderate business at 55⅝.

Leading oil stocks continued under pressure, Standard Oil of Indiana ranging during the forenoon from 106 to 105 on sales of over 11,000 shares. Standard Oil of New York sold at 465 to 410 and Standard Oil of Ohio at 458. The announcement of the reduction in the price of California Crude was an incentive for selling and nearly all the issues in the oil group were in supply at declines, Carib Syndicate was an active feature selling at 7⅛ to 6¾.

• • •

SOUTHERN EDISON TO SELL PREFERRED STOCK.

Southern California Edison Company has been given permission by the railroad commission to reclassify its stock and to issue and sell $6,500,000 of 7 per cent cumulative non-participating preferred stock to retire outstanding second preferred stock and for development work. According to the plans of the company outstanding first preferred stock amounting to $4,000,000 will be designated as original preferred. Second preferred amounting to $12,020,900 of second preferred is to be retired and the common stock is to be reduced from $83,500,000 to $60,000,000. A meeting of the stockholders called for August 1 is expected to ratify these changes. The company's authorized capitalization of $100,000,000, to consist of $4,000,000 or original preferred, $36,000,000 of 7 per cent cumulative non-participating preferred and $60,000,000 of common stock.

The company has been authorized to use the proceeds of $3,444,900 stock sales previously authorized to retire second preferred stock. The company is permitted to retire $12,000,000 of second preferred stock held by H. E. Huntington who has agreed to sell this stock for $9,000,000 and to take $4,000,000 of the new issue of 7 per cent preferred. In addition to the common stock authorized $2,000,000 additional of the new preferred will be sold to retire the second preferred.

LOANS ARE REDUCED, INVESTMENTS INCREASED.

Any attempt to measure the effects of changes in business and industry from the standpoint of day to day developments is usually unsatisfactory, inasmuch as there is too much disposition to pay attention only to details without obtaining the proper perspective. Recovery in a period of reconstruction is always a halting affair. For two steps forward, there is often one step backward. Frequent disappointments administer shocks to confidence. Judged over an extended period, it is possible to derive much encouragement over the gains that have been registered, says the Wollman Review.

Primary consideration should be given to our money and credit situation which indicates that to all intents and purposes, deflation has run its course. The culmination of this process is indicated by the falling off in the reduction of loans. Since the first of January, 1921, loans have been reduced by the banks of the Federal Reserve System to the extent of about $2,500,000,000. For the second quarter, the the first three months of the present year amounted to about $360,000,000. For the second quarter, the reduction was only about $59,000,000. In other words, the shrinkage in loans is gradually growing smaller. For the same six months of last year, loans were reduced to the extent of $1,433,000,000.

A detailed study of the figures shows that the greater part of the reduction has been brought about by the liquidation of commercial loans, although there has also been a heavy reduction in governmental paper. On the other hand, investments in securities have increased. This indicates that inventories have been cut down, converted into cash and the latter turned into securities.

FERRY FINANCE PLANS REFUSED BY RAIL BOARD.

The Railroad Commission has refused the request of the San Francisco-Richmond Ferry Company to modify its financing plans for acquiring two ferry boats, wharves, slips and other facilities.

The company desired to issue $350,000 of its common stock, instead of $800,000, as previously authorized, and to be permitted to create a serial equipment trust and to issue 7 per cent trust notes or create a bond issue to pay for two steel ferry boats to cost approximately $800,000.

The company represented that a shipbuilding concern is willing to undertake construction of the boats and upon their competition the ferry company proposed to sell the equipment trust certificates or bonds.

The commission held that not until the company has sold enough stock to cover the cost of acquiring and constructing terminal facilities and to build at least one boat, will further consideration be given to the issue and sale of equipment trust certificates or bonds.

STOCK OF PHILIPPINE SUGAR ESTATE OFFERED HERE.

An issue of preferred 7 per cent cumulative stock of the Calamba Sugar Estate which owns 18,000 acres of land on the Island of Luzon in the Philippines, of which 12,000 are already under sugar cultivation, was offered the bay investigating public today through a syndicate composed of Strassburger and Company, William Cavalier and Company, McDonnell and Company and Sutro and Company. The amount of stock offered is $1,228,100.

The Calamba Sugar Estate owns directly a modern sugar mill, ice plant, warehouses, lime plant, office buildings, dwelling and town sites, which together with the real estate has been recently appraised at $4,600,000. The company also owns thirty-five miles of railroad and has installed water, sewerage, irrigation, electric light and telephone facilities having a value of $900,000.

In addition to its own mill properly, the company during 1918, jointly with the J. D. and A. B. Spreckels Securities Company, built the Pampanga Sugar Mill, with present grinding capacity of 40,000 tons, at an initial cost in excess of $3,000,000, more than $4,500,000 having been invested in this mill to date.

The estate for this expenditure, which was taken out of earnings, received $1,500,000 of Pampanga Sugar Mills Company first mortgage 6 per cent bonds and 15,000 shares of its common stock, one-half of the total issue of each. The interest derived from the Pampagna bonds is equivalent to about one and one-half times the amount required to pay yearly interest on all the Calambra Sugar Estate first mortgage 6 per cent bonds outstanding.

During the 1920-1921 season Pampanga Sugar Mills produced 21,370 tons, and during the 1921-1922 season 28,000 tons of sugar. It is estimated that 38,500 tons will be the production for the 1922-1923 season.

The company's average annual earnings for the last seven years amount to 4.42 times dividend requirements. Net assets total $267.90 for each share of preferred stock outstanding.

• • •

BIG UTAH ESTATE IS SECURITY FOR BONDS.

An issue of $2,300,000 first mortgage and collateral trust 7 per cent serial gold bonds of the David Eccles Company was put on the bay market today by a syndicate composed of Cyrus Peirce and Company and others.

The bonds mature 1924 to 1932. They are redeemable as a whole, or in part, on any interest date, upon sixty days' notice at a premium of 1 per cent for each year, or part of a year, from date of redemption to maturity.

The David Eccles Company was incorporated under the laws of Utah in 1915 for the purpose of acquiring and conserving the interest of the beneficiaries of the estate of David Eccles. The estate consists of extensive timber, railroad, sugar and coal interests located in the States of Oregon, Idaho, Wyoming, Utah and Nevada—one of the most important single aggregations of properties in the West.

The proceeds derived from the sale of the issue will be used to reduce the company's current indebtedness and to purchase from the Oregon Lumber Company which is controls, $1,000,000 of its first (closed) mortgage 6 per cent bonds, due 1937, pledged under this issue.

The bonds will be a direct obligation of the David Eccles Company and will be secured. In the opinion of counsel, by a direct first mortgage on the David Eccles building in Ogden, and by a pledge of bonds and stock of affiliated companies. The fair market value of the mortgaged and pledged property is $6,869,036, or at the rate of $2986 for each $1000 bond.

Corporate business of the state has increased nearly three-fold in six years, according to the report of Corporation Commissioner Edward M. Daugherty.

The total authorized capital stock of corporations making application to the department during 1917 was $386,612,407, while in 1921 the total reached the sum of $1,005,189,975.

Since most of the business in California is conducted by corporations, Daugherty declared, the total authorized capital during the last six years is a fair barometer of the pace of progress.

The report gives the total authorized capital for the following years: 1917, $386,612407; 1918, $327,944,436; 1919, $537,346,096; 1920, $939,961,506; 1921, $1,005,189,975.

NEVADA-CALIFORNIA ELECTRIC SHOWS LARGE GAINS.

Substantial increases in the earnings of the Nevada-California Electric Corporation and subsidiaries are shown in its income statements for June and the year ended June 30, made public by Blyth, Witter and Company.

A comparison of the June statement with that of June, 1921, reveals: Gross earnings, $473,806, an increase of $125,490; operating and general expenses and taxes, $239,189, an increase of $57,427; profits from operation, $234,617, an increase of $68,064; non-operating expenses (net), $125, a decrease of $452; total income $234,742, as against $165,975; interest on bonds, debentures, notes, etc. (net), $66,972, as against $64,654; balance, $167,770, an increase of $66,450; depreciation, $22,588, as against $23,899, while net earnings practically doubled, being $144,182, as against $77,421 a year ago June. After organization expenses, discounts and expenses on securities sold and miscellaneous additions and deductions the surplus for the month stood at $141,771, as against $73,006 for June a year ago. After appropriating from the surplus for bond redemption the available surplus was $124,599, as against $62,923 for June, 1921.

ANTIOCH RAILWAY ASKS BOND PERMIT.

The San Francisco-Sacramento Railway, formerly known as the Oakland and Antioch, has applied to the Railway Commission for leave to issue $200,000 worth of 6½ per cent bonds, the proceeds to be used for extensions and betterments.

HOLLY SUGAR COMPANY EXTENDS ITS ACTIVITIES.

Announcement is made of the merger of the Holly Sugar company, which recently acquired control of the Alameda Sugar company with the Grand Junction Sugar Company of Western Colorado. The Holly company has now increased its productive capacity to 1,200,000 bags a year. It now owns outright plants at Huntington Beach, California; Swink, Delta and Grand Junction, Colorado, and Sheridan, Wyoming. It also owns 50% of the stock of the Southern California Sugar company and 69% of the stock of the Santa Ana Sugar company, both operating plants at Santa Ana, California.

The enlarged company occupies with the Spreckles interests and the American Beet Sugar company, a leading place among beet sugar producers in California.

Iron Products—Regular dividend of 2 per cent on preferred.
Porcupine Mines—Dividend of 25 cents a share.
North American Co.—Regular dividend of 3¼ per cent on preferred.

STEEL FIGURES SHOW DECREASE, DUE TO STRIKE

Preparations Are Now Being Made for Autumn Activity in Belief Peace Near

BY CONSOLIDATED PRESS LEASED WIRE TO TRIBUNE.
By H. B. LAUFMAN.

PITTSBURGH, July 25.—An increase in production of the principal industries of this section is not expected this month. This is due to the existing labor conditions. Industrial plants are still receiving enough coal to maintain production but the rail strike has raised new barriers to additional distribution. However, preparations are being made for an active autumn in the belief that the labor situation has reached a point where the solving of disturbing problems will be forced. This trend is evident from the purchase of wholesalers and jobbers and from the views expressed by heads of industries.

Iron and steel production is holding up well. Pig iron softened although coke has moved to new high levels for the year across $11 a ton. Sales of basic iron are reported at $24 valley against a recent high of $25. This is in line with the movement of the Southern Irons. There are still differences between the prices named by independents and the leading interest in certain lines of steel, especially in semi-finished products.

Merchants have reduced their stocks in a seasonal manner. Summer goods have been bought on a liberal scale and slashing of prices to clear shelves has been less pronounced than usual.

ST PAUL

By E. D. JUNCKES.

ST. PAUL July 25.—The marketing of the excellent crops of the Northwest and the distribution of the winter's coal supply will be seriously hampered by the shortage of rail equipment certain to result from the shopmen's strike, according to railroad executives here. Seventeen days of urgently needed repair work has been lost and this cannot be made up in time to prepare adequately for the fall rush even if the strike ended today. Twin Cities business men declared in some instances today that they were genuinely alarmed over the situation as they feared the rapid recovery of business which had been well under way, had been retarded.

The harvesting of rice and wheat has begun in Minnesota and Northern Iowa with prospects of an excellent yield. Crop reports from numerous sources all forecast satisfactory production of grain, corn and potatoes through the Northwest.

Increased trades in the Twin Cities is indicated by the purchases of postal money orders throughout this section. This is taken to show that the farmers are buying. There has been a decided increase in the parcels post business through the St. Paul and Minneapolis postoffices. Farm land prices are stiffening and Minnesota and Wisconsin bankers predict an increasing demand for Northwestern lands.

Durant to Build New Model Cars

LANSING, Mich., July 25.—Application for charter was filed here by the Flint Motor Company headed by W. C. Durant. The company, capitalized at $5,000,000, plans to build a plant at Flint, for the manufacture of automobiles after the models of the Willys Corporation of Elizabeth, N. J., which was recently acquired by Durant.

FURS.

NEW YORK, July 25.—The season gives promise of producing an expansion of the August fur sales idea. Raw fur prices show little change.

Strikes Costing Country About 8 Millions Daily

(By Associated Press)

NEW YORK, July 25.—A pessimistic picture of business conditions resulting from railroad, coal and textile strikes is painted with figures included in the weekly review of industrial conditions made public by the National Industrial Conference Board, an employers' organization. A depressing effect on business generally is evident, the review said. "Altogether over 2,000,000 persons are voluntarily idle through strikes, and since the beginning of July, 100,000,000 man-hours of work have been lost each week. With the average wage of labor taken at 50 cents an hour, the wages alone since the first of the month has been in excess of $150,000,000 and is proceeding at the rate of over $8,000,000 a day. This, in effect, means a serious contraction in purchasing power which in turn may have its effect on future employment and general business conditions.

The conference board reports a slight increase in the cost of living since May 15, with a 24 per cent recession from the peak reached in July, 1920.

"Reports of wage changes gathered by the conference board," the review said, "show that between June 15 and July 15 the number of decreases slightly exceeded the number of increases."

Deluge of Oil Causes Standard To Cut Prices

THE Standard Oil Company of California today issued a statement at its general offices in San Francisco announcing a reduction in price for all grades of crude oil at the well of 25 cents a barrel. The company also announced a temporary discontinuance of its practice of contracting for the purchase of crude oil. The company's statement reads:

"As a consequence of the continued overproduction of crude oil the Standard Oil Company reduces its offered prices for all grades of crude oil at the well, 25 cents per barrel. The company also announces a temporary discontinuance of its practice of contracting for the purchase of crude oil. It will accept new production of crude oil on a daily run basis only with the understanding that oil is taken from day to day as the company's facilities will permit.

"The flood of overproduction in Southern California shows no present sign of abatement, but on the contrary will probably materially increase within the next sixty days. At great expense the company is making every effort to provide additional storage for the surplus oil which it is now purchasing, but it will be a physical impossibility to provide the necessary facilities if production continues to increase at the present rate."

Walsh Protests Tariff Wool Duty

WASHINGTON, July 25.—Enactment of the wool duties proposed in the pending tariff bill would result in a burden upon the people at least as large as that imposed by schedule K, of the Payne-Aldrich law, Senator Walsh, Democrat, Massachusetts, declared today in a formal statement. Senator Walsh, who is in charge of the Democratic fight in the Senate against the wool duties contended that the 33 cents a pound duty on raw wool alone would increase the nation's clothing bill by $200,000,000 annually.

Senator Walsh said he would not argue that the woolen industry administration," with a resultant re-writing of the tariff. did not need protection but said this protection should be moderate and that the cost to the public should be taken into consideration.

In a statement issued today, through the committee for a non-partisan scientific tariff, Senator Townsend, Republican, Michigan, announced his support for the Frelinghuysen amendment to the pending bill proposing a "scientific" tariff to be based upon findings of the tariff commission. Senator Townsend was quoted as saying that such a tariff making system woud be of great benefit to the country, which, he contended, "suffered beyond calculation every time there is a general change in

Shipping Deficit Shows Reduction

WASHINGTON, July 25.—Shipping Board vessel operations in June cost $2,783,216 in excess of income, Chairman Lasker announced today.

If this ratio could be maintained throughout the year, the deficit would be kept under $36,000,000, although this was an increase of $122,729.48 over the May expenses.

In June, for the first time, income exceeded outlay on voyage operations in the sum of $204,531.75. Improvement is attributed in part to the increase in passenger revenues.

Considerable improvement also was noted in the option of cargo vessels. Excess of outlay over income in May amounted to $863,320.47, as against $317,515.78 in June, an improvement of $543,503.69.

The outay for repairs was $1,461,016.71 for June, an increase of approximately $450,000 over May. Better operating results were registered as a result of the betterments and repairs.

AUCTION SALES AUCTION SALES

NEW ISSUE

$2,300,000

David Eccles Company

First Mortgage and Collateral Trust 7% Serial Gold Bonds

Dated June 1, 1922. Due serially each year from June 1, 1924, to 1932, inclusive

Interest payable semi-annually June 1 and December 1, at First Trust and Savings Bank, Chicago, Trustee, without deduction for Normal Federal Income Tax not exceeding 2%. Denominations $1,000, $500 and $100, interchangeable. Registerable as to principal only. Redeemable as a whole or in part, on any interest date, upon sixty days' notice, at a premium of 1% for each year or part of year to elapse from date of redemption to maturity date. Redemptions to be made in inverse order of maturity, unless made out of funds derived from release of pledged bonds of Utah Idaho Central Railroad, or pledged shares of Amalgamated Sugar Co., or from excess dividends on stock of Oregon Lumber Company, in which case such funds to be first applied to retire bonds of next maturity and then to redemption of remaining bonds in proportionate amounts of each maturity.

We call particular attention to the following facts summarized by Mr. James E. Fickett, Vice President of the Company:

Business—The David Eccles Company was incorporated under the laws of Utah in 1915 for the purpose of acquiring and conserving the interests of the beneficiaries of the estate of David Eccles. The estate consists of extensive timber, railroad, sugar and coal interests located in the States of Oregon, Idaho, Wyoming, Utah and Nevada—one of the most important single aggregations of properties in the West.

Security—These bonds will be a direct obligation of the David Eccles Company and will be secured, in the opinion of counsel, by a direct first mortgage on the David Eccles building, located in Ogden, Utah, and by a pledge of bonds and stock of affiliated companies. The fair market value of the mortgaged and pledged property is $6,869,036, or at the rate of $2,986 for each $1,000 bond.

Earnings—During the six years ended December 31, 1921, net earnings of the David Eccles Company, as reported by independent auditors, applicable to the payment of interest, have averaged more than 1.85 times the maximum interest requirement of this issue. Our present plans call for the retirement of this issue through liquidation of assets not pledged under this issue and through sale of part of the pledged securities.

Financial Statement—The Company's balance sheet of April 30, 1922, certified by independent auditors, but after giving effect to this financing, shows a net worth of $7,253,320.

Purpose of Issue—The proceeds derived from the sale of this bond issue will be used to reduce the Company's current indebtedness and to purchase from the Oregon Lumber Company, which it controls, $1,000,000 of its First (closed) Mortgage 6% Bonds, due 1937, pledged under this issue.

General—The Companies whose securities are pledged for this issue are all old, well-established concerns; the properties are thoroughly modern and maintained in excellent condition. The varied nature of the business represented is a factor of additional safety.

We offer these bonds for delivery when, as and if issued and received by us, subject to the approval of our counsel, Arthur B. Schaffner, Esq.

Maturities, Prices and Approximate Yields

Maturity	Amount	Price	Yield	Maturity	Amount	Price	Yield
1924	$255,000	$100.00	7%	1929	$255,000	$98.125	7.35%

PINCH HITTER FOR KATRINKA HEARD TONIGHT

Tribune to Broadcast Test Tonight; Tomorrow Voice of George F. Coombes.

"Little Jimmie," the TRIBUNE'S emergency radio broadcasting set which will pinch-hit for "Powerful Katrinka" from KLX, will make his initial utterance tonight at 7:30, when dance music will be broadcast over the ether waves. "Powerful Katrinka" is being assembled and will go to work about August 1. In the meantime "Little Jimmie" will be on the air.

The program tonight will be jazz music by phonograph records, this class of entertainment having been selected in order that the initial test may obtain maximum results. The phonograph music serves best for testing on the carrier wave for modulation.

Instead of broadcasting tomorrow evening on the time of KZY, the Atlantic-Pacific company, KLX, the TRIBUNE will broadcast on that concern's time tomorrow afternoon between 3:30 and 4:30 o'clock. This change was made in order to permit KPO, Hale's, to broadcast music by the Berkeley Orchestra tomorrow evening between 7:30 and 8:15.

The program tomorrow afternoon from KLX will be furnished by George F. Coombes, an operatic baritone of rare abilities who is one of the old class of singers. He will be accompanied on the piano by Mrs. Coombes. This program holds much promise for those who are fond of high-class operatic singing.

'Round-World Flyer Wrecks Airplane

LONDON, July 25.—(By Associated Press.) — The airplane in which Major W. T. Blake, the British aviator, attempting a round-the-world flight from England, crashed to the ground at Sibi, British Beluchistan, near Quetta, Saturday, says an Exchange Telegraph despatch from Karachi today. The aviator escaped injury but the under carriage of his plane was smashed.

Air force mechanicians from Karachi have been sent to assist in constructing a new under carriage for the damaged plane. Sibi is 360 miles from Karachi and the continuation of the flight which Major Blake began from Croydon, May 24, is likely to be delayed a week.

JAILED IN ALIMONY DEBT.

SAN FRANCISCO, July 25.—Louis Burkhart, a painter, was sent to jail today by Superior Judge Shortall because he failed to pay alimony ordered by the court. He was $600 in arrears. When he appeared today he offered Judge Shortall $5 on account. This was refused. He raised the amount to $25, but still the court declined to relent. He was told that he would have to hand over the entire $600 and stay behind the bars until the money was paid.

Here's Program For Broadcasting This Evening

FOLLOWING is the radio broadcasting schedule for this evening, beginning at 5:30 o'clock.

5:30 to 6:00—Sacramento Bee, press and concert. (KVQ).
5:30 to 6:45—Examiner, weather report, press and concert. (KUO)
6:30 to 7:00 — Modesto Herald, press,. (KXD).
6:45 to 7:00—The Western Radio Institute, KZM, Hotel Oakland station, broadcasting for KZY, Atlantic-Pacific Radio Supplies Company, news furnished by The Oakland TRIBUNE.
7:00 to 7:15—Fairmont Hotel, financial news and stock reports. (KDN).
7:15 to 7:30 — The Oakland TRIBUNE, complete general news summary of the day; sports. (KLX).
7:30 to 8:15—The OAKLAND TRIBUNE, dance music. (KLX).
8:15 to 9:00—Radio Shop, Sunnyvale, concert. (KJJ).

WEDNESDAY'S PROGRAM

9:00 to 10:00—Hale Brothers, San Francisco, concert. (KPO).
10:00 to 11:00—Emporium, San Francisco; concert. (KSL).
11:00 to 12:00 — Hale Brothers; concert. (KPO).
12:00 to 1:00—Warner Bros.; concert. (KLS).
1:00 to 2:00—Fairmont Hotel; concert (KDN).
1:00 to 1:30—Herrold Laboratories, San Jose, concert. (KQW).
2:00 to 3:00—Emporium, concert. (KUO).
3:00 to 3:30—Examiner; concert (KSL).
3:30 to 4:30—The OAKLAND TRIBUNE, KLX, broadcasting special entertainment on time of KZY, Atlantic-Pacific Co.
4:00 to 5:00 — Portable Wireless Telephone Company, Stockton, concert. (KWG).
4:30 to 5:30—Fairmont Hotel, concert. (KDN).
5:00 to 5:30—Gould, Stockton, concert. (KJQ).

Wife Says Neighbors Heard Hubby's Talk

Whenever a family quarrel started in the Wylie home, John R. Wylie, the husband, would open a window, stand near it and talk so loud that the neighbors could hear the entire dialogue, according to a divorce complaint filed in the superior court on behalf of Frances Wylie.

The plaintiff alleges that her husband struck her on many occasions, and at one time left her and their two children sitting in a machine at Niles for five hours, during which time he was gambling in a nearby cigar store.

The couple were married in San Francisco in January, 1919, and separated in this city July 22 last.

Husband Says 'Quits' And Fails to Return

"I call it quits," said Douglas H. Kelly, as he put on his hat and left his home, to which he has not returned, according to a divorce complaint on file in the superior court in which Edith L. Kelly is plaintiff.

The couple were married in Alameda in September, 1920, and separated a year later. The plaintiff alleges that her husband went to his mother with his family troubles, and as a result the mother-in-law interfered with the family life of the Kellys.

If you see it in The TRIBUNE tell them so.

RADIO SIGNALS IN MOUNTAINS TO BE TESTED

R. D. Lowell Goes to Investigate Difficulty Encountered in High Places.

Having established a number of long-distance radio receiving records, and completed a month of experimenting with radio frequency amplification, R. D. Lowell, 1420 Linden street, one of the foremost radio enthusiasts of the west, will leave Thursday for the High Sierras to find out for himself why radio reception in the mountains has not been a success. He will spend a week experimenting with all kinds of areial and in all sorts of locations, taking into consideration all the situations that radio men have encountered while attempting mountain reception of radio signals.

In making this test Lowell will be the first so far as known to attempt to ferret out the mysteries of mountain reception of radio signals at his own time and expense. Radio men say his experiments will undoubtedly reveal some of the reasons why moutnain stations have not operated properly, and his tests may open the way for greater success of radio sets at mountain resorts and a spots in the far reaches of the mountain ranges.

ANSWERS TO QUESTIONS

Radio Editor TRIBUNE: Please let me know if the new TRIBUNE broadcasting station is to broadcast news, as we live a long way from the city and we always get the TRIBUNE'S news broadcast long before the papers. Sometimes we do not get it, but I guess that is due to the low power of KZM. We are anxiously awaiting "Little Jimmie" and "Big Bertha."

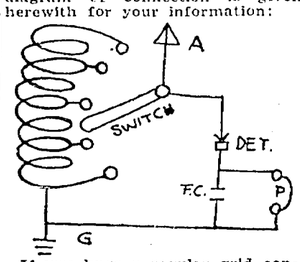

Ray L. Brown, Sonora.

Yes, KLX will broadcast news between 7:15 and 7:30 every evening except Sunday. The TRIBUNE will also continue to furnish news bulletins to KZM, which will broadcast between 6:45 and 7 o'clock temporarily on the time of KZY.

Radio Editor TRIBUNE: I have a crystal set that consists of a small grid condenser with ten taps and a telephone receiver. My aerial is of two strands and 54 feet long. I can't hear anything with it. Will you please tell me why?

Member OTRC 1465.

It is impossible to say what might be the trouble, as we have no idea of how the set is hooked up. A diagram of connection is given herewith for your information:

If you have a regular grid condenser across the phones we would advise you to replace it with a .001 MF phone condenser, as the ordinary grid condenser has too small a capacity for the phones.

Radio Editor TRIBUNE: I would like to know if it is bad for the tube on an audion set to get hot or warm.

Henry Olime, Soquel.

No, it will not damage it. All tubes get hot.

The Oakland TRIBUNE

THIS COUPLE WON'T START FOREST FIRES

"So you are going camping in the Sierras during John's vacation this year?"

"Yes, and we really are terribly thrilled about it. I know you won't believe it, but neither of us has ever camped in our life. John is reading all the camping literature he can find."

"Of course, you are thrilled. Who wouldn't be on their first camping trip? I suppose you are working on the list of things not to take. First time campers usually pile everything in the car from the tea wagon to the piano."

"Oh, we aren't that bad, really; but we are learning a lot about camping from books we are reading."

"Don't do like the Oaklanders I read about who were arrested for leaving fires in the forest and had to spend their vacation in a small town jail."

"No danger. We realize the terrible importance about the fires. What worries me most right now is what to wear."

"Oh, let me tell you about some adorable tweed suits that are on sale at Cherry's, at 515 13th street. They are beauties for $19.50 and are worth up to $49.50. They are wonderful on a camping trip and they wear like iron. Get your suit cleaned when you come home and use it for street wear. One can't wear those tweeds out. Cherry's sell on credit, you know, and their Semi-Annual Clearance Sale is on right now.

Cherry's store for men is at 528 13th street.—Advertisement.

Lesson No. 115

The Construction of Vacuum Tubes

(All Rights Reserved by United Feature Syndicate. Reproduction Prohibited.)

One of the most important parts of the modern radio set is the vacuum tube, which is employed both in transmitting and receiving. It consists essentially of a highly evacuated glass tube in which are inserted three elements known as the plate, grid and filament.

F = Filament
G = Grid
P = Plate
C = Circuit Connections

Vacuum Tube For Detection

The diagram shows the general construction of a typical vacuum tube used for reception purposes, the upper half of the sketch being in cross-section to show the arrangement of the three elements. In the center is the filament, consisting of an inverted "V" of wire, usually tungsten sometimes coated with an oxide. Next to the filament and separating it from the plate is the grill-like network of wire in cylindrical spiral form known as the grid, and finally surrounding these two is the cylindrical metal plate.

There are four wires brought through the glass at the base of the tube, two for the filament and one each for the plate and grid. The tube itself is sealed into a cylindrical metal base of standard size on the lower end of which are mounted four prongs or contacts electrically connected to the four wires mentioned above. A pin projecting from the side of the tube at a certain place assures the insertion of the tube into the tube socket in such a way as to have the prongs make contact with the proper contact fingers of the socket.

Transmitting tubes are often made with different size bases or the pin in such a position that transmitting tube sockets can not be used for receiving tubes, thereby preventing accidental damage to the tubes.

The diagram above is that of a receiving tube for detection purposes. The degree of vacuum in receiving tubes affects the plate voltage required for satisfactory operation of the tube, the tubes with higher vacuums requiring the greater voltages. Tubes containing a small amount of air (gas tubes) are often excellent for detection purposes and usually require about 18 or 20 volts on the plate, while amplifier tubes usually more highly evacuated require 40 volts or more.

The various makes of receiving tubes vary somewhat in details of construction, but they contain essentially the same elements, and they are so built as to be interchangeable in the standard sockets.

Tubes for transmitting purposes contain the same three elements, but in the larger sizes provision must be made for insulating the elements to withstand voltages up to 2000, so the construction is slightly different.

The early vacuum tubes for radio detection purposes contained only two elements, namely, the plate and the filament and operated on the valve principle in a manner somewhat similar to the crystal detector. It was found that the insertion of the grid beween the plate and grid connected to the receiving circuit so as to receive charges from the aerial allowed modulation of the continuous flow of electrons from filament to plate with a corresponding change in the current flowing in the telephone circuit. The result is that two element tubes are now employed, chiefly for erectifying A. C. for the plate circuit of tube transmitters and for charging storage batteries for an A. C. source.

$75,000 FIRE DAMAGE.

CHICAGO, July 25. — Damage estimated at from $75,000 to $100,000 resulted from a fire which gutted a warehouse of the Hebard Storage Company here today.

Pain Around Your Heart?
It's Gas!

Those pains you get around the heart, after eating, are caused by gas pressure. If you want quick relief, procure a supply of Baalmann's Gas Tablets from the nearest druggist and take them as directed. The result will surprise and delight you.

Baalmann's Gas Tablets are made especially for the relief and prevention of gas in the stomach and bowels, whether due to simple indigestion, chronic dyspepsia or the after-effect of nervousness. They contain no pepsin or bismuth—no dope or harmful drugs of any kind. They act in a soothing, natural way upon the stomach—entirely different from anything you have ever used.

Be sure to get the genuine Baalmann's Gas Tablets in the yellow package. Price one dollar. For sale by the Owl Drug Company and all leading druggists. J. Baalmann, Chemist, San Francisco.—Advertisement.

KZM HANGS UP NEW RECORD FOR LONG SENDING

Tribune Station Is Heard in British Columbia, Distance of 910 Miles.

KZM, until today the radio broadcasting station of The Oakland TRIBUNE, located on the Hotel Oakland and operated by the Western Radio Institute, has established another long-distance record that has not been equaled during hot weather months by stations of ten and twenty times its power. A telegram yesterday, which was in the form of a query, was received by The TRIBUNE from the manager of the Okanagan Telephone Company, with headquarters at Vernon, B. C., a distance of 910 miles.

This distance does not constitute a record, for the radiophone has crossed the continent, but it does establish a record for a five-watt station for transmission in hot weather, when static is bothersome. There are several 50-watt stations and two 250-watt stations that have not succeeded in going so far. It is, of course a freak transmission. It was made on Friday evening.

Upon confirmation of the query the company sent the following telegram:

Vernon, B. C., July 24, '22.

TRIBUNE Oakland:

Clifford Greyell, employee of Okanagan Telephone Company here, listened in on Friday broadcast of Oakland TRIBUNE from Oakland. He heard distinctly Preston D. Allen announce dance number followed by orchestra.

"I heard the music quite clearly and it was revelation to me that I could hear Oakland so plainly as my set is only an amateur which I fitted up myself," said Greyell.

He attributes ability of his instruments to pick up Oakland station to fact that radio waves up coast to Columbia river thence over coast hills to Wenatchee and then up Okanagan valley here. So far he has been unable to tune in with Canadian Pacific coast stations.

Greyell now working with his set so he can catch more Oakland programs because "they are best I've heard yet," he declared.

(Signed) McTAGGART.

K. P. GRAND LODGE SESSION OPENED

The Grand Lodge, Knights of Pythias (colored) of California is meeting in its eleventh annual session for a three-day conference which started yesterday at Foresters' hall.

More than seven hundred delegates are in attendance at the conference, which was opened yesterday morning with an address and a report by the grand chancellor of the order, who is J. C. Rivers of Oakland. He reported that there was a surplus of over $10,000 in the endowment fund and that there had been but nine deaths during last year.

A street parade was held last night, which was participated in by the delegates. Election of officers and the mapping out of future plans will occupy the time of the delegates until the conference is brought to a close tomorrow night.

Radio Works Between France and N. Y.

(By International News Service.)

PARIS, July 24.—Communication between America and France has been further facilitated by the opening to public use of the wireless station at Sainte-Assise, which sends directly to New York. It is said to be the most powerful wireless station yet constructed.

Wife Finds Static In Radio of Love

Chester H. Jordan, a radio operator, failed to broadcast love or to tune in on happiness when he was at home, according to a divorce complaint filed in the Superior Court yesterday by Betty E. Jordan. She alleges many acts of cruelty during the year of the couple's married life. They were married at Tacoma in May, 1921, and separated in this city two days ago.
